Wall-E meets Hatchet in this New York Times bestselling illustrated middle grade novel from Caldecott Honor winner Peter Brown Can a robot survive in the wilderness? When robot Roz opens her eyes for the first time, she discovers that she is all alone on a remote, wild island. She has no idea how she got there or what her purpose is—but she knows she needs to survive. After battling a violent storm and escaping a vicious bear attack, she realizes that her only hope for survival is to adapt to her surroundings and learn from the island's unwelcoming animal inhabitants. As Roz slowly befriends the animals, the island starts to feel like home—until, one day, the robot's mysterious past comes back to haunt her. From bestselling and award-winning author and illustrator Peter Brown comes a heartwarming and action-packed novel about what happens when nature and technology collide.

Uses colorful pictures to introduce letter sounds. The parent card includes additional activities and games.

Embracing the enduring themes of family, fun, learning and visual delight, a father and child enjoy a lazy day together while learning what different animal groups are called.

This cult classic of gonzo journalism is the best chronicle of drug-soaked, addle-brained, rollicking good times ever committed to the printed page. It is also the tale of a long weekend road trip that has gone down in the annals of American pop culture as one of the strangest journeys ever undertaken. Now a major motion picture from Universal, directed by Terry Gilliam and starring Johnny Depp and Benicio del Toro.

Have you ever wondered how fish breathe underwater, how caterpillars transform into butterflies, how snakes slither, or why deer grow cumbersome antlers every year? This book on the anatomy and behavior of animals solves these mysteries in an irresistibly engaging way: by organizing the information by behavior or adaptation, instead of by species. Readers will learn about flight by looking at birds, insects, bats, and flying squirrels. They'll learn about skin by comparing scales, feathers, fur, and shells. How Animals Work explains the structures and systems of animal bodies, using exquisite photographs and diagrams to show how animals use their anatomy to move, communicate, hunt, and feed, and how their bodies enhance their chances in the struggle for survival.

Gordon and Li Li are cousins. Li Li is from Beijing, China, and speaks Mandarin. Gordon lives in Brooklyn, New York, and speaks English. When Li Li visits Gordon for the first time, the cousins must learn to communicate using simple, everyday words. Children and caregivers can read along with Gordon and Li Li as they learn basic English and Mandarin words and their correct pronunciation. Each spread of this sturdy book spotlights a different theme, including greetings, colors, numbers, and animals! And every word features the English and pinyin spelling along with the Chinese character and the phonetic Mandarin pronunciation to help readers practice. This is an adorable and informative must-have first words book for any family who wants to get little ones excited to open the door to learning a second language -- and future language success!

An introductory workbook, perfect for the young learner who wants to learn Spanish, teaches children useful, basic vocabulary for concepts and objects they encounter in everyday life.

Human-animal studies is an interdisciplinary field that explores the spaces that animals occupy in human social and cultural worlds. It examines the interactions humans and animals have with each other and the ways animal lives intersect with human societies. Since existing social orders rely on the exploitation of animals to serve human needs, the questions posed by human-animal studies touch upon a wide range of fundamental issues. Animals and Society provides a broad overview of this rapidly growing field. Margo DeMello offers students and scholars a holistic and comprehensive picture of the state of inquiry into the relationships that exist between humans and other animals. She considers interactions between animals and humans in social organizations, such as the family, the legal system, and political and religious institutions. A major focus is the social construction of animals in world cultures and the way in which these social meanings are used to reinforce and perpetuate hierarchical human relationships such as racism, sexism, and class privilege. The book also examines how different human groups construct a range of identities for themselves and for others through animals. This second edition of Animals and Society is fully updated and expanded throughout, enhancing the book's relevance for student and activist readers alike. It includes many new international examples, all-new case studies, and updated supplementary readings.

