### [Language, Culture, and Society](#)

How are martyrs made, and how do the memories of martyrs express, nourish, and mold the ideals of the community? Sanctifying the Name of God wrestles with these questions against the background of the massacres of Jews in the Rhineland during the outbreak of the First Crusade. Marking the first extensive wave of anti-Jewish violence in medieval Christian Europe, these "Persecutions of 1096" exerted a profound influence on the course of European Jewish history. When the crusaders demanded that Jews choose between Christianity and death, many opted for baptism. Many others, however, chose to die as Jews rather than to live as Christians, and of these, many actually inflicted death upon themselves and their loved ones. Stories of their self-sacrifice ushered the Jewish ideal of martyrdom—kiddush ha-Shem, the sanctification of God's holy name—into a new phase, conditioning the collective memory and mindset of Ashkenazic Jewry for centuries to come, during the Holocaust, and even today. The Jewish survivors of 1096 memorialized the victims as martyrs as they rebuilt their communities during the decades following the Crusade. Three twelfth-century Hebrew chronicles of the persecutions preserve their memories of martyrdom and self-sacrifice, tales fraught with symbolic meaning that constitute one of the earliest Jewish attempts at local, contemporary historiography. Reading and analyzing these stories through the prism of Jewish and Christian religious and literary traditions, Jeremy Cohen shows how these persecution chronicles reveal much more about the storytellers, the martyrologists, than about the martyrs themselves. While they extol the glorious heroism of the martyrs, they also air the doubts, guilt, and conflicts of those who, by submitting temporarily to the Christian crusaders, survived.

## [Ethnicity and Family Therapy](#)

This study considers the relationship of Deuteronomy 28 to the curse traditions of the ancient Near East. It focuses on the linguistic and cultural means of the transmission of these traditions to the book of Deuteronomy. Laura Quick examines a broad range of materials, including Old Aramaic inscriptions, attempting to show the value of these Northwest Semitic texts as primary sources to reorient our view of an ancient world usually seen through a biblical or Mesopotamian lens. By studying these inscriptions alongside the biblical text, Deuteronomy 28 and the Aramaic Curse Tradition increases our knowledge of the early history and function of the curses in Deuteronomy 28. This has implications for our understanding of the date of the composition of the book of Deuteronomy, and the reasons behind its production. The ritual realm which stands behind the use of curses and the formation of covenants in the biblical world is also explored, arguing that the interplay between orality and literacy is essential to understanding the function and form of the curses in Deuteronomy. This book contributes to our understanding of the book of Deuteronomy and its place within the literary history of ancient Israel and Judah, with implications for the composition of the Pentateuch or Torah as a whole.

## [The SAGE Handbook of International Social Work](#)

Why should we study language? How do the ways in which we communicate define our identities? And how is this all changing in the digital world? Since 1993, many have turned to Language, Culture, and Society for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology. This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century, such as issues of language and power, language ideology, and linguistic diasporas. Chapters on gender, race, and class also examine how language helps create and is created by identity. New to this edition are enhanced and updated pedagogical features, such as learning objectives, updated resources for continued learning, and the inclusion of a glossary. There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact. The discussion on race and ethnicity has also been expanded to include Latin- and Asian-American English vernacular.

## [Four Overarching Patterns of Culture](#)

Did East Asian literatures lack a concept of authorship before their integration into classical modernity? Distinguishing various author functions, which can be distributed among several individuals, this edited volume covers the whole spectrum from composite to individual forms of authorship.

