*after growing up together in a small, southern black community and running away at age sixteen, it's not just the shape of their daily lives that is different as adults, it's everything: their families, their communities, their racial identities. Many years later, one sister lives with her black daughter in the same southern town she once tried to escape. The other secretly passes for white, and her white husband knows nothing of her past. Still, even separated by so many miles and just as many lies, the fates of the twins remain intertwined. What will happen to the next generation, when their own daughters' storylines intersect? Weaving together multiple strands and generations of this family, from the Deep South to California, from the 1950s to the 1990s, Brit Bennett produces a story that is at once a riveting, emotional family story and a brilliant exploration of the American history of passing. Looking well beyond issues of race, *The Vanishing Half* considers the lasting influence of the past as it shapes a person's decisions, desires, and expectations, and explores some of the multiple reasons and realms in which people sometimes feel pulled to live as something other than their origins. As with her New York Times–bestselling debut *The Mothers*, Brit Bennett offers an engrossing page–turner about family and relationships that is immersive and provocative, compassionate and wise.*

Half Upon a Time Chosen for their accessibility and variety, the readings in Making Sense of Language: Readings in Culture and Communication, Third Edition, engage students in thinking about the nature of language--arguably the most uniquely human of all our characteristics--and its involvement in every aspect of human society and experience. Instead of taking an ideological stance on specific issues, the text presents a range of theoretical and disciplinary perspectives and bolsters them with pedagogical support, including unit and chapter introductions; critical-thinking, reading, and application questions; suggested further reading; and a comprehensive glossary. Questions of power, identity, interaction, ideology, and the nature of language and other semiotic systems are woven throughout the third edition of Making Sense of Language, making it an exemplary text for courses in language and culture, linguistic anthropology, sociolinguistics, and four-field anthropology.

Police Ethics The concept of self-handicapping can be legitimately anchored in a variety of intellectual contexts, some old and some newer. As this volume reminds us, Alfred Adler was perhaps the first to articulate the significance of various self-defeating claims and gestures for protecting the self concept. Thus the apparent paradox of "defeat" in the interests of "protection." More recently (but still more than 30 years ago), Heider's "naive psychology" added attributional rhetoric to the description of self-defeating strategies. While predominantly cognitive in its thrust, the attributional approach incorporated several motivational influences—especially those involving egocentric concerns. Heider hardly violated our common sense when he suggested that people are inclined to attribute their performances in a self-serving manner: the good things I caused; the bad things were forced upon me. The notion of self-handicapping strategies, proposed by Berglas and myself a little more than a decade ago, capitalized on these homely truths while adding a particular proactive twist. We not only make excuses for our blunders; we plan our engagements and our situational choices so that self-protective excuses are unnecessary. In doing so, we use our attributional understanding to arrange things so that flawed and failing performances will not be interpreted in ways that threaten our self-esteem.

Half Wild A GOOD MORNING AMERICA Book Club Pick! "Kevin Kwan's new book is his most decadent yet." --Entertainment Weekly The iconic author of the bestselling phenomenon *Crazy Rich Asians* returns with the glittering tale of a young woman who finds herself torn between two men: the WASPY fiancé of her family's dreams and George Zao, the man she is desperately trying to avoid falling in love with. On her very first morning on the jewel-like island of Capri, Lucie Churchill sets eyes on George Zao and she instantly can't stand him. She can't stand it when he gallantly offers to trade hotel rooms with her so that she can have a view of the Tyrrhenian Sea, she can't stand that he knows more about Casa Malaparte than she does, and she really can't stand it when he kisses her in the darkness of the ancient ruins of a Roman villa and they are caught by her snobbish, disapproving cousin Charlotte. "Your mother is

Chinese so it's no surprise you'd be attracted to someone like him," Charlotte teases. The daughter of an American-born Chinese mother and a blue-blooded New York father, Lucie has always sublimated the Asian side of herself in favor of the white side, and she adamantly denies having feelings for George. But several years later, when George unexpectedly appears in East Hampton, where Lucie is weekendening with her new fiancé, Lucie finds herself drawn to George again. Soon, Lucie is spinning a web of deceit that involves her family, her fiancé, the co-op board of her Fifth Avenue apartment building, and ultimately herself as she tries mightily to deny George entry into her world--and her heart. Moving between summer playgrounds of privilege, peppered with decadent food and extravagant fashion, Sex and Vanity is a truly modern love story, a daring homage to A Room with a View, and a brilliantly funny comedy of manners set between two cultures.

Bad Magic All England waited with passionate eagerness for the final match to be played at the Oval. For this was to be played to a finish and would decide the fate of the Ashes. It is 1938 and England is brimming with excitement as the final Test Match against Imperia draws near. But no corner of the land has the fate of the Ashes closer to its heart than the village of Wattlecombe Ducis, Glebeshire. It was here at the Manor House that Norman Blood, captain of England, spent his childhood playing cricket with the vicar's radiant daughter, Monica. And it was she who presented young but poor Joe Prestwick with a belt on the occasion of his first game of cricket, saving his honour for as Sir Timothy Blood remarked, 'I would rather see the whole village dead at my feet than a man bowling in braces.' With a short - but sensational - career behind him, Joe just needs to be selected to play at the Oval to win Monica's heart and her hand in marriage: everything depends on the Test. But The Bad Men, Europe's most wanted gang, have no intention of letting the best team win. Sawn-off Carlo, The Professor and Ralph the Disappointment (an Englishman who, knowing the rules of the Game, is eternally damned for not playing by them) plan to strike a blow at the very heart of proud Albion and her Empire. The Amazing Test Match Crime, first published in 1939, is a wicked yet affectionate comedy of cricketing (and criminal) manners, proving - as if proof were needed - that a straight bat and nimble spinning finger will always win through.

The Smoke Thieves From Jessica Khoury, author of the Corpus Trilogy, comes a gripping story of royalty and rebellion, coursing across a far-away star system like a trail of jewels.

The noble cause - a commitment to "doing something about bad people" - is a central "ends-based" police ethic that can be corrupted when officers violate the law on behalf of personally held moral values. This book is about the power that police use to do their work and how it can corrupt police at the individual and organizational levels. It provides students of policing with a realistic understanding of the kinds of problems they will confront in the practice of police work.
