Brexit will have significant consequences for the country,  
for Europe, and for global order. And yet much discussion of  
Brexit in the UK has focused on the causes of the vote and  
on its consequences for the future of British politics. This  
volume examines the consequences of Brexit for the future of  
Europe and the European Union, adopting an explicitly  
regional and future-oriented perspective missing from many  
existing analyses. Drawing on the expertise of 28 leading  
scholars from a range of disciplines, Brexit and Beyond

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

offers various different perspectives on the future of Europe, charting the likely effects of Brexit across a range of areas, including institutional relations, political economy, law and justice, foreign affairs, democratic governance, and the idea of Europe itself. Whilst the contributors offer divergent predictions for the future of Europe after Brexit, they share the same conviction that careful scholarly analysis is in need - now more than ever - if we are to understand what lies ahead for the EU. Praise for *Brexit and Beyond* 'a wide-ranging and thought-provoking tour through the vagaries of British exit, with the question of Europe's fate never far from sight. Brexit is a wake-up call for the EU. How it responds is an open question—but respond it must. To better understand its options going forward you should turn to this book, which has also been made free online.' Prospect Magazine 'This book explores wonderfully well the bombshell of Brexit: is it a uniquely British phenomenon or part of a wider, existential crisis for the EU? As the tensions and complexities of the Brexit negotiations come to the fore, the collection of essays by leading scholars will prove a very valuable reference for their depth of analysis, their lucidity, and their outlining of future options.' - Kevin Featherstone, Head of the LSE European Institute, London School of Economics 'Brexit and Beyond is a must read. It moves the ongoing debate about what Brexit actually means to a whole new level. While many scholars to date have examined the reasons for the British decision to leave, the crucial question of what Brexit will mean for the future of the European project is often overlooked. No longer. *Brexit and Beyond* bundles the perspectives of leading scholars of European integration. By doing so, it provides a much needed scholarly guidepost for our understanding of the significance of Brexit, not only for the United Kingdom, but also for the future of the European continent.' - Catherine E. De Vries, Professor in the department of Government, University of Essex and Professor in the department of Political Science and Public Administration Free University Amsterdam 'Brexit and Beyond provides a fascinating (and comprehensive) analysis on the how and why the UK has found itself on the path to exiting the European Union. The talented cast of academic contributors is drawn from a wide variety of disciplines and areas of expertise and this provides a breadth and depth to the analysis of Brexit that is unrivalled. The volume also provides large amounts of expert-informed speculation on the

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

future of both the EU and UK and which is both stimulating and anxiety-inducing.' -Professor Richard Whitman, Head of School, Professor of Politics and International Relations, Director of the Global Europe Centre, University of Kent

This timely contribution pulls no punches and views the UK as institutionally Eurosceptic across politics and society, from the press to defence. It represents a rich and original contribution to the emerging field of Eurosceptic studies, and a key contribution to this important issue.

This timely contribution pulls no punches and views the UK as institutionally Eurosceptic across politics and society, from the press to defence. It represents a rich and original contribution to the emerging field of Eurosceptic studies, and a key contribution to this important issue.

Since the advent of the 1992 Maastricht Treaty, a key turning point in terms of the crystallisation of opposition towards the European Union (EU), Euroscepticism has become a transnational phenomenon. The term 'Euroscepticism' has become common political language in all EU member states and, with the advent of the Eurozone, refugee and security crises have become increasingly 'embedded' within European nation states. Bringing together a collection of essays by established and up-and-coming authors in the field, this handbook paints a fuller, more holistic picture of the extent to which the Eurosceptic debate has influenced the EU and its member states. Crucially, it also focuses on what the consequences of this development are likely to be for the future direction of the European project. By adopting a broad-based, thematic approach, the volume centres on theory and conceptualisation, political parties, public opinion, non-party groups, the role of referendums - and the media - and of scepticism within the EU institutions. It also reflects on the future of Euroscepticism studies following the United Kingdom's vote to leave the EU. Containing a full range of thematic contributions from eminent scholars in the field, *The Routledge Handbook of Euroscepticism* is a definitive frame of reference for academics, practitioners and those with an interest in the debate about the EU, and more broadly for students of European Studies, EU and European Politics.

