Is English a second or foreign language for you? Do you need to improve your English language skills for your current studies or work? Or do you wish to develop your knowledge of English in order to enhance your future academic or career opportunities? Perhaps you are keen to work on your English independently but are not sure how best to do this. Or maybe you lead a busy life, and therefore need to ensure that you target your learning time and efforts carefully and effectively. This booklet, written by an experienced teacher of English as a second language, has been produced to help you. It will show you how by following some easy to understand principles and implementing a small number of practices and habits you will be able to see sustained improvement in your English skills. It will show you how your vision to become a more competent and confident user of English can become a reality. This booklet is suitable for all readers with a current level of English of Intermediate or above. Written with readers who want or need to work on their English independently especially in mind, it will also be useful to those who are attending English classes. Another intended use of this booklet is as a training tool for people who are not English language specialists but work with students or employees who want or need to develop their English Language skills. Thus, it would be of interest to a wide range of personnel who work in a multilingual context where English is used as a link language or language of instruction. This would include, for example: lecturers, tutors, in-company trainers and their managers. Topics covered include: § What there is to learn § How to make principles of language learning and memory work for you § How to achieve balance in your learning § How to exploit texts most effectively § How to handle vocabulary, phrases and grammar § How to use word frequency information to help you prioritise § How to use web-based tools to enhance your learning § How to set motivating and realistic plans and goals § What habits to develop in order to make sustained progress toward your goals If you are serious about developing your English skills for study or work purposes, or helping other people to do so, buying and using this book would be a good investment of your time and money. Damian Johnstone has a background in ESOL teaching in the UK. He now works primarily in training and teacher education, with a particular focus on language awareness for teachers and the learning of English as a second language.

[Graphic Grammar 1](#)

The authoritative guide to using the English language effectively, from "the greatest writer on grammar and usage that this country has ever produced" (David Yerkes, Columbia University). The author of The Chicago Manual of Style's popular "Grammar and Usage" chapter, Bryan A. Garner is renowned for explaining the vagaries of English with absolute precision and utmost clarity. With The Chicago Guide to Grammar, Usage, and Punctuation, he has written the definitive guide for writers who want their prose to be both memorable and correct. Garner describes standard literary English—the forms that mark writers and speakers as educated users of the language. He also offers historical context for understanding the development of these forms. The section on grammar explains how the canonical parts of speech came to be identified, while the section on syntax covers the nuances of sentence patterns as well as both traditional sentence diagramming and transformational grammar. The usage section provides an unprecedented trove of empirical evidence in the form of Google Ngrams, diagrams that illustrate the changing prevalence of specific terms over decades and even centuries of English literature. Garner also treats punctuation and word formation, and concludes the book with an exhaustive glossary of grammatical terms and a bibliography of suggested further reading and references. The Chicago Guide to Grammar, Usage, and Punctuation is a magisterial work, the culmination of Garner's lifelong study of the English language. The result is a landmark resource that will offer clear guidelines to students, writers, and editors alike. "[A manual] for those of us laboring to produce expository prose: nonfiction books, journalistic articles, memorandums, business letters. The conservatism of his advice pushes you to consider audience and occasion, so that you will understand when to follow convention and when you can safely break it."—John E. McIntyre, Baltimore Sun

Examples, Exceptions, Exercises, and Everything You Need to Master Proper Grammar Complete English Grammar Rules is a comprehensive English grammar guide covering both basic and advanced grammar rules. Learn proper English grammar with simple, in-depth explanations, featuring key exceptions, common grammar mistakes, and thousands of real-world usage examples, plus valuable grammar exercises—every topic includes a grammar quiz. With Complete English Grammar Rules, you'll be able to: Quickly master basic English grammar while learning more advanced topics along the way. Easily identify nouns, pronouns, verbs, adjectives, adverbs, prepositions, and other parts of speech. Master verb tenses and conjugation, including irregular verbs and exceptions. Learn about every type of sentence and avoid common writing mistakes. Test your knowledge with grammar quizzes designed to help you retain the most important information. Finally, you can get answers to all your questions about grammar. Complete English Grammar Rules gives you all the rules of grammar, all in one place, logically organized in a user-friendly format. Preface Grammar is without a doubt one of the most daunting aspects of the English language, an area riddled with complexities, inconsistencies, and contradictions. It has also been in a state of flux for pretty much its entire existence. For native speakers of English, as well as for those learning it as a new language, grammar presents a very serious challenge to speaking and writing both accurately and effectively. Having a single, reliable, go-to reference guide should therefore be indispensable to those trying to learn, improve, or perfect their speech or writing. This book is that guide: a clear, unambiguous, and comprehensive source of information that covers all the relevant topics of English grammar, while still being easy to understand and enjoyable to read. Every topic in the book has been broken down into basic units. Each unit can be read and understood in its own right, but throughout the book you will find cross-references to other sections and chapters to help make it clear how all the pieces fit together. If you're having trouble understanding something, try going back (or forward) to other related topics in the book. Finally, it must be mentioned that, because English is such a flexible, inconsistent language, the "rules" that are often bandied about are usually not rules at all, but rather guides that reflect how the language is used. Accordingly, the guidelines contained within this book are just that—guidelines. They are not intended to provide constrictive or proscriptive rules that confine everyone to a particular way of speaking or writing. Learning how the English language works will enhance your engagement with speech and writing every day, from the books you read, to the e-mails you write, to the conversations you have with friends and strangers alike. As such, mastering grammar is not an exercise that is confined to the classroom. While it is certainly important to learn the structures, styles, and rules that shape the language, the key to truly learning English is to read and listen to the way people write and speak everyday, from the most well-known authors to the people you talk to on the bus. Take the information you find in this book and carry it with you into the world. —P. Herring

