We are working with Cambridge Assessment International Education to gain endorsement for this title. Confidently navigate the updated Cambridge International AS & A Level Chemistry (9701) syllabus with a structured approach ensuring that the link between theory and practice is consolidated, scientific skills are applied, and analytical skills developed. - Enable students to monitor and build progress with short 'self-assessment' questions throughout the student text, with answers at the back of the book, so students can check their understanding as they work their way through the chapters. - Build scientific communication skills and vocabulary in written responses with a variety of exam-style questions. - Encourage understanding of historical context and scientific applications with extension boxes in the student text. - Have confidence that lessons cover the syllabus completely with a free Scheme of Work available online. - Provide additional practice with the accompanying write-in Practical Skills Workbooks, which once completed, can also be used to recap learning for revision. Also available in the series: Biology Student Book 9781510482876 Physics Student Book 9781510482807 Biology Student eTextbook 9781510482913 Biology Whiteboard eTextbook 9781510482920 Chemistry Student eTextbook 9781510482999 Chemistry Whiteboard eTextbook 9781510483002 Physics Student eTextbook 9781510483118 Physics Whiteboard eTextbook 9781510483125 Biology Skills Workbook 9781510482869 Chemistry Skills Workbook 9781510482852 Physics Skills Workbook 9781510482845

[GCE O Level Examination Past Papers with Answer Guides: Chemistry India Edition](#)

[Edexcel A-level Year 2 Chemistry Student Guide: Topics 16-19](#)

Written by renowned expert authors, our updated resources enable the learner to effectively navigate through the content of the revised Cambridge Chemistry (5070) syllabus for examination from 2023. - Develop strong practical skills: practical skills features provide guidance on key experiments, interpreting experimental data, and evaluating results; supported by practice questions for preparation for practical exams or alternatives. - Build mathematical skills: worked examples demonstrate the key mathematical skills in scientific contexts; supported by follow-up questions to put these skills into practice. - Consolidate skills and check understanding: self-assessment questions, exam-style questions and checklists are embedded throughout the book, alongside key definitions of technical terms and a Glossary. - Navigate the syllabus confidently: content flagged

clearly with introductions to each topic outlining the learning objectives and context. - Deepen and enhance scientific knowledge: going further boxes throughout encourage students to take learning to the next level.

[Edexcel AS/A Level Year 1 Chemistry Student Guide: Topics 6-10](#)

This concise guide provides the content needed for the Chemistry IB diploma at both Standard and Higher Level. It follows the structure of the IB Programme exactly and includes all the options. Each topic is presented on its own page for clarity, Higher Level material is clearly indicated, and there are plenty of practice questions. The text is written with an awareness that English might not be the reader's first language

[Pre-U Chemistry Revision Guide](#)

Endorsed by Cambridge International Examinations Covers the entire syllabus for Cambridge International Examinations' International AS and A Level Chemistry (9701). It is divided into separate sections for AS and A Level making it ideal for students studying both the AS and the A Level and also those taking the AS examinations at the end of their first year. - Explains difficult concepts using language that is appropriate for students around the world - Provides practice throughout the course with carefully selected past paper questions at the end of each chapter

[Cambridge International AS and A Level Chemistry](#)

[NEW A-LEVEL CHEMISTRY AQA PRACTICE PAPERS \(FOR THE EXAMS IN 2020\).](#)

Fully revised and updated content matching new Cambridge International Examinations 9701 syllabus for first examination in 2016. Endorsed by Cambridge International Examinations, this digital edition comprehensively covers all the knowledge and skills students need during the A Level Chemistry course (9701), for first examination in 2016, in a reflowable format, adapting to any screen size or device. Written by renowned experts in Chemistry teaching, the text is written in an accessible style with international learners in mind. Self-assessment questions allow learners to track their progress, and exam-style questions help learners to prepare thoroughly for their examinations. Answers to all the questions from within the Coursebook are provided.