This volume focuses on the relationship between the media

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

and European democracy, as important factors of EU legitimacy. The contributors show how the media play a crucial role in making European governance accountable, and how it can act as an intermediate link between citizens and their elected and unelected representatives. The book focuses on widespread levels of Euroscepticism and the contemporary European crisis. The authors present empirical studies which problematize the role of traditional media coverage on EU attitudes. Comparisons are also drawn between traditional and new media in their influence on Euroscepticism. Furthermore, the authors analyse the impact of the internet and social media as new arenas in which Eurosceptic claims and positions can be made visible, as well as being a medium used by political parties and populist movements which contest Europe and its politics and policies. Euroscepticism, Democracy and the Media will be of interest to students and scholars with an interest in European politics, political parties, interest groups, social movements and political sociology.

Religion has a significant effect on how Europeans feel about the European Union (EU) and has had an important impact on how people voted in the UK's 'Brexit referendum'. This book provides a clear and accessible quantitative study of how religion affects Euroscepticism and political behaviour. It examines how religion has affected support for EU membership since the UK joined the European Economic Community, through to the announcement of the Brexit referendum in 2013, to the referendum itself in 2016. It also explores how religion continues to affect attitudes towards the EU post-Brexit. The volume provides valuable insights into why the UK voted to leave the EU. Furthermore, it highlights how religion affects the way that citizens throughout Europe assess the benefits, costs and values associated with EU membership, and how this may influence public opinion regarding European integration in the future. This timely book will be of important interest to academics and students focusing on religion and public attitudes, contemporary European and British politics as well as think tanks, interest groups and those with an interest in understanding Brexit.

Press and Television in British Politics offers a research-based exploration of the way the media portrays a range of political and economics-related topics. Using both

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

quantitative and qualitative techniques, Gavin explores the implications that follow for journalism and journalism study, and for British and European democracy and politics.

Winner of the Political Studies Association WJM MacKenzie Prize for best book of 2014 *The Politics of English Nationhood* supplies the first comprehensive overview of the evidence, research and major arguments relating to the revival of Englishness, exploring its varied, and often overlooked, political ramifications and dimensions. It examines the difficulties which the major political parties have encountered in dealing with 'the English question' against the backdrop of the diminishing hold of established ideas of British government and national identity in the final years of the last century. And it explores a range of factors—including insecurities generated by economic change, Euroscepticism, and a growing sense of cultural anxiety – which helped make the renewal of Englishness appealing and imperative, prior to the introduction of devolution by the first Blair government, a policy which also gave this process a further impetus. The book therefore provides a powerful challenge to the two established orthodoxies in this area. These either maintain that the English are dispositionally unable to assert their own nationhood outside the framework of the British state, or point to the supposed resurgence of a resentful and reactive sense of English nationalism. This volume instead demonstrates that a renewed, resonant and internally divided sense of English nationhood is apparent across the lines of class, geography, age, and ethnicity. And it identifies several distinct strands of national identity that have emerged in this period, contrasting the appearance of populist and resentful forms of English nationalism with an embedded and deeply rooted sense of conservative Englishness and attempts to reconstruct a more liberal and civic idea of a multicultural England. This volume also includes a wide-ranging analysis of the culturally rooted revival of Englishness, drawing out the political dimensions and implications of this re-emerging form of national consciousness.

This study is about party political discourses on national identity in Britain under the New Labour governments (1997–2010). Britishness has become a major theme in the British political debate since the end of the second world war, and even more so since the early 1990s, either directly

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

or through discussions of specific issues like immigration, Europe or devolution to Scotland and Wales. Numerous political leaders have publicly worried about the weakness of the common citizenship in the UK and the threat to the survival of Britishness, which has been the only common thread in competing discourses between and within parties. The book examines the four issues which have embodied the different aspects of the debate about national identity in the UK, namely devolution, multiculturalism, European integration and globalisation. It shows that the polarised discourses (especially between the Conservatives and Labour) of the 1990s have given way to a relative rapprochement on these issues, with the notable exception of the European Union, where a real cleavage, in rhetoric if not in policy, remains between and sometimes within British political parties.

