*Dodge Caravan Chrysler Voyager & Town & Country Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck. For deals on wheels, 2013 will be a "perfect storm." There's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that's still reeling from a series of natural disasters. In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases, and free auto maintenance programs. Buy, sell, or hold? Which cars and trucks are "wallet-friendly" and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM's 2013 Volt electric car destined to become an electric Edsel? These questions and more are answered in this informative guide.*

*Motormouth The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.*

*Access From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed colossal failure and sharp recovery is explained in Riding the Roller Coaster, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler—its products, people, and performance over time—with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders—including Chrysler himself and Lee Iacocca—emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.*

*Boating Precious Cargo is a term safety advocates use to describe helpless children who are at risk when riding in automobiles. These fragile passengers are dependent upon parents and caregivers to protect them and ensure their wellbeing. Motor vehicle crashes claim thousands of child fatalities and debilitating injuries every year. Unrestrained children are at the greatest risk of death and serious injury. Use of Child Restraint Systems is essential to protect your loved ones. The author reviews the historical basis of child car seats and the evolution of child safety restraints to date. Child restraint systems have a proven record of saving the lives of numerous children, and reducing serious injury of thousands of others. However, it has been a rocky road. Current child seats are effective when used correctly but misuse, confusion, and product recalls have tainted the industry. Progress toward advancing child safety has stalled; with little progress over the past 40 years. Obsolete and ineffective testing methodology needs to be corrected to advance the state-of-art. The Car companies are not involved in child restraint design, crash testing or vehicle installation problems. The National Highway Traffic Safety Administration (NHTSA) oversight has been negligent and ineffective in advancing child safety technology. Cooperation between car companies, child seat manufacturers, NHTSA, and concerned safety advocates as the way-forward to advancing child safety is presented.*

*Lemon-Aid New and Used Cars and Trucks 2007–2017 Don't be a Dummy is a primer on automotive safety. It is Auto Safety 101. What every driver or passenger should know because it May Save Your Life; or a loved one. The author uses personal experience and crash dummies to explain the consequences of not following the laws of Physics and not utilizing the safety features that are available to both drivers and passengers of automotive vehicles. The focus of this book is driver-responsibility and the need to educate the public about common hazards and vehicle misuse. Large car versus small car data analysis warns about vehicle incompatibility and the need for purchasers to consider the serious consequences of selecting a vehicle to buy based only on fuel economy and low cost. Federal safety standards are discussed and what the Five (5) Star Rating System really means. ? The quest for fuel economy may risk your family's life or result in serious injury! ? Fuel economy may be false economy! ? The size and weight of your vehicle can mean life or death or serious injury! ? Protect loved ones and save the children. Always use the proper child restraint! ? Speed, Alcohol and Drugs are killers. Don't be a Dummy!*
