RAIL ROMANCE The brain is an enormously dynamic organ. Even when we sleep connections are made, signals sent and messages delivered. One of the key ways that the brain operates is via chemical stimuli which permit different parts of the brain to communicate between themselves and with the rest of the body. Determining what these chemicals, proteins and molecules are is an important way to not only discover how the brain works, but provide novel targets that may be useful in the treatment of disease, for instance in dealing with memory loss in dementia. This new book brings together international research in a broad range of topics including molecular and cellular neurochemistry, neuropharmacology and genetic aspects of CNS function, neuroimmunology, metabolism as well as the neurochemistry of neurological and psychiatric disorders of the CNS.

OpenMP Shared Memory Parallel Programming Tells the story of the people who live and work on US tobacco farms at a time when the global tobacco industry is undergoing profound changes. This book explores the cultural and ethical ambiguities of tobacco farming and offers concrete recommendations for the tobacco-control movement in the United States and worldwide.

An Important Family This book constitutes the refereed proceedings of the International Workshop on OpenMP Applications and Tools, WOMPAT 2001, held in West Lafayette, IN, USA in July 2001. The 15 full papers presented were carefully reviewed and revised for inclusion in the volume. The book presents a state-of-the-art overview on OpenMP shared memory parallel programming. The papers are organized in topical sections on benchmarking, compiler implementation and optimization, tools and tool technology, OpenMP experience, NUMA machines and clusters, and OpenMP extensions.

The Summer of Skinny Dipping The saga of an English family in New Zealand and the secret that haunts them, from the New York Times–bestselling author of *The American Heiress*. For Kate O'Connor, desperate to escape her tragic past in England, the opportunity to immigrate to New Zealand with Sir John Devenish and his wife and daughter is a chance to start over. Exhilarated by this wild, primitive place on the other side of the world, Kate's happiness is marred by a love she knows is taboo. When a sudden and suspicious death throws her life into turmoil, she begins to uncover the real reason the Devenish family left England. From a grand townhouse in London to a sheep farm in New Zealand, *An Important Family*, which was hailed by the *Cleveland Plain Dealer* as "a compulsive page turner," is the story of a country in the midst of colonization—a transformation that parallels Kate O'Connor's own rite of passage into womanhood as she finds her future in a magnificent new land.

Audio Production Worktext The role of instant millionaire is an elusive status often written and fantasized about but rarely achieved. In *The Bathrobe Millionaire*, author Jason Yelowitz tells his personal story of how he got rich overnight and realized his dream of swapping the corporate life for one of financial and emotional freedom. Peppered with humor, this memoir provides insights into the hazards and rewards of start-up businesses. Yelowitz shares his mistakes as an entrepreneur and the lessons learned, and he reveals his secret to financial success. He dispenses counterintuitive advice about what it takes to earn a lot of money and demonstrates these essential points: You shouldn't fall in love with your own business idea. Work and pay don't need to be derived from the same activity. It's best not to tell people about the business you're starting. Every start-up business should have a stop loss. It's better to start a business with less money rather than more. The concept of quit early, quit often makes sense. You should start a business alone, even if you need a partner. In *The Bathrobe Millionaire*, Yelowitz proves that the laws of business sometimes defy gravity.

Tobacco Capitalism InDesign CS4 is more than just a page layout tool; as part of Adobe's new Creative Suite 4, it's a key component of an overall design workflow that lets users work seamlessly among all of their graphics applications to create spectacular layouts. Work faster, create more is what Adobe wants users to do with InDesign, and this info-packed guide lets users get right down to doing just that by focusing on the InDesign CS4 features they're most likely to use and showcasing each in a stand-alone tip--complete with a relevant hint or two and a graphic example. In this fashion, readers learn as they go, exploring the program in a way that makes sense to them. Before they know it, users will be using the Bridge to manage their files, object styles to format their images, and snippets to save layout parts for reuse. Features new to InDesign CS4 that are covered include: live preflight, customizable Links panel, conditional text, cross references, interactive document capability with the new SWF file, animated page transitions, export to Flash CS4 functionality, Smart Guides and Smart Spacing, spread rotation, and smart text reflow.