The idea of an alliance between Britain and its old Commonwealth colonies has recently made a remarkable comeback in the context of Brexit. Based on belief in a special bond between the English-speaking peoples of the UK, the USA, Canada, Australia and New Zealand, it has been dubbed the 'Anglosphere' by supporters and 'Empire 2.0' by critics. In this book, leading commentators Michael Kenny and Nick Pearce trace the historical origins of this idea back to the shadow cast by the British Empire in the late Victorian era. They show how leading British political figures, from Churchill to Thatcher, consistently reworked it and how it was revived by a group of right-wing politicians, historians and pamphleteers to support the case for Brexit. They argue that, while the contemporary idea of the Anglosphere as an alternative to European Union membership is seriously flawed, it nonetheless represents an enduring account of Britain's role in the world that runs through the heart of political life over the last century. *Shadows of Empire* will be essential reading for everyone interested in British politics and post-Brexit foreign policy.

In cultural and intellectual terms, one of the EU's most important objectives in pursuing unification has been to develop a common historical narrative of Europe. Across ten compelling case studies, this volume examines the premises underlying such a project to ask: Could such an uncontested history of Europe ever exist? Combining studies of national

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

politics, supranational institutions, and the fraught EU-Mideast periphery with a particular focus on the twentieth century, the contributors to *History and Belonging* offer a fascinating survey of the attempt to forge a post-national identity politics.

As well as introducing the "mainstream" ideologies of Liberalism, Conservatism and Socialism, this text examines challenges from nationalist, feminist and Green thinkers, amongst others. Now in its third edition, it includes a new chapter on anarchism and assesses the continuing disillusionment of Britain with the ideas of the "Westminster elite".

David Cameron was leader of the Conservative Party (2005-16) and Prime Minister of the United Kingdom (2010-16). His legacy may be one of the most significant of any post-war British prime minister. But did he have a distinctive political strategy, and if so how should we characterise it? This book provides a new and distinctive interpretation of 'Cameronism', focusing on the twin themes of modernisation and manipulation. Heppell identifies three core aspects of Cameron's modernisation strategy: his attempts to detoxify the image of the Conservative Party; his efforts to delegitimise the Labour Party by blaming it for the financial crisis and austerity; and Cameron's use of the 'Big Society' narrative as a means of reducing the perceived responsibilities of the state. Manipulation is explored in relation to the Coalition Government and the exploitation of the Liberal Democrats, on policies such as austerity, tuition fees and electoral reform. Finally, the book examines Cameronism in relation to current challenges to the existing political order: Brexit, Scottish independence, and the rise of populism. This timely book is essential reading to those interested in British party politics and Prime Ministerial leadership.

This collection explores British attitudes to Continental Europe that explain the Brexit decision. Addressing British-European entanglements and the impact of British Euroscepticism, the book argues that Britain is in denial about the strength of its ties to Europe. The volume brings together literary and cultural studies, history, and political science in an integrated analysis of views and practices that shape cultural memory. Part one traces the

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

historical and political relationship between Britain and Europe, whilst Part two is devoted to exemplary case studies of films as well as popular Eurosceptic and historical fiction. Part three engages with border mindedness and Britain's island story. The book is addressed both to specialists in cultural studies, and a wider audience interested in Brexit.

This updated guide examines the different relationships between the various tiers of government in the UK and the EU, and how the EU's powers affect the UK, from a range of perspectives. It evaluates the role of the media, political parties, pressure groups, social media and the ever-changing position of public opinion, and places the relationship in its historical context to show how it has evolved over time. Each chapter includes an introduction, learning goals, a glossary, likely exam questions, helpful websites and suggestions for further reading. This new edition has two new chapters, 'Europeanisation' and 'The British Media and the EU', includes the fallout from the 2015 UK Parliament general election and the 2014 European Parliament election and draws on freshly updated examples, tables and figures updated throughout.

