Who Will Plant a Tree? Teachers and prospective teachers read children's books, but that reading is often done as a "teacher" – that is, as planning for instruction – rather than as a "reader" engaged with the text. Children ' s Books for Grown-Up Teachers models the kind of thinking about teaching and learning – the sort of curriculum theorizing – accomplished through teachers ' interactions with the everyday materials of teaching. It starts with children ' s books, branches out into other youth culture texts, and subsequently to thinking about everyday life itself. Texts of curriculum theory describe infrastructures that support the crafts of inquiry and learning, and introduce a new vocabulary of poaching, weirding, dark matter, and jazz. At the heart of this book is a method of reading; Each reader pulls idiosyncratic concepts from children ' s books and from everyday life. Weaving these concepts into a discourse of curriculum theory is what makes the difference between "going through the motions of teaching" and "designing educational experiences. This book was awarded the 2009 AERA Division B (Curriculum Studies) Outstanding Book Award.

Herbert Peabody and The Magic Seeds Fans of Miss Rumphius will adore this gorgeous picture book which introduces the kind, nature-loving Miss Maple, who celebrates the miracle in each seed. Miss Maple gathers lost seeds that haven ' t yet found a place to sprout. She takes them on field trips to explore places to grow. In her cozy maple tree house, she nurtures them; keeping them safe and warm until it's time for them to find roots of their own, and grow into the magnificent plants they ' re destined to become. Eliza Wheeler ' s luminous paintings feature gorgeous landscapes, lush foliage and charming details. Her tender story celebrates the potential found in each seed—since even the grandest tree and most brilliant flower had to grow from the smallest of seeds. Celebrate every season with Miss Maple, from Earth Day to graduations to harvest festivals.

Into the Wild One of the finest living writers in the English language, V. S. Naipaul gives us a tale as wholly unexpected as it is affecting, his first novel since the exultantly acclaimed A Way in the World, published seven years ago. Half a Life is the story of Willie Chandran, whose father, heeding the call of Mahatma Gandhi, turned his back on his brahmin heritage and married a woman of low caste—a disastrous union he would live to regret, as he would the children that issued from it. When Willie reaches manhood, his flight from the travails of his mixed birth takes him from India to London, where, in the shabby haunts of immigrants and literary bohemians of the 1950s, he contrives a new identity. This is what happens as he tries to defeat self-doubt in sexual adventures and in the struggle to become a writer—strivings that bring him to the brink of exhaustion, from which he is rescued, to his amazement, only by the love of a good woman. And this is what happens when he returns with her—carried along, really—to her home in Africa, to live, until the last doomed days of colonialism, yet another life not his own. In a luminous narrative that takes us across three continents, Naipaul explores his great theme of inheritance with an intimacy and directness unsurpassed in his extraordinary body of work. And even as he lays bare the bitter comical ironies of assumed identities, he gives us a poignant spectacle of the enervation peculiar to a borrowed life. In one man ' s determined refusal of what he has been given to be, Naipaul reveals the way of all our experience. As Willie comes to see, “ Everything goes on a bias. The world should stop, but it goes on. ” A masterpiece of economy and emotional nuance, Half a Life is an indelible feat of the imagination.

The Watermelon Seed A stunning novel of the present moment that takes us into the hearts and minds of those who use terrorism as an ideal and a way of life, and those who aspire to the frightening power of wealth. Abandoning a life he felt was not his own, Willie Chandran (the hero of Half a Life) moves to Berlin where his sister ' s radical political awakening inspires him to join a liberation movement in India. There, in the jungles and dirt-poor small villages, through months of secrecy and night marches, Willie — a solitary, inward man — discovers both the idealism and brutality of guerilla warfare. When he finally escapes the movement, he is imprisoned for the murder of three policemen. Released unexpectedly on condition he return to England, he attempts to climb back into life in the West, but his experience of wealth, love and despair in London only bedevils him further. Magic Seeds is a moving tale of a man searching for his life and fearing he has wasted it, and a testing study of the conflicts between the rich and the poor, and the struggles within each. Its spare, elegant prose sizzles with devastating psychological analysis, bleak humour and astonishing characters. Only V. S. Naipaul could have written a novel so attuned to the world and so much a challenge to it.
