"If you've ever fantasized walking and conversing with the great scientist on the subjects that consumed him, and now wish to add the fullness of reality, read this book."
—Edward O. Wilson, author of Half-Earth: Our Planet's Fight for Life James T. Costa takes readers on a journey from Darwin's childhood through his voyage on the HMS Beagle, where his ideas on evolution began, and on to Down House, his bustling home of forty years. Using his garden and greenhouse, the surrounding meadows and woodlands, and even the cellar and hallways of his home-turned-field-station, Darwin tested ideas of his landmark theory of evolution through an astonishing array of experiments without using specialized equipment. From those results, he plumbed the laws of nature and drew evidence for the revolutionary arguments of On the Origin of Species and other watershed works. This unique perspective introduces us to an enthusiastic correspondent, collaborator, and, especially, an incorrigible observer and experimenter. And it includes eighteen experiments for home, school, or garden. Finalist for the 2018 AAAS/Subaru SB&F Prizes for Excellence in Science Books.

From internationally bestselling author Kimberley Freeman comes a captivating new novel about a scandalous attraction, a long-forgotten secret, and a place where two women's lives are changed forever. It's 1926 and Violet Armstrong is a waitress at the grand Evergreen Spa Hotel, where Australia's glitterati are spending a winter vacation. Among the guests who remain are Sam and Flora Honeychurch-Blacks, a wealthy brother and sister ensconced in the hotel for an extended stay. Violet and Sam have an attraction that is as passionate as it is forbidden as the hotel closes down for the winter season. When a snowstorm moves in, trapping them all, no one could have imagined what would unfold. The group must let their secrets be buried by the snow, but all snow melts, exposing the truth beneath... Eighty-eight years later, Lauren Beck takes a job at a café in the Blue Mountains, built as the first stage of the Evergreen Spa Hotel's return to grandeur. There she meets Tomas, the Danish architect overseeing the project. As their budding relationship grows, Lauren discovers a series of passionate love letters dating back to 1926 that allude to a whirlwind affair—and a tragic secret. Lauren begins to unravel this long-forgotten mystery, but will discovering the truth finally make her brave enough to take a risk that could change her entire life? Inspired by elements of her grandmother's life, Kimberley Freeman has created a complex tale of mystery, heartbreak, and love that will keep you guessing with every twist until the very last page.

A young witch must pass a coming-of-age quest or risk losing her magic forever in this enchanting fantasy -- perfect for fans of Kiki's Delivery Service and Aru Shah and the End of Time. Sometimes all you need is a pinch of magic Eva Evergreen is determined to earn the rank of Novice Witch before her thirteenth birthday. If she doesn't, she'll lose her magic forever. For most young witches and wizards, it's a simple enough test: One: Help your town, do good all around. Two: Live there for one moon, don't leave too soon. Three: Fly home by broomstick, the easiest of tricks. The only problem? Eva only has a pinch of magic. She summons heads of cabbage instead of flowers and gets a sunburn instead of calling down rain. And to add insult to injury, whenever she overuses her magic, she falls asleep. When she lands in the tranquil coastal town of Auteri, the residents expect a powerful witch, not a semi-magical girl. So Eva comes up with a plan: set up a magical repair shop to aid Auteri and prove she's worthy. She may have more blood than magic, but her "semi-magical fixes" repair the lives of the townspeople in ways they never could have imagined. Only, Eva's bit of magic may not be enough when the biggest magical storm in history threatens the town she's grown to love. Eva must conjure up all of the magic, bravery, and cleverness she can muster or Auteri and her dreams of becoming a witch will wash away with the storm.

From the celebrated author of *The Bird Sisters*, a gorgeously rendered and emotionally charged novel that spans generations, telling the story of two siblings, raised apart, attempting to share a life. It is 1938 when Eveline, a young bride, follows her husband into the wilderness of Minnesota. Though their cabin is rundown, they have a river full of fish, a garden out back, and a new baby boy named Hux. But when Emil leaves to take care of his sick father, the unthinkable happens: a stranger arrives, and Eveline becomes pregnant. She gives the child away, and while Hux grows up hunting and fishing in the woods with his parents, his sister, Naamah, is raised an orphan. Years later, haunted by the knowledge of this forsaken girl, Hux decides to find his sister and bring her home to the cabin. But Naamah, even wilder than the wilderness that surrounds them, may make it impossible for Hux to ever tame her, to ever make up for all that she, and they, have lost. Set before a backdrop of vanishing forest, this is a luminous novel of love, regret, and hope.

Evergreen is a sad little tree that doesn't understand her purpose in life. While the different seasons bring many changes to the forest, Evergreen remains the same, year in and year out. This all changes when a family comes into the forest and takes Evergreen home with them. It is then that Evergreen undergoes a transformation that leaves her reveling in the joy and knowledge that she too is very special and beautiful, just like her friends left behind in the forest. This heartwarming children's book is fun to read all year, but is especially meaningful during the winter season. EVERGREENS STORY is Ada N. Letelier's first children's book. Her love of books, especially children's books, began and grew during her thirty-plus years as an early childhood educator in the public schools of New York City. The inspiration for her book came from reading uplifting stories to her students by authors such as Maurice Sendak, Leo Lionni, and Ezra Jack Keats. All had a lesson to teach, but in very unique ways that very young children could relate to. She hopes her story of the Evergreen will teach children the value of purposefulness. She believes we are all here for a purpose and one must not lose sight of this, no matter what. Used by humans since ancient times, evergreen oak forests still cover extensive mountain areas of the Mediterranean Basin. These broadleaved evergreen forests occupy a transitional zone between the cool-temperate deciduous forest biome and the drier Mediterranean pine forests and shrublands. Slow growing and casting a deep shade, the sclerophyllous holm oak (*Quercus ilex*) absolutely dominates the closed canopy of many Mediterranean evergreen oak forests. This is a synthesis of 20 years of research on the structure, function, and dynamics of holm oak forests in two intensively studied experimental areas in Spain. By combining observational measurements at the leaf, tree, plot, and catchment scales with field experiments and modelling, the authors explore how these forests cope with strong water limitation and repeated disturbances.

Your company would not be where it's at today without your loyal customers. And yet how much time is spent toward improving and increasing value among your steady core versus the time--and money!--spent on obtaining new leads, getting through closed doors, and eventually realizing you've been beating a dead horse that is not going to win any races for you? Why do so many companies take valuable time and resources away from focusing on their heartbeat and go off on mad pursuits of hypotheticals that have already proven to have a remarkably low ROI? Evergreen exposes this nonsensical chase for what it is: a brief spike in metrics and an ongoing revenue drain, as one-time customers fail to return. It then proposes that the better solution is to shift resources from attracting new customers to engaging the base--every company's path to stable growth, season after season. The entertaining stories and action steps weaved throughout these pages reveal how anyone can:

- Cultivate the 3Cs of evergreen companies: character, community, and content
- Build loyalty programs that turn satisfied customers into enthusiastic advocates
- Nurture profitable customers while pruning those who sap time and money
- Inject authenticity into social media communications
- Invert the expectations gap that can drive customers away

No matter the business--whether it is a tech software giant or a mom-and-pop laundromat, customer retention is the key to sustaining success. Evergreen will help you turn satisfied customers into enthusiastic advocates and steady profits.