This book explores Tony Blair and Gordon Brown's attempt to sell the European ideal to the British people. New Labour came to power in 1997 promising to modernize the country and make it fit for the twenty-first century. In foreign policy, Blair and Brown set about rethinking core components of the British national identity, especially the country's relationship to its past and its role in the world. Rebranding Britain, they argued, meant helping the British people feel comfortably at home in the European Union. What did New Labour achieve and did its European policy succeed? How did Blair and Brown try and persuade the British to accept a European future? What were the obstacles they faced and the strategies they used to overcome them? This timely study of New Labour's effort to build a 'pro-European consensus' in Britain argues that the government failed to live up to its early promises. Based on evidence from well over one hundred of Blair and Brown's foreign policy speeches supplemented by interviews with policy-makers, advisers and speech-writers from the time, the book is sympathetic to the challenge New Labour set itself but also critical of the rhetorical techniques it used to advance the

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

Europeanist cause. Trapped between a broadly hostile media and an apathetic public, Blair and Brown failed to provide the necessary leadership to see Britain to a European future. Theoretically informed, empirically robust and methodologically innovative, this novel book will appeal to anyone interested in contemporary British foreign policy, the New Labour project and Euroscepticism in Britain.

This revised and updated ninth edition of the bestselling textbook *Politics UK* is an indispensable introduction to British politics. It provides a thorough and accessible overview of the institutions and processes of British government, a good grounding in British political history and an incisive introduction to the issues and challenges facing Britain today, including the European referendum and Brexit. The ninth edition welcomes brand new material from seven new contributors to complement the rigorously updated and highly respected chapters retained from the previous edition. It delivers excellent coverage of contemporary events including a new chapter on Euro-scepticism and the European referendum, an assessment of the performance of Labour's leadership, the trials and tribulations of the Liberal Democrats and UKIP, and the evolving devolution debate in Scotland, led by the Scottish Nationalist Party. Features of the new edition include: Britain in context boxes offering contrasting international perspectives on key themes in British politics A comprehensive 'who's who' of politics in the form of Profile boxes featuring key political figures And another thing . . . pieces containing short articles written by distinguished commentators including Mark Garnett, Sir David Omand, Richard Wilkinson and Sir Simon Jenkins An epilogue analyzing the turbulent state of UK politics following the European referendum With chapters written by highly respected scholars in the field and contemporary articles on real-world politics from well-known political commentators, this textbook is an essential guide for all students of British politics.

This book provides a thorough examination of the phenomenon of Euroscepticism in the United Kingdom. It begins by arguing that Euroscepticism has roots as far back as when the process of European integration first came into being, and that it is not new in British politics. As a suggestion of opposition to the process of European integration, Euroscepticism dates back to the early days of founding a

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

union in Western Europe. This book shows that Eurosceptic Britain is a product of a variety of factors particularly related to history, politics, culture, and geography. The unique specificities of the British political system comprise another important reason for Eurosceptic attitudes in Britain. The book also examines the relation between the Eurosceptic discourse in Britain and the structure of the European Union's institutions. It argues that much of British Euroscepticism is about the way these institutions are operated. Most importantly, it highlights that the enduring Eurozone crisis has contributed to shaping recent varieties of scepticism towards the European Union as a whole, before concluding that Euroscepticism could not relocate Britain outside its natural place within Europe.

Based on fine-grained ethnographic research in an English city, this book offers a highly original perspective on England's contemporary political predicament. It argues that some of the most influential academic accounts of the country's current political situation, particularly those focusing on culture or racism, have neglected the key role of nationalism as an often unspoken, banal political principle and framing ideology. Suggesting that economic inequalities remain the key causal ingredient of English political life and, crucially, that these are being interpreted by individuals in relation to a nationalist/cosmopolitan ideological axis, the author argues that any effective, progressive political future will require a reinvigorated sense of political community. Proposing a politics that will promote both nationhood and cosmopolitanism, Nationalism, Inequality and England's Political Predicament advocates a seemingly contradictory but necessary approach by which explicitly anti-nationalist and anti-racist principles coexist expediently alongside short-term protectionist and immigration control policies.

The accelerated pace of European integration since the early 1990s has been accompanied by the emergence of increasingly prominent and multiform oppositions to the process. The term Euroscepticism has appeared with growing frequency in a range of political, media, and academic discourses. Yet, the label is applied to a wide range of different, and occasionally contradictory, phenomena. Although originally associated with an English exceptionalism relative to a Continental project of political and economic integration,

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

the term Euroscepticism is now also identified with a more general questioning of European Union institutions and policies which finds diverse expressions across the entire continent. This volume of European Studies brings together an interdisciplinary team of contributors to provide one of the first major, multinational surveys of the growth of these Eurosceptic tendencies. Individual chapters provide detailed examinations of developments in France, Germany, the Netherlands, the United Kingdom, Ireland, Sweden, Austria, the Czech Republic, Poland, and Switzerland. Overall, the volume draws a distinctive portrait of contemporary Euroscepticism, situating the phenomenon not only relative to the progress of European integration, but also in relation to broader questions concerned with the evolution of party politics and the reshaping of national identities.