## [Dancing Revolution](#)

Evolution, biology, and society is a catch-all phrase encompassing any scholarly work that utilizes evolutionary theory and/or biological or behavioral genetic methods in the study of the human social group, and The Oxford Handbook of Evolution, Biology, and Society contains an much needed overview of research in the area by sociologists and other social scientists. The

# Access Free Chapter 28 Shared Cultural Traditions

examined topics cover a wide variety of issues, including the origins of social solidarity; religious beliefs; sex differences; gender inequality; determinants of human happiness; the nature of social stratification and inequality and its effects; identity, status, and other group processes; race, ethnicity, and race discrimination; fertility and family processes; crime and deviance; and cultural and social change. The scholars whose work is presented in this volume come from a variety of disciplines in addition to sociology, including psychology, political science, and criminology. Yet, as the essays in this volume demonstrate, the potential of theory and methods from biology for illuminating social phenomena is clear, and sociologists stand to gain from learning more about them and using them in their own work. The theory focuses on evolution by natural selection, the primary paradigm of the biological sciences, while the methods include the statistical analyses sociologists are familiar with, as well as other methods that they may not be familiar with, such as behavioral genetic methods, methods for including genetic factors in statistical analyses, gene-wide association studies, candidate gene studies, and methods for testing levels of hormones and other biochemicals in blood and saliva and including these factors in analyses. This work will be of interest to any sociologist with an interest in exploring the interaction of biological and sociological processes. As an introduction to the field it is useful for teaching upper-level or graduate students in sociology or a related social science.

## **Sociology: The Essentials**

This book highlights the challenges and trends resulting from the relationship between tourist motivations, World Heritage Sites and local cultural uniqueness. With a special focus on Portugal and Brazil, several chapters refer to international cultural heritage experiences and destinations in Belgium, Cuba, Croatia, Italy, Japan, South Africa, Spain and Turkey. The volume shows that there is some crossover between tangible and intangible cultural heritage, and explores themes such as festivals and events, marketing, branding, sustainability, authenticity, preservation, wine tourism, ethnic tourism, religious tourism, literary tourism, museology and garden tourism. It will appeal to readers interested in tourism management, quality of the tourist offer, tourism heritage products, and characteristics of the tourism demand in the scope of cultural heritage.

## **Research Anthology on Empowering Marginalized Communities and Mitigating Racism and Discrimination**

A Companion to Folklore presents an original and comprehensive collection of essays from international experts in the field of folklore studies. Unprecedented in depth and scope, this state-of-the-art collection uniquely displays the vitality of folklore research across the globe. An unprecedented collection of original, state of the art essays on folklore authored by international experts Examines the practices and theoretical approaches developed to understand the phenomena of folklore Considers folklore in the context of multi-disciplinary topics that include poetics, performance, religious practice, myth, ritual and symbol, oral textuality, history, law, politics and power as well as the social base of folklore Selected by Choice as a 2013 Outstanding Academic Title

## **Song in an Age of Discord**

# Access Free Chapter 28 Shared Cultural Traditions

In recent years, however, the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum "to remove the work is to destroy the work" has been challenged by new models of site specificity and changes in institutional and market forces."

## World Geography

Throughout American history, patterns of political intent and impact have linked the wide range of dance movements performed in public places. Groups diverse in their cultural or political identities, or in both, long ago seized on dancing in our streets, marches, open-air revival meetings, and theaters, as well as in dance halls and nightclubs, as a tool for contesting, constructing, or reinventing the social order. *Dancing Revolution* presents richly diverse case studies to illuminate these patterns of movement and influence in movement and sound in the history of American public life. Christopher J. Smith spans centuries, geographies, and cultural identities as he delves into a wide range of historical moments. These include: the God-intoxicated public demonstrations of Shakers and Ghost Dancers in the First and Second Great Awakenings; creolized antebellum dance in cities from New Orleans to Bristol; the modernism and racial integration that imbued twentieth-century African American popular dance; and public movement's contributions to hip hop, anti-hegemonic protest, and other contemporary transgressive communities' physical expressions of dissent and solidarity. Multidisciplinary and wide-ranging, *Dancing Revolution* examines how Americans turned the rhythms of history into the movement behind the movements.