Shiva's Fire An intimate memoir of Anne Rice's Catholic girlhood, her unmaking as a devout believer, and her return to the Church - what she calls a decision of the heart. Moving from her New Orleans childhood in the 1940s and '50s, with all its religious devotions, through how she slowly lost her belief in God, *Called Out of Darkness* also recounts Anne's years in radical Berkeley, where she wrote *Interview with the Vampire* (a lament for her lost faith) and where she came to admire the principles of secular humanists. She writes about loss and alienation (her mother's drinking, the deaths of her young daughter and later, her husband); about the birth of her son, Christopher; and about how, after 38 years as an atheist, she once again came to believe in Christ. Anne Rice makes a spiritual confession that is a celebration: a brilliant, subtle exploration of the journey through life that allows one to answer the call out of darkness.

Run Your Butt Off! Recently separated Phil Ockerman falls hard for Bertha Strunk at a tango lesson in Clerkenwell. The Next One to Fall "Prayer is not so much about convincing God to do what we want God to do as it is about convincing ourselves to do what God wants us to do." —from the Introduction Activists Shane Claiborne and Jonathan Wilson-Hartgrove show how prayer and action must go together. Their exposition of key Bible passages provides concrete examples of how a life of prayer fuels social engagement and the work of justice. Phrases like "give us this day our daily bread" and "forgive us our debts as we forgive our debtors" take on new meaning when applied to feeding the hungry or advocating for international debt relief. If you hope to see God change society, you must be an ordinary radical who prays—and then is ready to become the answer to your own prayers.

Strategies of Commitment and Other Essays Salvage-Style Projects is the definitive inspirational resource and how-to guide for turning cast-off architectural details into high-style, low-cost home furnishings. This 144-page book includes 22 creative reuse projects for everything from vintage porcelain faucet taps to paneled wood doors. All that's required of the reader is a sense of adventure, an eye for bargains, and a good tool kit. The author even helps with the last two by offering treasure-hunting tips and a guide to setting up an in-home workshop.

Housekeeping Vs. the Dirt Hilary Davidson's *The Next One to Fall* takes place three months after the events of her debut novel, the Anthony Award-winning *The Damage Done*. Travel writer Lily Moore has been persuaded by her closest friend, photographer Jesse Robb, to visit Peru with him. Jesse is convinced that the trip will lure Lily out of her dark mood, but Lily is haunted by betrayal and loss. At Machu Picchu, the famous Lost City of the Incas, they discover a woman clinging to life at the bottom of an ancient stone staircase. Just before the woman dies, she tells Lily the name of the man who pushed her. When the local police investigate, the forensic evidence they find doesn't match what Lily knows. Unable to accept the official ruling of accidental death, Lily hunts down the wealthy man who was the dead woman's traveling companion and discovers a pattern of dead and missing women in his wake. Obsessed with getting justice for these women, Lily sets in motion a violent chain of events that will have devastating consequences. present a framework for physical simulation and visualization of deformable volumetric bodies in real time. Based on the implicit finite element method a multigrid approach for the efficient numerical simulation of elastic materials has been developed. Due to the optimized implementation of the multigrid scheme, 200,000 elements can be simulated at a rate of 10 time steps per second. The approach enables realistic and numerically stable simulation of bodies that are described by tetrahedral or hexahedral grids. It can efficiently simulate heterogeneous bodies—i.e., bodies that are composed of material with varying stiffness—and includes linear as well as non-linear material laws. To visualize deformable bodies, a novel rendering method has been developed on programmable graphics hardware. It includes the efficient rendering of surfaces as well as interior volumetric structures. Both the physical simulation framework and the rendering approach have been integrated into a single simulation support system. Thereby, available communication bandwidths have been efficiently exploited. To enable the use of the system in practical applications, a novel approach for collision detection has been included. This approach allows one to handle geometries that are deformed or even created on the graphical subsystem.