Anthony Forster argues that euroscepticism, in addition to being a political stance, displays the seeds of becoming a new faith. Through a detailed analysis of British post-war politics, he shows the development of a core set of beliefs, a history of persecution, displays of moral rectitude in opposing Europe and the power of scepticism to change existing beliefs. This challenging new history of euroscepticism will be a valuable resource for undergraduate students of politics and European studies.

As the EU enters an increasingly uncertain phase after the 2016 Brexit referendum, Euroscepticism continues to become an increasingly embedded phenomenon within party systems, non-party groups and within the media. Yet, academic literature has paid little attention to the emergence of, and increased development of, transnational and pan-European networks of EU opposition. As the 'gap' between Europe's mainstream political elites and an increasingly sceptical public has widened, pan-European spheres of opposition towards the EU have developed and evolved. The volume sets out to explain how such an innately contradictory phenomenon as transnational Euroscepticism has emerged. It draws on a variety of perspectives and case studies in a number of spheres - the European Parliament, political parties, the media, civil society and public opinion. Examining to what extent the pan-European dimension of Euroscepticism is becoming increasingly influential, it argues that opposition to European integration has for too long been viewed

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

somewhat narrowly, through the paradigm of national party politics. This text will be of key interest to scholars, students and professionals in EU politics, European studies, political parties, and more broadly to comparative politics and international relations.

Why are the British so Euro-sceptic? Forget about tedious treaties, party politics or international relations. The real reason is that the British do not feel European. This book explores and explains the cultural divide between Britain and Europe, where it comes from and how it manifests itself in everyday life and the academic world.

This is a unique book-length accounts of the domestic impact of EU membership. Drawing on expert contributions, this volume provides a state of the art account of how membership has affected the institutions of central, devolved and local governance, the activities of organized interests, and major areas of public policy.

This text provides a review of Euroscepticism in contemporary European politics. Scholars address the strength & breadth of Euroscepticism across a range of EU member & candidate states, & draw out comparative lessons on the nature of political parties, party systems, & the domestic politics of European integration.

Euroscepticism has become a generic catch-all term that is not always useful to capture the nuances of the different types of political opposition to the current process of European integration. This research analyses the electoral manifestos and programmes presented to the European Parliamentary elections in 2009 by twenty-two parties. In this regard, it is clear that the radical right parties usually have Europhobic impulses - their rejection being not only of methods, but also of principals. In contrast, the radical left parties are, in theory, favourable to European integration, but dispute the direction imposed by the EU authorities.

Draws a portrait of contemporary Euroscepticism, situating the phenomenon relative to the progress of European integration. This volume of European Studies brings together an interdisciplinary team of contributors to provide one of the major, multinational surveys of the growth of these

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945 Eurosceptic tendencies.

Anthony Forster argues that euroscepticism, in addition to being a political stance, displays the seeds of becoming a new faith. Through a detailed analysis of British post-war politics, he shows the development of a core set of beliefs, a history of persecution, displays of moral rectitude in opposing Europe and the power of scepticism to change existing beliefs. This challenging new history of euroscepticism will be a valuable resource for undergraduate students of politics and European studies.

Britain's relationship with the EU has always been riddled with doubt, scepticism and awkwardness. This much-needed new book examines why, how and with what effect the EU has become such a contentious issue in UK politics. It places the debate in historical context by starting with an overview of debates about membership in the 1950s and 1960s and then goes on to examine the impact of Britain's membership since 1973 across core policy areas, including economic and monetary union, agriculture, and foreign and security policy. Andrew Geddes outlines major changes in the scope of the European project and assesses how central, devolved and local governments have responded to the EU. The book also assesses the EU's impact on domestic policies, assessing debates within and between the main parties and charting the rise of Euroscepticism as a key trend in contemporary British politics. Engagingly written, this text provides a comprehensive and up-to-date analysis both of the EU's impact on Britain and of Britain's contribution to the EU.