## Using Human Rights to Change Tradition

With the newly inaugurated US Presidential Administration signing several orders to mitigate discrimination and racism within the United States government, attentions globally are once again brought to the Black Lives Matter campaign, and its message. Discrimination in business contexts, social interactions, and educational institutions remains a concern for leaders today. The empowerment of marginalized communities has been rapidly spreading through societies, thanks to the platforms that social media now offer. The *Research Anthology on Empowering Marginalized Communities and Mitigating Racism and Discrimination* is a three-volume, hand-selected compilation of the highest quality research on the empowerment of marginalized communities that have been experiencing ongoing discrimination. To shed light on the underpinnings of disparities between marginalized groups and overreaching society, this text explores social justice applications and practices and the changes being made or pushed for around the globe that promote equality, fair treatment, and inclusivity. This book is ideal for sociologists, teachers, activists, practitioners, managers, administrators, policymakers, government officials, researchers, academicians, and students working in fields such as gender studies, race studies, social justice, behavioral studies, history, sociology, anthropology, psychology, law, as well as anyone interested in the current practices and advances in mitigating racism and discrimination in society.

## One Place After Another

Our thesis is that communication has several sources. Some may be considered as main sources or constitutive sources from

# Access Free Chapter 28 Shared Cultural Traditions

which communication springs, and others may be considered as secondary or complementary sources of communication. We can thus acknowledge eight main sources of communication: rhetoric, persuasion, psychology, sociology, anthropology, semiotics, linguistics and political science. Rhetoric is the first and oldest discipline which studied certain communication phenomena; rhetoric has outlined a proto-object of communication. Sociology is the most powerful source of communication methodology: sociology has supplied most of the theories and methods that have led to the discipline of communication growing autonomously. We assert that secondary sources of communication are: philosophy, ethics, pragmatics, mathematics, cybernetics and ecology. [Florentin Smarandache & Ștefan Vlăduțescu] \*\*\* The book has 15 chapters written by the following authors and co-authors from USA, England, China, Poland, Serbia, Bulgaria, Slovakia, and Romania: Florentin Smarandache, Ștefan Vlăduțescu, Jim O'Brien, Svetislav Paunovic, Mariana Man, Zhaoxun Song, Dandan Shan, Maria Nowicka-Skowron, Sorin Mihai Radu, Janusz Grabara, Ioan Cosmescu, Adrian Nicolescu, Krasimira Dimitrova, Alina Țenescu, Sebastian Kot, Beata Ślusarczyk, Maria Măcriș, Iwona Grabara, Piotr Pachura, Mircea Bunaciu, Jozef Novak-Marcincin, Mircea Duică, Odette Arhip, Vlad Roșca, and Vladimir-Aurelian Enăchescu.

## [The Oxford Handbook of Evolution, Biology, and Society](#)

Disputed Territories investigates the significance of land for contesting cultural identities in comparable settler societies. In the regions of Australasia and southern Africa, European visions of landscape and nature have engaged with southern hemisphere environments and the cultures of indigenous peoples. Amid conflicts over land as a material resource, there has also been an intellectual contest over the aesthetic, iconic and cultural meanings of natural forms and species. Arising from a programme of seminars held at The University of Western Australia, this collection of eminent international authors assembles contributions from anthropology, geography, history and literary studies. The combination of diverse methods and theoretical approaches establishes the ways that land and nature constitute disputed territories in the mind, as well as material resources subject to pragmatic negotiations.

## [Understanding Global Cultures: Metaphorical Journeys Through 31 Nations, Clusters of Nations, Continents, and Diversity](#)

Acknowledges the graffiti commonly found on the streets and trains of New York City as an expressive urban art form, and provides a history of the practice from the 1960s to the present.

## [A History of the Native People of Canada](#)

This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and

# Access Free Chapter 28 Shared Cultural Traditions

regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

## Environmental Democracy at the Global Level:

Social work is a profession that is increasingly involved with issues which have a global dimension. This Handbook tackles the global/local aspect of social work in its various forms and interrogates the key concerns that societies are facing through an international lens. The contributors show that, with an appreciation of commonalities and differences, local practices and appropriate forms of international activity can be better developed. Areas covered include: - Analysis of 'International social work' - Globalisation and indigenisation - Social justice and human rights - Poverty and livelihoods - Ecological issues - Migration - Education, theory, research and practice - Social work in different settings - Religion and spirituality - Responses to disasters and conflicts - Life course perspectives - Regional perspectives - Future directions With a truly international range of contributions, the Handbook incorporates perspectives from Asia, Africa, Europe, Australasia, the Middle East and the Americas. It will be an invaluable resource for undergraduates, postgraduates, researchers and academics working in the fields of social work, social welfare, human services, and community development worldwide, as well as service providers and policy makers in the international arena.