[The Chicago Guide to Grammar, Usage, and Punctuation](#)

American English Grammar introduces students to American English in detail, from parts of speech, phrases, and clauses to punctuation and explaining (and debunking) numerous "rules of correctness," integrating its discussion of Standard American grammar with thorough coverage of the past sixty years' worth of work on African American English and other ethnic and regional non-Standard varieties. The book's examples and exercises include 500 real-world sentences and longer texts, drawn from newspapers, film, song lyrics, and online media as well as from Mark Twain, Stephen King, academic texts, translations of the Bible, poetry, drama, children's literature, and transcribed conversation and TV and radio shows. Based on twenty years of classroom testing and revision, American English Grammar will serve as a classroom text or reference that teaches students how to think and talk not only about the mechanics of sentences but also about the deep and detailed soul and nuance of the most widely used language in human history.

[A Short Guide to Learning English for Study and Professional Purposes](#)

Looking for an easy-to-use guide to English grammar? This handy introduction covers all the basics of the subject, using a simple and straightforward style. Students will find the book's step-by-step approach easy to follow and be encouraged by its non-technical language. Requiring no prior knowledge of English grammar, the information is presented in small steps, with objective techniques to help readers apply concepts. With clear explanations and well-chosen examples, the book gives students the tools to understand the mysteries of English grammar as well as the perfect foundation from which to move on to more advanced topics.

[The McGraw-Hill Handbook of English Grammar and Usage](#)

[Complete English Grammar Rules](#)

This volume explores both historical and current issues in English usage guides or style manuals. Guides of this sort have a long history: while Fowler's Modern English Usage (1926) is one of the best known, the first English usage guide was published in the UK in 1770, and the first in the US in 1847. Today, new titles come out nearly every year, while older works are revised and reissued. Remarkably, however, the kind of usage problems that have been addressed over the years are very much the same, and attitudes towards them are slow to change - but they do change. The chapters in this book look at how and why these guides are compiled, and by whom; what sort of advice they contain; how they differ from grammars and dictionaries; how attitudes to usage change; and why institutions such as the BBC need their own style guide. The volume will appeal not only to researchers and students in sociolinguistics, but also to general readers with an interest in questions of usage and prescriptivism, language professionals such as teachers and editors, and language policy makers.

in the English language, making it easier to understand and remember English usage. Difficult grammatical areas are covered - use of definite or indefinite articles, regular and irregular verb formations, verb transformations, pronouns, adjectives and adverbs. Brilliantly simple - simply brilliant!

[A short introduction to English grammar, with critical notes The seventh edition, corrected](#)

[English Grammar in American Schools Before 1850](#)

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, The Cambridge Grammar of the English Language (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. This book is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises, and will provide a basis for introductions to grammar and courses on the structure of English not only in linguistics departments but also in English language and literature departments and schools of education.

[A Student's Introduction to English Grammar](#)

This absolutely essential language guide and workbook will expand your English vocabulary in no time. Spilling over with thousands of entries for useful words and phrases, this is the perfect study aid for any adult learning English as a foreign language. [Perfect English Grammar](#)

A concise guide to grammar, usage and style. Includes appendices on irregular verbs, verb-preposition combinations, commonly confused words, and misspelled words.

[Teaching Grammar](#)

The Oxford Guide to English Grammar is a systematic account of grammatical forms and the way they are used in modern standard English. It is designed for learners at intermediate and advanced levels and for teachers, and is equally suitable for quick reference to details or for the more leisurely study of grammatical topics. The emphasis is on meaning in the choice of grammatical pattern, and on the use of patterns in texts and in conversations.

[A Short Introduction to English Grammar: with Critical Notes](#)

Early in the history of English, the words "grammar" and "glamour" meant the same thing: the power to charm. Roy Peter Clark, author of Writing Tools, aims to put the glamour back in grammar with this fun, engaging alternative to stuffy instructionals. In this practical guide, readers will learn everything from the different parts of speech to why effective writers prefer concrete nouns and active verbs. THE GLAMOUR OF GRAMMAR gives readers all the tools they need to "live inside the language"--to take advantage of grammar to perfect their use of English, to instill meaning, and to charm through their writing. With this indispensable book, readers will come to see just how glamorous grammar can be.

[A Short Introduction to English Grammar: with Critical Notes. A New Edition, Corrected](#)

[English Grammar](#)

The English language is spoken by more than a billion people throughout the world. But where did English come from? And how has it evolved into the language used today? In this Very Short Introduction Simon Horobin investigates how we have arrived at the English we know today, and celebrates the way new speakers and new uses mean that it continues to adapt. Engaging with contemporary concerns about correctness, Horobin considers whether such changes are improvements, or evidence of slipping standards. What is the future for the English language? Will Standard English continue to hold sway, or we are witnessing its replacement by newly emerging Englishes? ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[The Only Grammar Book You'll Ever Need](#)

The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step, using authentic written and spoken data. Using 'real' texts avoids the faking of evidence to be found in some traditional grammar books, and interesting problems of analysis that arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition, which contains additional chapters and material. A new opening chapter discusses the concept of 'grammatically correct English' and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English, and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A Course Book in English Grammar will prove invaluable to all students of English Language.