This stunning debut novel about grief and wonder was an instant New York Times bestseller and captured widespread critical acclaim, including selection as a 2015 National Book Award finalist! After her best friend dies in a drowning accident, Suzy is convinced that the true cause of the tragedy must have been a rare jellyfish sting—things don't just happen for no reason. Retreating into a silent world of imagination, she crafts a plan to prove her theory—even if it means traveling the globe, alone. Suzy's achingly heartfelt journey explores life, death, the astonishing wonder of the universe and the potential for love and hope right next door. Oddlot Entertainment has acquired the screen rights to The Thing About Jellyfish, with Gigi Pritzker set to produce with Bruna Papandrea and Reese Witherspoon.

"At the pet show, there are so many different types of pets. With dogs and cats, horses and chickens, hamsters and chinchillas--and many, many more--this book celebrates animal companions of all shapes and sizes"--

A little girl finds a reason she likes peas that has nothing to do with eating them.

A fascinating chronicle of the evolution of humankind traces the genetic history of the organs of the human body, offering a revealing correlation between the distant past and present-day human anatomy and physiology, behavior, illness, and DNA. Reprint. 75,000 first printing.

Peter has a dream that takes him across the sea.

"Animal Internet is a most important book. This excellent work could be a strong catalyst for people to rewild, to reconnect and become re-enchanted with all sorts of mysterious and fascinating animals, both local and distant. By shrinking the world it will bring humans and other animals together in a multitude of ways that only a few years ago were unimaginable."—Marc Bekoff, University of Colorado, author of Rewilding Our Hearts: Building Pathways of Compassion and Coexistence "An original book that goes against the trend to stubbornly keep nature and technology divided from one another."—Der Spiegel "Animal Internet is one of the most interesting books that I've read in recent years."—Bavarian Radio "What Pschera describes sounds futuristic but it's already widespread reality. . . . Pschera's book is not just popular science; he describes not only the status quo, but also thinks about an ongoing transformation."—Wired.de Some fifty thousand creatures around the globe—including whales, leopards, flamingoes, bats, and snails—are being equipped with digital tracking devices. The data gathered and studied by major scientific institutes about their behavior will warn us about tsunamis, earthquakes and volcanic eruptions, but also radically transform our relationship to the natural world. With a broad cultural and historical perspective, this book examines human ties with animals, from domestic pets to the soaring popularity of bird watching and kitten images on the web. Will millennia of exploration soon be reduced to experiencing wilderness via smartphone? Contrary to pessimistic fears, author Alexander Pschera sees the Internet as creating a historic opportunity for a new dialogue between man and nature. Foreword by Martin Wilewski, Director, Max Planck Institute for Ornithology Alexander Pschera, born in 1964, has published several books on the internet and media. He studied German, music, and philosophy at Heidelberg University. He lives near Munich where he writes for the German magazine Cicero as well as for German radio.

Animals herd, carry, pull, and even . . . keep us company! This nonfiction, easy-to-read picture book transports readers from an open field to a desert to a snowy tundra as animals of all kinds perform some very important work. The book ends with an endearing role reversal as a young boy gives milk to his cat, reminding readers that just as animals help people, people in turn can help animals. This book teaches readers about the variety of work animals and depicts the give-and-take of human/animal relationships. A map is included. Guided Reading Level C.

Presents rhyming words, numbers, colors, shapes, go-togethers, and directional words.

Cards are used to help your child learn numbers, counting, addition, and subtraction.

The Diary of the Forest is a very short flash story that is about the beautiful wonders of the forest. I want to share my imaginary experience of my journey in the forest. Can you imagine walking through a beautiful forest of beautiful trees, creatures, and tropical rain. Forests are relaxing and peaceful so I want to share my diary of the forest to my readers. Enjoy reading this beautiful short story.

The heartwarming tale of an irrepressible donkey who needed a home—and forever changed a family. Rachel Anne Ridge was at the end of her rope. The economy had crashed, taking her formerly thriving business along with it. She had been a successful artist, doing work she loved, but now she felt like a failure. How would her family pay their bills? What would the future hold? If only God would somehow let them know that everything was going to be all right . . . and then Flash the donkey showed up. If there is ever a good time to discover a wounded, frightened, bedraggled donkey standing in your driveway, this wasn't it. The local sheriff dismissed Flash as "worthless." But Rachel didn't believe that, and she couldn't turn him away. She brought Flash into her struggling family during their darkest hour—and he turned out to be the very thing they needed most. Flash is the true story of their adventures together in learning to love and trust; breaking down whatever fences stood in their way; and finding the strength, confidence, and faith to carry on. Prepare to fall in love with Flash: a quirky, unlikely hero with gigantic ears, a deafening bray, a personality as big as Texas, and a story you'll never forget.