Leading and Managing in Nursing, 5th Edition Revised Reprint by Patricia Yoder-Wise successfully blends evidence-based guidelines with practical application. This revised reprint has been updated to prepare you for the nursing leadership issues of today and tomorrow, providing just the right amount of information to equip you with the tools you need to succeed on the NCLEX and in practice. Content is organized around the issues that are central to the success of professional nurses in today's constantly changing healthcare environment, including patient safety, workplace violence, consumer relationships, cultural diversity, resource management, and many more. "... apt for all nursing students and nurses who are working towards being in charge and management roles." Reviewed by Jane Brown on behalf of Nursing Times, October 2015 Merges theory, research, and practical application for an innovative approach to nursing leadership and management. Practical, evidence-based approach to today's key issues includes patient safety, workplace violence, team collaboration, delegation, managing quality and risk, staff education, supervision, and managing costs and budgets. Easy-to-find boxes, a full-color design, and new photos highlight key information for quick reference and effective study. Research and Literature Perspective boxes summarize timely articles of interest, helping you apply current research to evidence-based practice. Critical thinking

# Access Free Chapter 28 Shared Cultural Traditions

questions in every chapter challenge you to think critically about chapter concepts and apply them to real-life situations. Chapter Checklists provide a quick review and study guide to the key ideas in each chapter, theory boxes with pertinent theoretical concepts, a glossary of key terms and definitions, and bulleted lists for applying key content to practice. **NEW!** Three new chapters — Safe Care: The Core of Leading and Managing, Leading Change, and Thriving for the Future — emphasize QSEN competencies and patient safety, and provide new information on strategies for leading change and what the future holds for leaders and managers in the nursing profession. **UPDATED!** Fresh content and updated references are incorporated into many chapters, including Leading, Managing and Following; Selecting, Developing and Evaluating Staff; Strategic Planning, Goal Setting, and Marketing; Building Teams Through Communication and Partnerships; and Conflict: The Cutting Edge of Change. Need to Know Now bulleted lists of critical points help you focus on essential research-based information in your transition to the workforce. Current research examples in The Evidence boxes at the end of each chapter illustrate how to apply research to practice. Revised Challenge and Solutions case scenarios present real-life leadership and management issues you'll likely face in today's health care environment.

## Ritual in Deuteronomy

There are many reasons to be curious about the way people learn, and the past several decades have seen an explosion of research that has important implications for individual learning, schooling, workforce training, and policy. In 2000, *How People Learn: Brain, Mind, Experience, and School: Expanded Edition* was published and its influence has been wide and deep. The report summarized insights on the nature of learning in school-aged children; described principles for the design of effective learning environments; and provided examples of how that could be implemented in the classroom. Since then, researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning, individual and cultural variability related to learning, and educational technologies. In addition to expanding scientific understanding of the mechanisms of learning and how the brain adapts throughout the lifespan, there have been important discoveries about influences on learning, particularly sociocultural factors and the structure of learning environments. *How People Learn II: Learners, Contexts, and Cultures* provides a much-needed update incorporating insights gained from this research over the past decade. The book expands on the foundation laid out in the 2000 report and takes an in-depth look at the constellation of influences that affect individual learning. *How People Learn II* will become an indispensable resource to understand learning throughout the lifespan for educators of students and adults.

## Management of World Heritage Sites, Cultural Landscapes and Sustainability

This study seeks to establish the strengths and weaknesses of the human rights approach within the specific context of sub-Saharan Africa, focusing on women as a group and their reproductive health. This book gives an inter-disciplinary and well-founded study on the human rights violations still occurring.