This timely text provides a concise and readable assessment of the dynamics, character and consequences of opposition to European integration at all levels from elites and governments through parties and the media to voters and grass roots organizations.

The revised and updated eighth edition of the bestselling textbook *Politics UK* is an indispensable introduction to British politics. It provides a thorough and accessible overview of the institutions and processes of British government, a good grounding in British political history and an incisive introduction to the issues facing Britain today. With contributed chapters from respected scholars in

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

the field and contemporary articles on real-world politics from well-known political commentators, this textbook is an essential guide for students of British politics. The eighth edition welcomes brand new material from eight new contributors to complement the rigorously updated and highly valued chapters retained from the previous edition. The eighth edition includes:

- Britain in context boxes offering contrasting international perspectives of themes in British politics.
- A comprehensive 'who's who' of politics in the form of Profile boxes featuring key political figures.
- And another thing pieces: short articles written by distinguished commentators including Jonathan Powell, Michael Moran and Mark Garnett.
- Fully updated chapters plus new material providing excellent coverage of contemporary political events including: The Leveson Inquiry, the aftermath of the 2011 riots and the House of Lords reform.
- A vibrant and accessible new design to excite and engage students as they work through a variety of political topics.
- A new epilogue to the book offering a critical perspective of the trials and tribulations of the Coalition Government, including an overview of the major differences that divide the coalition partners.

What has been the political impact of the Eurozone Debt Crisis in the UK? To what extent have the bank collapses and bailouts reinforced Britain's Eurosceptic trajectory? In this revised and updated second edition Chris Gifford addresses these key questions reflecting on the Labour government's approach to Europe while exploring the extensive mobilisation of Eurosceptic forces in opposition to the Conservative-led coalition government. The book examines the extent to which Euroscepticism has become dominant within both the Conservative leadership and the bulk of its parliamentary party and how this has affected the relationship of the coalition government with the European Union. By placing current attitudes to Europe in relation to the wider history of Britain's post war interaction with its continental neighbours the author shows how British Euroscepticism is structural in nature and a persistent and institutionalised feature of UK Politics.

This book seeks out the origins of contemporary English nationalism. Whilst much academic and political attention has been given to England's place within the United Kingdom since devolution, the author argues that recent English

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

nationalism actually derives from Britain's troubled relationship with European integration. Drawing on political evidence from the former Empire, the debates surrounding EEC accession and the United Kingdom's ongoing membership in the European Union, the author identifies the foundations of contemporary English nationalism. In doing so, he adds an important corrective to the debate about nationalism in England, pulling our gaze out from the United Kingdom itself and onto a wider field. Far from being 'absent', English nationalism as we know it today has been driven by resistance to European integration since the end of Empire in the 1960s.

The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed, the duties of the state, and its role in the wider world. Powerful processes - from the development of democracy, the changing nature of the social contract, war, and economic dislocation - have challenged, and at times threatened to overwhelm, both governors and governed. Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics. This Handbook shows the ways in which political historians have responded to these challenges, providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies. It comprises thirty-three thematic essays by leading and emerging scholars in the field. Collectively, these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research. The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought-provoking 'long view' for those interested in current political challenges.

Concise, comprehensive and accessible, *Exploring British Politics* presents an insightful approach to British politics with a special emphasis on developments since the 2010 general election and the formation of Britain's first coalition government since 1945. Designed to stimulate critical analysis and provoke lively debate, it provides new perspectives on two key themes - the health of British democracy and the transition from traditional models of government to more flexible forms of 'governance'.

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

This volume provides an up-to-date and comprehensive introduction to British policy in Europe. By exploring the schisms within the party over Europe, through primary source-based history and theoretical discourses of political science, N.J. Crowson gives the reader the best sense of understanding of how and why the Conservative party's policy attitudes to European integration have evolved. The Conservative Party and European Integration since 1945 adopts a thematic line based around two chronological periods, 1945-75 and 1975-2006, and uses different methodological approaches. It explores the shifting stances amongst Conservatives within an economic, political and international context as the party adjusted to the decline of Britain's world role and the loss of empire. Crowson analyzes Britain's role and relationship with Europe together with the study of the Conservative Party, and deals with economic, commercial and monetary issues, successfully bridging a serious gap in any discussion of the UK's relations with the European Union and appreciation of the political world in which Conservative European policy has been framed and pursued since 1945. This book is recommended for background reading in undergraduate courses in British politics and European history.