Titanic Crossing ===== #1 Best Seller in Victorian Historical Romance
===== When Serena begins a new life working for the Hartreve family at 36 Marguerite Avenue she falls in love, not just with its eccentric and alluring inhabitants and their world, but with the house itself. Number 36 is a beautiful Victorian London mansion that has remained in the family for generations. Serena feels that by being here she has escaped the ghosts of her own sad childhood and found a true home, but she soon discovers that behind its gleaming surfaces Marguerite Avenue is plagued by secrets and mystery. Why does such a beautiful tranquil street seem sometimes to shimmer with menace? Is everyone in the family quite who they appear to be? And just what is it that the family is trying to hide from her? It is 1892. On a hot summer night scented with jasmine, Miranda Whitestone hosts a dinner party at 34 Marguerite Avenue. Watching helplessly as her husband is seduced by her glamorous neighbour Lucinda Eden, she can have no idea of the consequences the evening will have. For the history of Marguerite Avenue is more chilling than Serena could have imagined, and the fates of two women - the beautiful renegade Lucinda and the 'good wife' Miranda - will reach out from the past to cast a shadow over Serena's own future. The Room Beyond is a thriller that delves beneath the romance and grandeur of a London house and finds a family haunted by the legacy of past wrongdoings. As the suspense grows and the fog thickens, will Serena be able to give up all that she has come to love? Will she ever escape? *** To read a free sample, please scroll up and click the Look Inside feature on the top left hand side of the page *** *** Don't forget to leave a review below if you have enjoyed THE ROOM BEYOND *** REVIEWS =====

The Barforth Women AIDS is a continuing worldwide health crisis. Over 25,000,000 people have died from AIDS, and more than 33,000,000 are infected today. While treatments in the developed world have moved AIDS from a fatal to a chronic, highly expensive disease, it remains the sixth greatest cause of death globally and most of those infected in the developing world don't have access to treatments. Here, the AIDS 2031 Commission's experts report on the first 50 years of the AIDS pandemic: the 30 years that have passed since AIDS was first diagnosed, and the prospects and best plans to address the ongoing worldwide AIDS epidemic over the coming 20 years. The authors address the entire scope of the pandemic: basic science, public health, funding, treatment options, and social and societal impacts and review the full range of possible and recommended responses over the next two decades. They carefully assess the progress that has been made, and both persistent and emerging challenges. Written to be easily understandable by all readers, this book is the single best source of reliable information on where the pandemic stands today, where it's headed, and what can be done to create better outcomes between now and 2031.

Trends in Neurochemistry Research Presenting articles by both Chinese and American scholars, this edited volume promotes a more accurate and in-depth understanding of crime and social control in China. The editors contend that as the economic system has been transformed, many other social institutions in China have also experienced unprecedented changes. Focusing on crime in China, the essays summarize the major structural changes in Chinese society and their effects on crime and justice over the last ten to fifteen years. The volume also offers an overview of Chinese perspectives on crime, examines socio-economic changes and their impact on social control, and discusses changes in adults' and children's courts and the new changes in Chinese policing in Chinese society.