## How People Learn II

# Access Free Chapter 28 Shared Cultural Traditions

There is no prepared script for social and cultural life. People work it out as they go along. Creativity and Cultural Improvisation casts fresh, anthropological eyes on the cultural sites of creativity that form part of our social matrix. The book explores the ways creative agency is attributed in the graphic and performing arts and in intellectual property law. It shows how the sources of creativity are embedded in social, political and religious institutions, examines the relationship between creativity and the perception and passage of time, and reviews the creativity and improvisational quality of anthropological scholarship itself. Individual essays examine how the concept of creativity has changed in the history of modern social theory, and question its applicability as a term of cross-cultural analysis. The contributors highlight the collaborative and political dimensions of creativity and thus challenge the idea that creativity arises only from individual talent and expression.

## Fundamentals of Midwifery

**SOCIOLOGY: THE ESSENTIALS**, Eighth Edition, uses the theme of debunking myths to look behind the facades of everyday life, encourage you to question common assumptions, and help you better understand how society is constructed and sustained. This thorough yet streamlined text provides exceptional coverage of diversity, including social factors such as age, religion, sexual orientation, and region of residence, in addition to race, ethnicity, class, and gender. Updated with coverage of the latest findings, trends, and themes, this new edition's reader-friendly presentation teaches you the concepts, methods, and research that will sharpen your "sociological imagination" and help you view the world from a different perspective. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

## Investing in Cultural Diversity and Intercultural Dialogue

Is Q a Galilean text representing a non-messianic and non-apocalyptic Galilean branch of the early Jesus movement? Simon J. Joseph proposes a new working model for understanding the Jewish ethnicity, community, provenance, and compositional traits in Q - the earliest and most reliable source for the Palestinian Jewish Jesus movement.

### Current Communication Difficulties

Safe, nurturing, and positive parent-child interactions lay the foundations for healthy child development. How children are raised in their early years and beyond affects many different aspects of their lives, including brain development, language, social skills, emotional regulation, mental and physical health, health risk behavior, and the capacity to cope with a spectrum of major life events. As such, parenting is the most important potentially modifiable target of preventive intervention. The Power of Positive Parenting provides an in-depth description of "Triple P," one of the most extensively studied parenting programs in the world, backed by more than 30 years of ongoing research. Triple P has its origins in social learning theory and the principles of behavior, cognitive, and affective change, and its aim is to prevent severe behavioral, emotional, and developmental problems in children and adolescents by enhancing the knowledge, skills, and confidence of parents. Triple P incorporates five levels of intervention on a tiered continuum of increasing strength for parents of children from birth to age 16. The programs comprising the Triple P system are designed to create a family-friendly environment that better supports parents, with a range of programs tailored to their differing needs. This volume draws on the editors' experience of developing Triple P, and chapters address every aspect of the system, as well as how it can be applied to a diverse range of child and parent problems in different age groups and cultural contexts.

### Sanctifying the Name of God

Ritual in Deuteronomy explores the symbolic world of Deuteronomy's ritual covenant and curses through a lens of religious studies and anthropology, drawing on previously unexamined Mesopotamian material. This book focuses on the ritual material in Deuteronomy including commands regarding sacrifice, prayer objects, and especially the dramatic ritual enactment of the

# Access Free Chapter 28 Shared Cultural Traditions

covenant including curses. The book's most unique feature is an entirely new comparative study of Deut 27-30 with two ritual texts from Mesopotamia. No studies to date have undertaken a comparison of Deut 27-30 with ancient Near Eastern ritual texts outside of the treaty oath tradition. This fresh comparison illuminates how the ritual life of ancient Israel shaped the literary form of Deuteronomy and concludes that the performance of oaths was a social strategy, addressing contemporary anxieties and reinforcing systems of cultural power. This book offers a fascinating comparative study which will be of interest to undergraduate and graduate students in biblical studies, classical Hebrew, theology, and ancient Near Eastern studies. The book's more technical aspects will also appeal to scholars of the Pentateuch, Deuteronomy, Biblical Law, Ancient Near Eastern History, Mesopotamian Studies, and Classics.