One of the world's leading dog trainers shows how to increase your dog's IQ while deepening the bond you share. Dr. Bonnie Bergin originated the service dog concept and movement, and she has been training dogs to assist people with disabilities for more than thirty years. She knows that dogs have an almost limitless capacity to learn. Teaching dogs to read was one of her dreams—and now she has made that dream a reality with a system anyone can use with just about any dog. In this clear, inspirational guide, she provides step-by-step instructions for training the dog in your life to read flash cards with one-word commands and stick-figure drawings. With more than fifty instructional photographs, Teach Your Dog to Read is an amazing tool for making your dog smarter and enhancing your capacity to communicate with each other.

Kids will love to learn their letters with these adorable alphabetical creations. From Alligator to Zebra, each Alphabetimal features an animal in the shape of a letter, cheerfully posed in a ready-to-color habitat. Plus, all the letters are repeated at the end of the book, displaying the alphabet in its entirety.

For nearly 20 years, School Zone I Know It! Workbooks have set the standard for home learning materials. School Zone I Know It! Workbooks are developed by professional educators to complement the curriculum at each grade.

This classic card game can help kids learn the alphabet as they match uppercase and lowercase letters.

School Zone Start to Read! Books present beginning readers with a variety of captivating stories told through rhyme, rhythm, and repetition for easy reading. Each book builds children's reading vocabulary and features an exciting or amusing plot with beautiful illustrations that support and extend the text.

A grandchild helps create a bubbly kind of magic. Make your own bubbles and wands with this recipe.

This baby is happy. Can you make a happy face? Find the happy baby! This bold, beautiful board book features six essential facial expressions: happy, sad, angry, surprised, silly, and sleepy. The idea is simple: Show a large, establishing image of a baby's face, then children making the same face, then ask the reader to find that baby among several other faces. The very last spread includes all of the baby faces and a mirror so babies can watch themselves make every face imaginable.

Scholastic Early Learners: Interactive board books for hands-on learning! Get ready for Pre-K with these giant-shaped flashcards that introduce first concepts and help develop pre-reading skills! Pre-K flashcards contains 26 giant shaped flashcards designed to help children learn a variety of first concepts in preparation for entering Pre-K. One side of the flashcards has a picture, while the other side has the written word. By sharing the flashcards with an adult, children are encouraged to sound out the simple words, developing their awareness of letter sounds, increasing their vocabulary, and promoting their reading skills. With fun, colorful images and clear word labels, children will be introduced to first words from key first-concept topics, including colors, shapes, animals, and vehicles. The flashcards are perfect for little hands to hold, and are shaped to allow clear distinctions for adults and children between the different first-concept topics.

My First Quiz: Picture Book of Animals pages are bursting with lively illustrations and first question and answer activities! The colorful pictures engage toddlers while prompting them to observe and answer corresponding questions. The large format features loads of pictures on every spread, encouraging little learners to explore the pages to discover animals and their habitat.

Read along with this playful pup as he chews, digs, and slobbers his way into trouble Sniff shoes. Lick shoes. Gnaw shoes. More shoes! Uh oh your shoes? Bad dog, Flash! When it comes to mischief, there are some things Flash just can't resist. From shoes to sticks and mud to licks, Flash gets into all kinds of trouble that elicits some (tough) love from his owners. But as all dog lovers know, you can only scold your puppy for so long and then it's back to giving them lots of love and affection!

These beautiful flash cards, featuring artist and author Eric Carle's familiar animal illustrations, serve as a lovely introduction to the ABCs. Printed on thick, sturdy board, they are perfect for small hands to hold and are equally suited for hanging on the wall in a child's room.