The Pleasures of Men A historical and ethnographic study of the conflict between global transportation and rural development as the two intersect at the Panama Canal. In this innovative book, Ashley Carse traces the water that flows into and out from the Panama Canal to explain how global shipping is entangled with Panama's cultural and physical landscapes. By following container ships as they travel downstream along maritime routes and tracing rivers upstream across the populated watershed that feeds the canal, he explores the politics of environmental management around a waterway that links faraway ports and markets to nearby farms, forests, cities, and rural communities. Carse draws on a wide range of ethnographic and archival material to show the social and ecological implications of transportation across Panama. The Canal moves ships over an aquatic staircase of locks that demand an enormous amount of fresh water from the surrounding region. Each passing ship drains 52 million gallons out to sea—a volume comparable to the daily water use of half a million Panamanians. Infrastructures like the Panama Canal, Carse argues, do not simply conquer nature; they rework ecologies in ways that serve specific political and economic priorities. Interweaving histories that range from the depopulation of the U.S. Canal Zone a century ago to road construction conflicts and water hyacinth invasions in canal waters, the book illuminates the human and nonhuman actors that have come together at the margins of the famous trade route. 2014 marks the 100th anniversary of the Panama Canal. Beyond the Big Ditch calls us to consider how infrastructures are materially embedded in place, producing environments with winners and losers.

The Obsidian Blade This book depicts the Indian Railways, part and parcel of the life of every Indian. The first part is a curious housefly's account of its journey on the Coromandel Express. Eager to see the world beyond its habitat, the fly sees many different places and people before the train is halted in the face of a super cyclone. What happens to the passengers? How do different people react in the face of disaster? Does anybody come to their aid? Can they resume their journey? The second part is a collection of fascinating threads interwoven into a beguiling narrative: • Why did the daughter of a Station Master vanish from the colony one fine morning • ?How a Station Master is tormented by a cobra's presence in his quarters. • Why a tea stall contractor invites the wrath of a Commercial Officer. • What happened to the coolie apprehended during a security drive? • Does the rodent elimination drive end in success or disaster? • Does the future son-in law of G.M Sahib get special treatment from the Railway staff? • How an old lady and a newly married girl display similar emotions when confronted by their spouses. • What happened to the family stuck in traffic congestion; do they make their train? The author, a retired Railway Officer, brings out the joys and woes, victories and failures of both railway main and rail users in a delightfully humorous style. The eventful journey on the Coromandel Express and the other stories about railway life, are bound to keep readers happily engaged to the very last page.

Twixt Firelight and Water

The Room Beyond Spitalfields, 1840. Catherine Sorgeiul is nineteen and lives with her uncle in a rambling house in London's East End. Sheltered and nervous, she has few companions and little to occupy the days beyond her own colourful imagination. But then a murderer strikes the city, ripping open the chests of young girls and stuffing hair into their mouths to resemble a beak, leading the press to christen him the Man of Crows. Catherine becomes obsessed with the grim crimes, and as she devours the news, she discovers she can channel the voices of the dead . . . and comes to believe she will eventually channel the Man of Crows himself. The murders continue to incite panic in the city, and Catherine gradually realizes she has put herself in the centre of a deadly trap of sexual obsession, deceit and betrayal. Elegant, mysterious and thrilling, The Pleasures of Men reveals the dark, beating heart of 19th-century London, where corruption and desperate desires lurked under a serene surface.

Summer Unplugged The Easter Rising of 1916 had a lasting effect upon Ireland, with many viewing it as a watershed in the history of modern Ireland and concurring with Yeats that a «terrible beauty was born». Seeking to clarify the state of nationalist opinion in the period before the Rising, Genesis of the Rising is as much an undertaking in social psychology as it is a social and political history. It strives to debunk many longstanding theories, most significantly the turning of the tide thesis, which asserts that British blunders in the wake of the failed Rising turned the tide in public opinion toward the course envisioned by the Rebels. Genesis of the Rising contends that as early as 1912, with the introduction of the Third Home Rule Bill, through the start of the Great War, and right up to Easter 1916, the tide in nationalist opinion had been turning, albeit silently, and that the Rising was a catalytic force that accelerated an already ongoing process. It reveals a dichotomy in nationalist opinion between covert views and misleading, overt opinion when it suggests that it was the Rising and the executions that subsequently forced nationalist opinion to show its true colors. In effect, the tide had begun to turn long before Easter 1916; and constitutional nationalism, as represented by the Third Home Rule Bill and the Irish Parliamentary Party, was giving way to some aspect of physical-force nationalism.