## [A Companion to Folklore](#)

In *Understanding Global Cultures*, Fifth Edition, authors Martin J. Gannon and Rajnandini Pillai present the cultural metaphor—any activity, phenomenon, or institution with which the members of a given culture identify emotionally or cognitively—as a method for understanding the cultural mindsets of individual nations, clusters of nations, and even continents. The book shows how metaphors are guidelines to help outsiders quickly understand what members of a culture consider important. The fully updated Fifth Edition includes 31 nation-specific chapters, including a new Part XI on popular music as cultural metaphors, two completely new chapters on Vietnam and Argentina, revisions to all retained chapters, and a more explicit linkage between each cultural metaphor and current economic and business developments in each nation.

## [The Power of Positive Parenting](#)

"The *Handbook of Organizational Culture and Climate* provides an overview of current research, theory and practice in this expanding field. The editorial team and the authors come from diverse professional and geographical backgrounds, and provide an unprecedented coverage of topics relating to both culture and climate of modern organizations. Well-known editors Neal Ashkanasy, Celeste P. M. Wilderom, and Mark F. Peterson lend a truly international perspective to what is the single most comprehensive and up-to-date source on the growing field of organizational culture and climate. In addition, the *Handbook* opens with a foreword by Andrew Pettigrew and two provocative commentaries by Ben Schneider and Edgar Schein, and concludes with an invaluable set of combined references." --Publisher.

## [Leading and Managing in Nursing - E-Book](#)

This volume begins with the spread of Ice Age hunters across a land mass that once joined Asia and North America at a time when most of the country was covered by glacial ice and when animals such as mammoth and sabre-toothed cats occupied the tundra and lichen woodlands.

## [Taking the Train](#)

# Access Free Chapter 28 Shared Cultural Traditions

Giulia Parola's *Environmental Democracy at the Global Level: Rights and Duties for a New Citizenship* can be seen as a manifesto that is both traditional and revolutionary at the same time. It calls for the construction of a new civilisation centred on the environment, while drawing on the traditional notions of democratic government. It adopts an approach that is focused on the power of individuals rather than governments, as ways to protect and improve the environment. It proposes that environmental rights and ecological duties are self-evident and inalienable, and should be treated as the cornerstones of a new democracy. Parola's book is a thought provoking and intriguing work that will be of interest to scholars of environmental studies as well as to legal practitioners and non-specialists. Giulia Parola has studied Environmental Law at the University of Torino, at the University of René Descartes in Paris, (where she obtained PhD in Public Law) and at the University of Iceland (LLM in Natural Resources Law and International Environmental Law). In 2011, she was appointed by the University of Laval (Canada, Quebec) as a researcher and a lecturer in Environmental Law.

## [Leading and Managing in Nursing - Revised Reprint](#)

This title was first published in 2003. Militant racism is concerned with antagonism and hostility associated with racist activity. Within a society it is expressed by material that may stir up racial hatred and/or discrimination. It can also be seen on the streets and, indeed, the alleged racist criminality orchestrated by militant gangs. After examining the possible causes of militant racism and its effects, this book considers the new laws designed to tackle racially-motivated crime found in the 1998 Crime and Disorder Act. A central theme of the book is the balance between freedom of expression and penalizing racially-offensive expression.

## [Handbook of Organizational Culture and Climate](#)

Turbo-folk music is the most controversial form of popular culture in the new states of former Yugoslavia. Theoretically ambitious and innovative, this book is a new account of popular music that has been at the centre of national, political and cultural debates for over two decades. Beginning with 1970s Socialist Yugoslavia, Uroš Čvoro explores the cultural and political paradoxes of turbo-folk: described as 'backward' music, whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism, turbo-folk's iconography is also perceived as a 'genuinely Balkan' form of resistance to the threat of neo-liberalism. Taking as its starting point turbo-folk's popularity across national borders, Čvoro analyses key songs and performers in Serbia, Slovenia and Croatia. The book also examines the effects of turbo on the broader cultural sphere - including art, film, sculpture and architecture - twenty years after its inception and popularization. What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural, political and social change - and a new understanding of how fundamental turbo-folk is to the recent history of former Yugoslavia and its successor states.

