A classic by a world-renowned teacher and master equestrian—the definitive work on the art of teaching and riding the hunter seat, now updated to include refinements in Morris's insightful program of riding instruction. B & W photographs throughoutThis is just another one of those stories with killer robots, a giant monster from beyond time, evil toys, a mind control plot, sub-orbital death beams, kidnapers, bad movies, superpowered thugs, kidnapping, a megalomaniacal usurper, a maniacal genius hellbent on world domination, and an apocalypse.Not all at once, though. I mean, really, could you imagine coordinating the fight scene? Or reading it? You'd have to take notes just to keep track of who hit what and why.The Nightmare Affair is the first in a gripping new urban fantasy trilogy by Mindee Arnett. But it does. Eli is dreaming of a murder. Then Eli's dream comes true. Now Dusty has to follow the clues—both within Eli's dreams and out of them—to stop the killer before more people turn up dead. And before the killer learns what she's up to and marks her as the next target. Unlike any other memoir of depression, however, Unholy Ghost includes many voices and depicts the most complete portrait of the illness. Lauren Slater eloquently describes her own perilous experience as a pregnant woman on antidepressant medication. Susanna Kaysen, writing for the first time about depression since Girl, Interrupted, criticizes herself and others for making too much of the illness. Larry McMurtry recounts the despair that descended after his quadruple bypass surgery. Meri Danquah describes the challenges of racism and depression. Ann Beattie sees melancholy as a consequence of her writing life. And Donald Hall lovingly remembers the "moody seesaw" of his relationship with his wife, Jane Kenyon. The collection also includes an illuminating series of companion pieces. Russell Banks's and Chase Twichell's essays represent husband-and-wife perspectives on depression; Rose Styron's contribution about her husband's struggle with melancholy is paired with an excerpt from William Styron's Darkness Visible; and the book's editor, Nell Casey, juxtaposes her own essay about seeing her sister through her depression with Maud Casey's account of this experience. These companion pieces portray the complicated bond -- a constant grasp for mutual understandingforged by depressives and their family members. With an introduction by Kay Redfield Jamison, Unholy Ghost allows the bewildering experience of depression to be adequately and beautifully rendered. The twenty-two stories that make up this book will offer solace and enlightenment to all readers.When a mysterious book comes into their possession, strange things begin to happen to ninth-graders Hunter, Stretch, and Stubbs, from a strange janitor and a supernatural book to a disappearing bookstore.Trouble hits Marshall, Texas, when a boy's treasure becomes the target of bandits—and it's up to his governess and a treasure hunter to discover why."Death in the Stocks is rare and refreshing."-The Times A Moonlit Night, a Sleeping Village, and an Unaccountable Murder In the dead of the night, a man in an evening dress is found murdered, locked in the stocks on the village green. Unfortunately for Superintendent Hannasyde, the deceased is Andrew Vereker, a man hated by nearly everyone, especially his odd and unhelpful family members. The Verekers are as eccentric as they are corrupt, and it will take all Hannasyde's skill at detection to determine who's telling the truth, and who is pointing him in the wrong direction. The question is: who in this family is clever enough to get away with murder? "Miss Heyer's characters act and speak with an ease and conviction that is refreshing as it is rare in the ordinary mystery novel."-Times Literary Supplement"That calling, at once religious, ethical, and aesthetic, is one that only a genuine poet can hear—and very few poets can explain it as compellingly as Mr. Wiman does. That gift is what makes Ambition and Survival, not just one of the best books of poetry criticism in a generation, but a spiritual memoir of the first order." —New York Sun "This weighty first prose collection should inspire wide attention, partly because of Wiman's current job, partly because of his astute insights and partly because he mixes poetry criticism with sometimes shocking memoir The collection's greatest strength comes in general ruminations on the writing, reading and judging poetry." —Publishers Weekly "[Wiman is] a terrific personal essayist, as this new collection illustrates, with the command and instincts of the popular memoirist This is a brave and bracing book." —Booklist "Blazing high style" is how The New York Times describes the prose of Christian Wiman, the young editor transforming Poetry, the country's oldest literary magazine. Ambition and Survival is a collection of stirring personal essays and critical prose on a wide range of subjects: reading Milton in Guatemala, recalling violent episodes of his youth, and traveling in Africa with his eccentric father, as well as a series of penetrating essays on writers as diverse as Thomas Hardy and Janet Lewis. The book concludes with a portrait of Wiman's diagnosis of a rare form of incurable and lethal cancer, and how mortality reignited