The Best Tool of the Millennium The seeds of Rybczynski's elegant and illuminating new book were sown by The New York Times, whose editors asked him to write an essay identifying "the best tool of the millennium." The award-winning author of Home, A Clearing in the Distance, and Now I Sit Me Down, Rybczynski once built a house using only hand tools. His intimate knowledge of the toolbox -- both its contents and its history -- serves him beautifully on his quest. One Good Turn is a story starring Archimedes, who invented the water screw and introduced the helix, and Leonardo, who sketched a machine for carving wood screws. It is a story of mechanical discovery and genius that takes readers from ancient Greece to car design in the age of American industry. Rybczynski writes an ode to the screw, without which there would be no telescope, no microscope -- in short, no enlightenment science. One of our finest cultural and architectural historians, Rybczynski renders a graceful, original, and engaging portrait of the tool that changed the course of civilization.

One omega for five alpha's to share. I don't know how long I've been in this darkness. I don't know how long I've been seeing with eyes that can't open, speaking from a throat incapable of making sounds. All I have are my thoughts and how weary I've grown with nothing else to listen to. Perhaps I am nothing more than a state of mind. I want to die. Understanding is slow to arrive but when it does, nothing will ever be the same again. Now, with a form that moves, I uncover the meaning of my existence and the purpose for my extended solitude. I'm an omega. A rare breeding mare for the likes of alphas. With the decrease in fertility rates in able omegas, less pups means a crippled society overrun with beta's. Omega's, now born sickly and broken, are found wanting in a population steeply dying out. I'm just the beginning of change and by no means the last. Created, not born, I'm slave to the will of my makers and my mates. Will I survive or be torn apart by five hungry alphas? **This reverse harem, omegaverse novel is not for the faint of heart. Creature of the Dark contains graphic sexual content and dark situations that may not be suitable for everyone. Be advised, this is a #whychoose story as the main character ends up with more than one mate.

Less than one percent of all U.S. businesses export, and of those that do, 56 percent sell to only one market. Business owners who do not export tell researchers that the reason for not exporting is that they are not confident choosing the best markets for their products and services, and that they are wary of risk. Free Trade Agreements: 20 Ways to Grow Your Business takes the mystery out of exporting by analyzing opportunities in country markets where the U.S. government has negotiated preferential access for U.S. companies. The book provides detailed information on best prospects, insights on the economic and political situation, tips on business culture, and free and low-cost assistance for entering each market. The book also describes how dramatically trade has grown as a result of the free trade agreements. Also included are case studies of smaller U.S. companies that have succeeded by targeting this group of countries which includes Canada and Mexico. Furthermore, new agreement partners, including Peru, South Korea, and Colombia, are explored. Written in plain language and illustrated with graphs and tables, this resource is the long-awaited handbook for entering and succeeding in new markets. The Long-Legged Fly

Following My Thumb follows the wandering, rambling, bumbling travels of Gabriel Morris from 1990-2000. In the summer of 1990, at the age of 18, he sets off to Europe with his over-sized backpack, thumb guiding the way. He hitchhikes the entire length of Great Britain, sleeps in barns, on bridges and beaches and under benches, explores the Greek Isles, sneaks into a Parisian movie theater, spends a night at the center of the Place de la Concorde roundabout, and more. In Part 2 of the book, he spends the bulk of the mid-1990s as a wandering traveler back home in the United States, searching for something elusive: a place to call home, a community, love, adventure, meaning, purpose. He both finds and loses all to varying degrees as he attends tribal Rainbow Gatherings in the woods, falls in and out of love on the road, lives on farms and communes, and spends several months in an idyllic valley, far from civilization in the Hawaiian rainforest. The book culminates with his amazing and thought-provoking travels in the mystical land of India.