[OCR A Level Year 2 Chemistry A Student Guide: Module 5](#)

Reinforce students' understanding throughout their course; clear topic summaries with sample questions and answers to help improve exam technique. Written by experienced examiners George Facer and Rod Beavon, this Student Guide for Chemistry: - Helps students identify what they need to know with a concise summary of the topic or paper examined in the AS/A level specifications - Consolidates understanding with exam tips and knowledge check questions - Provides opportunities to improve exam technique with sample graded answers to exam-style questions - Develops independent learning and research skills - Provides the content for generating individual revision notes

[Practice makes permanent: 600+ questions for AQA A-level Chemistry](#)

Written by experienced examiner George Facer, this Student Guide for Chemistry: -Identifies the key content you need to know with a concise summary of topics examined in the A-level specifications -Enables you to measure your understanding with exam tips and knowledge check questions, with answers at the end of the guide -Helps you to improve your exam technique with sample answers to exam-style questions -Develops your independent learning skills with content you can use for further study and research

[My Revision Notes: AQA A Level Chemistry](#)

Helps higher achieving students to maximise their potential, with a focus on independent learning, assessment advice and model assessment answers in this new edition of George Facer's best-selling textbook - Encourages independent learning with notes and clear explanations throughout the content - Strengthens understanding with worked examples of chemical equations and calculations - Stretches the students with a bank of questions at the end of each chapter - Provides assessment guidance and sample answers

[Lqsg Science Chemistry O Level 2e](#)

Help higher achieving students to maximise their potential, with a focus on independent learning, assessment advice and model assessment answers in this new edition of George Facer's best-selling textbook. - Encourages independent learning with notes and clear explanations throughout the content - Strengthens understanding with worked

examples of chemical equations and calculations - Stretches the students with a bank of questions at the end of each chapter - Provides assessment guidance and sample answers

[Cambridge International AS/A Level Chemistry Revision Guide 2nd edition](#)

Written by experienced examiners Alyn McFarland and Nora Henry, this Student Guide for Chemistry: - Helps students identify what they need to know with a concise summary of the topics examined in the AS and A-level specifications - Consolidates understanding with tips and knowledge check questions - Provides opportunities to improve exam technique with sample answers to exam-style questions - Develops independent learning and research skills - Provides the content for generating individual revision notes

[OCR AS/A Level Chemistry A Student Guide: Modules 3 and 4](#)

With My Revision Notes you can: - Manage your own revision with step-by-step support from experienced teacher and examiner George Facer - Apply biological terms accurately with the help of definitions and key words - Plan and pace your revision with the revision planner - Test understanding with questions throughout the book - Get exam ready with last minute quick quizzes available on the Hodder Education website

[Edexcel A-level Chemistry Student Guide: Practical Chemistry](#)

O-Level Chemistry Examination Notes is specially compiled to help pupils prepare for their GCE O-Level Chemistry Examination. This book follows closely the current syllabus. Chemistry concepts are presented in point form for ease of understanding and systematic learning. Clearly illustrated diagrams and tables are also included to help students understand difficult concepts and principles. The author believes that students will find this book a good source of relevant and important notes and a useful revision guide and study aid.

[Chemistry O Level Mauritius Edition](#)

Written by experienced examiners Alyn McFarland and Nora Henry, this Student Guide for Chemistry: - Helps you identify what you need to know with a concise summary of the topics examined in the AS and A-level specifications - Consolidates understanding with tips and knowledge check questions - Provides opportunities to improve exam technique with sample answers to exam-style questions - Develops independent learning and research skills - Provides the content for generating individual revision notes

[AQA A-level Year 2 Chemistry Student Guide: Physical chemistry 2](#)

CBSE Class 12 Chemistry Solved Papers (2008 - 17) in Level of Difficulty Chapters with 3 Sample Papers 5th Edition is altogether a new approach for Practicing, Revising and Mastering Chemistry for Class 12 CBSE Board exams. The book is written by India's most popular author in Chemistry, Dr. O. P. Agarwal. The book covers solutions to the Chemistry questions that appeared in the 2008 - 2017 Question papers of CBSE Board Delhi/ All India/ Foreign papers. The book provides a unique and innovative chapterisation defined on the basis of Level of Difficulty. Some of the typical chapter names are: Define the following. Explain this phenomenon. What happens when? How will you complete the following? How will you carry out given conversions? How will you distinguish the following by chemical tests? What is the mechanism of the following reactions? Why do the following happen? etc. The book also provides 3 Sample papers with detailed solutions for practice.

[Know Your 'O' Level Chemistry - A Study Guide](#)

This book is specially written for students sitting for the Singapore Cambridge O Level Chemistry examination. A comprehensive coverage of all the topics in the latest 2007 syllabus, as well as mid-year and final-year examination papers, enable students to study effectively and achieve success in their examinations.
