From the creator of CAPTAIN UNDERPANTS, comes an out-of-this-world friendship adventure - now in full colour. Ricky makes a wish: if only his Mighty Robot had another friend who was his own size so he wouldn't have to hang out with Ricky all the time. Little does Ricky know, his wish is about to come true

During the years 1980-81, as guests of the Deutsches Woll forschungsinstitut in Aachen, Germany, we were working on a small book entitled, "Principles of Peptide Synthesis". In the library of the Institute we noted that the volumes of Houben-Weyl's Handbuch der Organischen Chemie dealing with peptide synthesis were so much in use that they were ready to fall apart because the researchers of the Institute consulted them with amazing regularity. They were looking for references, but even more for experimental details which could be adapted to the particular problem they happened to face. In planning a new synthetic endeavor they tried to lean on the experience of others in analogous situations. This suggested to us that a smaller and hence more tractable book may be needed, a volume which can be kept on or near the bench to make examples of fundamental methods readily available in the laboratory. Such a collection could save numerous short trips to the library, a point particularly important where a library well equipped with the sources of the literature of peptide synthesis is not near at hand. Also, we thought that the envisaged book may be welcome by those who are more versed in English than in German. To our best knowledge no similar publication is available.

When nine-year-old Kenny's tree house is destroyed by Hurricane Betsy, he plants an acorn that grows into a tree, and many years later, his children use it to hold a tree house of their own.

The Social Media Handbook explores how social media are changing disciplinary understandings of the internet and our everyday lives. In addition to person-to-person social networking services like Facebook and Twitter, this volume considers a broad range of networked information services that support in-depth social interaction, community formation, and collaboration in the Web 2.0 era. Rather than considering social media in terms of specific technologies, the chapters in this book engage topics across a range of research, techniques, practices, culture and society, and theories. These broader topics—including community, gender, fandom, disability, and journalism—are entryways through which students and faculty can explore ways of thinking about social media and find new paradigms for analysis. "A must-read for anyone in higher education, human resource development, or adult education. This impeccably researched book reflects an encyclopedic and intimate knowledge of innovative adult higher education programs and provides an impressive historical context for such programs. It will be a classic sourcebook for anyone in the field." --Howard Y. Williams, professor emeritus, Human Resource Development and Adult Education, University of Minnesota "A comprehensive, careful, and compelling study of adult learners and learning today. Lifelong Learning at Its Best demonstrates why education--from cradle to grave--is so important to our society in coping with the demands of burgeoning technology, addressing global competition, and recognizing the need for ongoing job retraining. It should be required reading for leaders in education, business and industry, and policymaking." --C. Wayne Williams, president, Regents College It is widely accepted that lifelong competency in today's world requires lifelong learning. Schools, colleges, and workplaces have responded to this new reality by implementing educational and training programs. But which programs really work? Drawing from data gathered by the Commission for a Nation of Lifelong Learners--in a study directed by prestigious educational and business leaders--William Maehl offers strategies that have been most successful with adult learners across the nation. From Georgetown University to Toyota, he describes winning program models and all their components. Organized under such key learning objectives as competence, collaboration, and self-directedness, these success stories reveal the specific instructional, organizational, financial, and other program components that make the greatest difference in learning outcomes. For staff attempting to improve existing programs or for teams building new ones, this resource has all the practical ideas you need to design effective solutions.

The overall goal of this Assessment Technologies Institute, LLC (ATI) Content Mastery Series module is to provide nursing students with an additional resource for the focused review of "Fundamentals for nursing" content relevant to NCLEX preparation and entry level nursing practice.