## [Disputed Territories](#)

It can be a challenge to understand the Hebrew Bible's wisdom literature and how it relates to biblical history and theology, but John L. McLaughlin makes this complicated genre straightforward and accessible. This introductory-level textbook begins

## Access Free Chapter 28 Shared Cultural Traditions

by explaining the meaning of wisdom to the Israelites and surrounding cultures before moving into the conventions of the genre and its poetic forms. The heart of the book examines Proverbs, Job, Qoheleth (Ecclesiastes), and the deuterocanonical Ben Sira and Wisdom of Solomon. McLaughlin also explores the influence of wisdom throughout the Old Testament and in the New Testament. Designed especially for beginning students—and based on twenty-five years of teaching Israel's wisdom literature to university students—McLaughlin's Introduction to Israel's Wisdom Traditions provides an informed, panoramic view of wisdom literature's place in the biblical canon.

### [Turbo-folk Music and Cultural Representations of National Identity in Former Yugoslavia](#)

Fundamentals of Midwifery: A Textbook for Students makes the subject of midwifery accessible, informative and motivating, ensuring that it is an essential text for the aspiring midwife! This resource brings together knowledge from a collection of clinical experts and experienced academics to support your learning and prepare you for the challenges faced in contemporary midwifery healthcare. It presents you with the 'must-have' information that you need concerning both the theoretical and practical aspects of what it means to be a midwife. With extensive full colour illustrations throughout, as well as activities and scenarios, this user-friendly textbook will support you throughout your entire education programme. Fundamentals of Midwifery is essential reading for all pre-registration student midwives, as well as newly qualified midwives. **KEY FEATURES:**

- Broad and comprehensive in scope, with chapters on: team working; antenatal care, intrapartum and postnatal care; infant feeding; public health and health promotion; perinatal mental health; complementary therapies; pharmacology and medicines management; and emergencies.
- Interactive and student-friendly in approach, with activities throughout.
- Brings together professional and clinical topics in one user-friendly book.
- Ties in with the latest NMC Standards for pre-registration midwifery education.
- Supported by an online resource centre featuring interactive multiple-choice questions, additional scenarios and activities, and links to further reading.

### [That Wonderful Composite Called Author](#)

Combining fertile soils, vital trade routes, and a coveted strategic location, the islands and surrounding continental lowlands of the Caribbean were one of Europe's earliest and most desirable colonial frontiers. The region was colonized over the course of five centuries by a revolving cast of Spanish, Dutch, French, and English forces, who imported first African slaves and later Asian indentured laborers to help realize the economic promise of sugar, coffee, and tobacco. The Caribbean: A History of the Region and Its Peoples offers an authoritative one-volume survey of this complex and fascinating region. This groundbreaking work traces the Caribbean from its pre-Columbian state through European contact and colonialism to the rise of U.S. hegemony and the economic turbulence of the twenty-first century. The volume begins with a discussion of the region's diverse geography and challenging ecology and features an in-depth look at the transatlantic slave trade, including slave culture, resistance, and ultimately emancipation. Later sections treat Caribbean nationalist movements for independence and struggles with dictatorship and socialism, along with intractable problems of poverty, economic stagnation, and migrancy. Written by a distinguished group of contributors, The Caribbean is an accessible yet thorough introduction to the region's tumultuous heritage which offers enough nuance to interest scholars across disciplines. In its breadth of coverage and depth

