### Rambling Idle Excursion

“Fascinating . . . What is remarkable about this book is that a history of knitting can function so well as a survey of the changes in women ’ s rolse over time.” –The New York Times Book Review An historian and lifelong knitter, Anne Macdonald expertly guides readers on a revealing tour of the history of knitting in America. In *No Idle Hands*, Macdonald considers how the necessity—and the pleasure—of knitting has shaped women ’ s lives. Here is the Colonial woman for whom idleness was a sin, and her Victorian counterpart, who enjoyed the pleasure of knitting while visiting with friends; the war wife eager to provide her man with warmth and comfort, and the modern woman busy creating fashionable handknits for herself and her family. Macdonald examines each phase of American history and gives us a clear and compelling look at life, then and now. And through it all, we see how knitting has played an important part in the way society has viewed women—and how women have viewed themselves. Assembled from articles in magazines, knitting brochures, newspaper clippings and other primary sources, and featuring reproductions of advertisements, illustrations, and photographs from each period, *No Idle Hands* capture the texture of women ’ s domestic lives throughout history with great wit and insight. “Colorful and revealing . . . vivid . . . This book will intrigue needlewomen and students of domestic history alike.” –The Washington Post Book World

### Drunks, Whores and Idle Apprentices

This wise and funny book presents a revolutionary yet highly practical approach to childcare: leave them alone. "The Idle Parent came as a huge relief to the whole family. Suddenly, it was okay to leave the kids to sort it out among themselves. Suddenly, it was okay to be responsibly lazy. This is the most counterintuitive but most helpful and consoling child-raising manual I've yet read."--Alain de Botton, author of *The Pleasures and Sorrows of Work* and *The Consolations of Philosophy* "The most easy-to-follow-without-being-made-to-feel-inadequate parenting manifesto ever written . . . A godsend to parents."--*The Sunday Times* "Add liberal doses of music, jovial company and deep woods to play in--all central to the idle, not to say Taoist, life--and you have a recipe for bright, happy people with need of neither television nor shrink. Who could ask for more?"--*The Evening Standard* In *The Idle Parent*, the author of *The Freedom Manifesto* and *How to Be Idle* applies his trademark left-of-center theories of idleness to what can be one of the thorniest aspects of adult life: parenting. Many parents today spend a whole lot of time worrying and wondering--frantically "helicoptering" over their children with the hope that they might somehow keep (or make?) them flawless. But where is this approach to childcare getting us? According to Hodgkinson, in our quest to give our kids everything, we

fail to give them the two things they need most: the space and time to grow up self-reliant, confident, happy, and free. In this smart and hilarious book, Hodgkinson urges parents to stop worrying and instead start nurturing the natural instincts toward creativity and independence that are found in every child. And the great irony: in doing so, we will find ourselves becoming happier and better parents.

Criminal biographies enjoyed enormous popularity in the Eighteenth Century: today they offer us some fascinating perspectives on the period. *Drunks, Whores and Idle Apprentices* is the first book to reproduce a number of these biographies in full. Not only do these biographies make fascinating reading, they also raise the problem of how to read them as historical documents. The author argues that instead of trying to uncover simple themes, the most revealing thing about them is the tensions around which they were constructed.

The 19th century witnessed an explosion of writing about unproductivity, with the exploits of various idlers, loafers, and “gentlemen of refinement” capturing the imagination of a country that was deeply ambivalent about its work ethic. *Idle Threats* documents this American obsession with unproductivity and its potentials, while offering an explanation of the profound significance of idle practices for literary and cultural production. While this fascination with unproductivity memorably defined literary characters from Rip Van Winkle to Bartleby to George Hurstwood, it also reverberated deeply through the entire culture, both as a seductive ideal and as a potentially corrosive threat to upright, industrious American men. Drawing on an impressive array of archival material and multifaceted literary and cultural sources, *Idle Threats* connects the question of unproductivity to other discourses concerning manhood, the value of art, the allure of the frontier, the usefulness of knowledge, the meaning of individuality, and the experience of time, space, and history. Andrew Lyndon Knighton offers a new way of thinking about the largely unacknowledged “productivity of the unproductive,” revealing the incalculable and sometimes surprising ways in which American modernity transformed the relationship between subjects and that which is most intimate to them: their own activity.

I have a theory that as a human race everything we do is based on our discomfort with boredom. That is why people read books, watch television, listen to music, and even interact

with friends and family. These are things that help us pass the time of our lives. Most people only think about boredom as physically, being mundane or inactive, but boredom is also mental. This is proven to be true because, even when you have a good thought in your head you do not feel bored, it is only once you are content with your thoughts that you start to feel bored. Pretend like your life is on a graphing chart. The absolute 0 of boredom is when you go to sleep. After we wake up, we go up on the chart and coast. All day, as a being, we try to reach high points on our boredom chart. People must remember though, we are going to come back down on the chart after whatever it is that got us up on the chart is over. So you should be mindful of what things you do just to fill your boredom or Idle Time.

The "Urban Pirate Reader And Idle Chatter" was written as a therapeutic, non-violent outlet, explaining individual daily behaviors, often witnessed social outbursts, prose, poetry, dreams, white lies and realities as I remember them or as others rattle them off in stupors caused by any number of physical or mental indulgences. Or merely the echoes of other urban pirates lost in the sea of humanity, treading the waters of life and just trying to survive. Age is the rider of forgetfulness wearing sagging armor, while trying to fight the inner demons of self control with a pocketful of ice cubes. Stitch Frizbin
