Sarah Burwash has been visiting rural communities and remote areas to attend artist residencies, travelling to different cities for art and craft sales, volunteering on farms and working at lodges in the rocky mountains. The Far Woods is a collection of watercolours and other works she produced during these residencies and travels. These drawings celebrate the wilderness, rural lifestyles and resourcefulness. Burwash turns to past generations who, by necessity, had to be self-sufficient and create systems of mutual dependence among community members. Burwash has been researching and immersing herself in environments where she can learn the stories, skills and gain the experience and perspective from earlier generations to create narratives that uproot her own personal mythologies. She seeks to uncover both humble and provocative histories, more specifically those of women who were brazen and persistent in forging for a new social order. She creates characters, environments and narratives that are lyrical yet quiet, like frozen moments from dreams or nightmares. Her work seeks the threads that connect the past and present, weaving imagery that urges people to wander through the drawings, discovering more upon each view and unfolding questions about our relationships to land, nature, spirituality and community.

From the author of Moon Spells comes a beginner's book about the moon's energy and how you can harness that lunar power in your everyday life. From new moons and eclipses to blue moons and the super moon, there are ample opportunities for the moon to influence our emotions and thoughts. Many believe our emotional potency is heightened during a super moon, while a new moon can bring change and new perspectives. Knowing when and how to use that power is key. In Moon Magic, you'll learn how the lunar phases influence our emotions and well-being differently and how to harness that power for healing, emotional strength, and physical and mental wellness. Third-generation intuitive Diane Ahlquist helps guide those new to the power of the moon through lunar recipes and simple exercises, such as intention setting and moon meditation to help you capitalize on the moon's inherent power and channel the moon's energy whenever you need it most.

The stars at Hanna's birth predict greatness, but she experiences precious little of it as the only girl growing up at an all male Monastery. Everyone there learns the same skills: how to perform basic magic spells and how to access the Memories, a pictorial historical system embedded into the brains of humans by the Ancients, a now defunct race. Even as she studies the Memories, Hanna wonders what could be so great about accessing them. Yet this ability is more exceptional than Hanna believes; most humans have lost the ability to access the Memories. Hanna earns exile for her father and herself when she inadvertently reveals that she knows the secret language of the Priests—a crime normally punishable by death. As Hanna and her father embark on their journey over frighteningly unfamiliar land and sea, searching for a safe place to make their new life, she ruefully longs for the security of the Monastery. Facing seasickness and walking distances greater than she has ever imagined, Hanna's doubts grow that she is bound for anything but despair and banishment. But the stars did speak the Truth. Greatness does await Hanna—if only she can survive being kidnapped, betrayed time and again, and can outrun a flood such as her world has never experienced before.

Hands-on activities, games, and crafts introduce children to the diversity of Native American cultures and teach them about the people, experiences, and events that have helped shape America, past and present. Nine geographical areas cover a variety of communities like the Mohawk in the Northeast, Ojibway in the Midwest, Shoshone in the Great Basin, Apache in the Southwest, Yupik in Alaska, and Native Hawaiians, among others. Lives of historical and contemporary notable individuals like Chief Joseph and Maria Tallchief are featured, and the book is packed with a variety of topics like first encounters with Europeans, Indian removal, Mohawk sky walkers, and Navajo code talkers. Readers travel Native America through activities that highlight the arts, games, food, clothing, and unique celebrations, language, and life ways of various nations. Kids can make Haudensaunee corn husk dolls, play Washoe stone jacks, design Inupiat sun goggles, or create a Hawaiian Ma'o-hauhele bag. A time line, glossary, and recommendations for Web sites, books, movies, and museums round out this multicultural guide.