This revised and updated ninth edition of the bestselling textbook *Politics UK* is an indispensable introduction to British politics. It provides a thorough and accessible overview of the institutions and processes of British government, a good grounding in British political history and an incisive introduction to the issues and challenges facing Britain today, including the European referendum and Brexit. The ninth edition welcomes brand new material from seven new contributors to complement the rigorously updated and highly respected chapters retained from the previous edition. It delivers excellent coverage of contemporary events including a new chapter on Euro-scepticism and the European referendum, an assessment of the performance of Labour's leadership, the trials and tribulations of the Liberal Democrats and UKIP, and the evolving devolution debate in Scotland, led by the Scottish Nationalist Party. Features of the new edition include: Britain in context boxes offering contrasting international perspectives on key themes in British politics A comprehensive 'who's who' of politics in the form of Profile boxes featuring key political figures And another thing . . . pieces containing

# Read PDF Euroscepticism In Contemporary British Politics Opposition To Europe In The Conservative And Labour Parties Since 1945

short articles written by distinguished commentators including Mark Garnett, Sir David Omand, Richard Wilkinson and Sir Simon Jenkins An epilogue analyzing the turbulent state of UK politics following the European referendum With chapters written by highly respected scholars in the field and contemporary articles on real-world politics from well-known political commentators, this textbook is an essential guide for all students of British politics.

Brexit has changed everything - from our government, to our economy and principal trading relationship, to the organization of our state. This watershed moment, which surprised most observers and mobilized previously apathetic sections of the electorate, is already transforming British politics in profound and lasting ways. In this incisive book, leading analysts of UK and EU politics Geoffrey Evans and Anand Menon step back from the immediacy and hyperbole of the Referendum to explain what happened on 23 June 2016, and why. Brexit, they argue, was the product of both long-term dissatisfaction with the EU and a gradual breakdown in the relationship between parties and voters that spawned detachment, disinterest and disenchantment. Exploring its subsequent impact on the June 2017 General Election, they reveal the extent to which Brexit has shattered the contemporary equilibrium of British politics. These reverberations will continue to be felt for a very long time and could pose a real danger to the health of British democracy if the government fails to deliver on the promises linked to Brexit.

Why did it take the Conservative Party so long to recover power? After the landslide defeat in 1997, why was it so slow to adapt, reposition itself and rebuild its support? How did the party leadership seek to reconstruct Conservatism and modernise its electoral appeal? Of vital interest to anyone interested in British politics, this highly readable book addresses these questions through a contextualised assessment of Conservative Party politics between 1997 and 2010. It traces debates over strategy amongst the party elite and scrutinises the actions of the leadership. It also considers four particular dilemmas for contemporary Conservatism: European integration; national identity and the 'English Question'; social liberalism versus social authoritarianism; and the problems posed by a neo-liberal political economy. The book argues that the

ideological legacy of Thatcherism played a central role in framing and shaping these intraparty debates, and that an appreciation of this is vital for explaining the nature and limits of the Conservatives' renewal under Cameron.

The history of Britain's complex relationship with Europe, untangled "The best short introduction to both the political realignment that produced the 2016 Referendum result and the immense fallout since."--CapX, "Books of the Year" (2020) "[A] cool-headed, fair, and judicious analysis of Britain and the EU at a decisive period in history"-- Thomas Gallagher, Brexit-Watch.org Is Britain a part of Europe? The British have been ambivalent on this question since the Second World War, when the Western European nations sought to prevent the return of fascism by creating strong international ties throughout the Continent. Britain reluctantly joined the Common Market, the European Community, and ultimately the European Union, but its decades of membership never quite led it to accept a European orientation. In the view of the distinguished political scientist Vernon Bogdanor, the question of Britain's relationship to Europe is rooted in "the prime conflict of our time," the dispute between the competing faiths of liberalism and nationalism. This concise, expertly guided tour provides the essential background to the struggle over Brexit.
