# Online Library Algorithms Dasgupta Solutions Manual

Niklaus Emil Wirth (born 15 February 1934) is a Swiss computer scientist. He has designed several programming languages, including Pascal, and pioneered several classic topics in software engineering. In 1984, he won the Turing Award, generally recognized as the highest distinction in computer science, for developing a sequence of innovative computer languages.

## **Anomaly detection: A survey: ACM Computing Surveys: Vol 41**

Jul 30, 2009 · Dasgupta, D. and Majumdar, N. 2002. Anomaly detection in multidimensional data using negative selection algorithm. In Proceedings of the IEEE Conference on Evolutionary Computation. 1039--1044. Google Scholar Digital Library; Dasgupta, D. and Nino, F. 2000. A comparison of negative and positive selection algorithms in novel pattern detection.