**Leading and Managing in Nursing, 5th Edition**, by Patricia Yoder-Wise, successfully blends evidence-based guidelines with practical application. The new edition is designed to prepare you for the nursing leadership issues of today and tomorrow, providing just the right amount of information to equip you with the tools you need to succeed on the NCLEX and in practice. This thoroughly updated edition is organized around the issues that are central to the success of professional nurses in today's constantly changing healthcare environment, including patient safety, workplace violence, consumer relationships, cultural diversity, resource management, and many more. Merges theory, research, and practical application for an innovative approach to nursing leadership and management. Offers a practical, evidence-based approach to today's key issues, including patient safety, workplace violence, team collaboration, delegation, managing quality and risk, staff education, supervision, and managing costs and budgets. Features easy-to-find boxes, a full-color design, and new photos that highlight key information for quick reference and effective study. Research and Literature Perspective boxes summarize timely articles of interest, helping you apply current research to evidence-based practice. Includes critical thinking questions in every chapter, challenging you to think critically about chapter concepts and apply them to real-life situations. Provides Chapter Checklists for a quick review and study guide to the key ideas in each chapter, theory boxes with pertinent theoretical concepts, a glossary of key terms and definitions, and bulleted lists for applying key content to practice. Features new chapters on Patient Safety and Workplace Violence, illustrating the nurse manager's role in ensuring patient and worker safety. Includes Need to Know Now, bulleted lists of critical points that help you focus on essential research-based information in your transition to the workforce. Gives current research examples in The Evidence boxes at the end of each chapter, illustrating how to apply research to practice. Provides caserevised Challenge and Solutions case scenarios of real-life leadership and management issues, giving you contemporary scenarios covering current issues in nursing leadership and management.

## [An Introduction to Israel's Wisdom Traditions](#)

This widely used clinical reference and text provides a wealth of knowledge on culturally sensitive practice with families and individuals from over 40 different ethnic groups. Each chapter demonstrates how ethnocultural factors may influence the assumptions of both clients and therapists, the issues people bring to the clinical context, and their resources for coping and problem solving.

## [Deuteronomy 28 and the Aramaic Curse Tradition](#)

This clinical reference provides the latest knowledge on culturally sensitive practice with more than 40 different ethnic groups and demonstrates how to weave cultural information into assessment and intervention.

This is a companion volume to the author's translation of Saiokuken Socho's *The Journal of Socho* (Stanford, 2002). The volume gives an overview of the author's life and times, explores the relationships between politicians, patronage, and the creative process, and reads the journal in terms of the standard norms of genres that Socho appropriated and reinterpreted.

A free ebook version of this title is available through Luminos, University of California Press's open access publishing program for monographs. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. *Imperial Genus* begins with the turn to world culture and ideas of the generally human in Japan's cultural policy in Korea in 1919. How were concepts of the human's genus-being operative in the discourses of the Japanese empire? How did they inform the imagination and representation of modernity in colonial Korea? Travis Workman delves into these questions through texts in philosophy, literature, and social science. *Imperial Genus* focuses on how notions of human generality mediated uncertainty between the transcendental and the empirical, the universal and the particular, and empire and colony. It shows how cosmopolitan cultural principles, the proletarian arts, and Pan-Asian imperial nationalism converged with practices of colonial governmentality. It is a genealogy of the various articulations of the human's genus-being within modern humanist thinking in East Asia, as well as an exploration of the limits of the human as both concept and historical figure.

## [Jesus, Q, and the Dead Sea Scrolls](#)

Justice has been the dominant cultural framework of people in the West for two centuries, ever since the rise of constitutional democracies. Consciously or not, most people in the West have a strong awareness of right and wrong. Their sense of morality is generally rooted in an obligation to the rule of law. In democratic societies, the rule of law ultimately relies on constitutional documents ratified by a widely-accepted process of development and implementation. For millennia, honor has been the dominant cultural framework of most people in the East and Middle East. Here, people know that speech and behavior display respect or disrespect. While pervasive in all relationships, honor and shame are most important in the family, extended family, and local community. In the East, honor is not necessarily an internal feeling, as it is in a justice culture. Honor is more often an external attribution bestowed by others rather than claimed by oneself. Harmony is prevalent globally in indigenous cultures. Many indigenous peoples do not distinguish between the supernatural and natural worlds. All aspects of life are connected. Interactions with spirit beings are the key to maintaining harmony in order to be secure. Reciprocity is a common cultural framework in the Global South. Here, one learns to develop connections with the right people in given circumstances for needed resources. These connections may or may not be characterized as "friendships" and provide not so much close friendships as reciprocal exchange. In some places, reciprocity is the means whereby one survives.
