Another American Dream Seminar paper from the year 2004 in the subject American Studies - Culture and Applied Geography, grade: 1 (A), Justus-Liebig-University Giessen (Anglistics), course: Radical Theater: American Plays and American Culture of the 1960s, language: English, abstract: All three plays The Zoo Story, The Death of Bessie Smith and The American Dream are Edward Albee's early plays in which he points out the deplorable state of the American society. Albee's way of writing is provocative because his ultimate goal is to shock his audience. At the same time he wants to amuse the viewers with dialogues that are governed by sarcasm and irony. He writes in the preface of the play The American Dream: "Is the play offensive? I certainly hope so; it was my intention to offend- as well as amuse and entertain." (p.14) Thus his plays manages to confront the audience with the harsh reality of life and the problems of modern society. In The Zoo Story a clash of two different representatives of the modern American society takes place and ends up in an accidental manslaughter. In The Death of Bessie Smith the audience faces a society ruled by hatred, racism and frustration. The third play which is going to be examined closely in this paper is The American Dream, a sad portrait of an American family craving for something to replace the emptiness they find themselves in. This paper will examine the social criticism in these three plays which were written between 1958 and 1960 in order to find common topics and critical issues which were present at that particular time, and are still relevant today. The topics that are going to be analyzed are the outcasts of the society and their treatment by the members of the establishment, the lack of communication and growing violence as a result of it and finally the artificial values of the modern society and the constantly present hypocrisy and double standard. As Edward Albee sums it up: The play [The American Dream] is an examination of the American scene, an attack on the substitution of artificial for real values in our society, a condemnation of complacency, it is a stand against the fiction that everything in this slipping land of ours is peachy-keen. (p. 13-14)

The American Dream Bachelor Thesis from the year 2008 in the subject American Studies - Literature, grade: 1.7, Ernst Moritz Arndt University of Greifswald (Department of English and American Studies), language: English, abstract: Every year thousands of people from all over the world migrate to the United States of America. For most people escaping war, poverty, ecological destruction and other dangers, the United States constitute a safe harbor where their hopes of a better life come true. Ever since the settling of what is today the US, people came to live in the New World and to lead a better life than in their countries of origin. The hopes connected with this better and happier live are all joined in the concept of the "American Dream," which became one of most powerful creation myths of a country. People migrating to the United States have certain dreams or hopes of a better life but in reality these promises often turn out to be not as strong as people originally believed them to be. Only a very small amount of people achieve the famous idea of "rising from rags to riches" whereas many people fail to attain

their goal of a better life. Hence it is not surprising that the American culture not only is shaped by the glorious American Dream but also by the grim truth of its failing or being flunked. Of course, such an important concept deeply influences American culture. Continuously the ideas of the American Dream can be found in television, movies, literature, and arts for instance in F. Scott Fitzgerald's *The Great Gatsby* or Gabriele Muccino's film *The Pursuit of Happiness*. This paper aims to examine the presentment and importance of the American Dream for twentieth century American drama. Drama in general was selected because of its importance as one of the three main literary genres. Temporal narrowing in form of 20th century was chosen because drama as a literary genre is characterized by experimentation with form and content in this period. Furthermore, some of the be

The American Dream

An American Dream Seminar paper from the year 2009 in the subject American Studies - Literature, grade: 1,7, University of Kassel, course: 20th Century British and American Drama, language: English, abstract: Edward Albee's "Who's Afraid of Virginia Woolf" has become one of the major works in American dramatic history (Roundane 42) and a huge career boost for Albee himself. This is not surprising as this masterpiece is considered to be revolutionary and ambitious as well as scandalous and highly controversial at the same time. The play, which has been discussed so passionately, "gives us four almost unrelievable nasty people who for something like three-and-a-half hours [] take part in a drunken orgy of backbiting, bitchery, humiliation, verbal castration, exposure and physical mauling" (Hilfer 121). Not only wanting to entertain the audience but also including social criticism, Albee makes use of essential themes which help to make people understand their situation and to make them realize the necessity to act in order to modify society. In the course of this paper, I am going to attempt to illustrate the importance of the American Dream and to establish a connection to the topic of truth and illusion which can be understood as the basis of Albee's concept. To start with, I will exemplify different aspects of the American Dream and point out selected features of the characters that can be linked to the American Dream. In order to appreciate most of the professional criticism, it is of the utmost importance to look at the issue of truth and illusion that is predominant in many parts of the play. Examining the subject matter of illusion, I will concentrate on the imaginary son as well as the relationship between the guests Nick and Honey. In a last step, I am going to explain the issue of truth in the play by examining the killing of the imaginary son and the confession of Nick and his wife. Examining selected scenes, I will try to clarify the aspects Albee criticizes and explain the

American Dream

Edward Albee's Mother Characters and the American Dream THE STORY: Running into each other at the beach, Cordelia and Abigail do all they can to hide their dislike for one another, probably because their husbands, Daniel and Benjamin, aren't doing so well at hiding the fact that they themselves were once in love before ever deciding to marry Cordelia and Abigail instead. Gertrude and Henden (Daniel and Cordelia's parents by previous marriages) play witness to their step-childrens' passions which inevitably excite their own, despite their age. Gertrude acts upon her lusty curiosity by investigating what she imagines to be a sexual relationship between Edmee and Fergus, a mother and son whom she meets at the beach that day. Henden, in his own time, approaches the sixteen-year-old Fergus and finds himself answering the boy's discomfoting questions about the nature of Daniel and Benjamin's past relationship. All together, these chance meetings and forays into frankness offer a kaleidoscopic view of passion which spans all the ages of man and woman and all the varieties of love we know.

The American Dream America's most important living playwright, Edward Albee, has been rocking our country's moral, political and artistic complacency for more than 50 years. Beginning with his debut play, The Zoo Story (1958), and on to his barrier breaking works of the 1960s, most notably The American Dream (1960), Who's Afraid of Virginia Woolf? (1963), and the Pulitzer Prize-winning A Delicate Balance (1966), Albee's provocative, unsparring indictment of the American way of life earned him early distinction as the dramatist of his generation. His acclaim was enhanced even further in the decades that followed with prize-winning dramas such as Seascape and Three Tall Women, as well as recent works like The Play About the Baby and Who is Sylvia? Albee has brought the same critical force to his non-theatrical prose. Stretching My Mind collects for the first time ever the author's writings on theater, literature, and the political and cultural battlegrounds that have defined his career. Many of the selections were drawn from Albee's private papers, and almost all previously published material—dating from 1960 to the present—has never been reprinted. Topics include Samuel Beckett, Eugene Ionesco, Sam Shepherd, as well as autobiographical writings about Albee's life, work, and worldview.