his religious passions. When I was twenty years old I set out to be a poet. That sounds like I was a sort of frigate raising anchor, and in a way I guess I was, though susceptible to the lightest of winds. . . . When I read Samuel Johnson's comment that any young man could compensate for his poor education by reading five hours a day for five years, that's exactly what I tried to do, practically setting a timer every afternoon to let me know when the little egg of my brain was boiled. It's a small miracle that I didn't take to wearing a cape. Christian Wiman is the editor of Poetry magazine. His poems and essays appear regularly in The New Yorker, The Atlantic Monthly, Harper's, and The New York Times Book Review.Featuring 100 photographs of Frank Sinatra working with orchestras and arrangers, listening to playbacks, and, of course, singing, this book tells the whole story of how he created the Sinatra sound and translated the most intense personal emotions into richly worked-out songs of unrivalled expressiveness. One of the thrills of listening to Sinatra is wondering how he did it--and this book explains it all, bringing the dedicated fan and the casual music lover alike into the recording studio to witness the fascinating working methods he introduced and mastered in his quest for recorded perfection. Revealed is how, in addition to introducing and perfecting a unique vocal style, Sinatra was also his own in-studio producer--personally supervising every aspect of his recordings, from choosing the songs and arrangers to making minute adjustments in microphone placement."Sam's school is hosting a talent show to raise money for the Environmental Center, and Sam learns that sometimes you don't have to look very far to find out what you're really good at"--Erevis Cale The loyal servant of the Uskevren family, has a terrible secret. If Nikki hopes to muzzle Dogboy, she's got to catch him in the act. But when she stakes out a local cemetery, she ends up face-to-snout with a snarling pack of shadow-jackals whose bite is worse than their bark. Most educators are skilled at planning instruction and determining what they will do during the course of a lesson. However, to truly engage students in worthwhile, rigorous cognition, a profound shift is necessary: a shift in emphasis from teaching to learning. Put another way, we know that whoever is doing the work is also doing the learning—and in most classrooms, teachers are working much too hard. Authors John V. Antonetti and James R. Garver are the designers of the Look 2 Learning model of classroom walkthroughs. They've visited more than 17,000 classrooms—examining a variety of teaching and learning conditions, talking to students, examining their work, and determining their levels of thinking and engagement. From this vast set of data, they've drawn salient lessons that provide valuable insight into how to smooth the transition from simply planning instruction to designing high-quality student work. The lessons John and Jim have learned from their 17,000 (and counting) classroom visits can't be wrong. They share those lessons in this book, along with stories of successful practice and practical tools ready for immediate classroom application. The authors also provide opportunities for reflection and closure designed to help you consider (or reconsider) your current beliefs and practices. Throughout, you will hear the voices of John and Jim—and the thousands of students they met—as they provide a map for shifting the classroom dynamic from teaching to learning.

A frequent contributor to the New York Times magazine, Outside, Salon, and GQ, and a regular on Public Radio International's "This American Life," David Rakoff's debut collection of essays is simultaneously laugh-out-loud funny and take-your-breath-away poignant. David Rakoff is a fish out of water. Whether he finds himself on assignment climbing Mount Monadnock in New Hampshire — donning a pair of Timberlands for his trek, only to realize with horror that "the shoes I wouldn't be caught dead in might actually turn out to be the shoes I am caught dead in." — sitting quietly impersonating Sigmund Freud in a department store window for a month, or musing on the unique predicament of being undetectably Canadian in New York City ("what's more spicy than being Canadian, I ask you?"), Rakoff has a gift for exposing life's humour and pathos. Fraud takes us places even we didn't know we wanted to go: expeditions as varied as a search for elves in Iceland, a foray into soap opera acting, or contemplating the gin-soaked olive at the bottom of a martini glass. With the sharpest of eyes, David Rakoff explores the odd and ordinary events of life, spotting what is unique, funny and absurd in the world around him. But for all its razor-sharp wit and snarky humor, Fraud is also, ultimately, an object lesson in not taking life, or oneself, too seriously.

A snap decision (and a few wines too many) sees Zara fleeing to Africa to work as a temporary wildlife volunteer. But just when things start to cool down at home Zara realises her troubles have only just begun. Will Zara's designer wardrobe survive? Will a supermodel ruin her only chance at happiness? Can a Birkin bag really solve her problems? And will Zara want her old life back at the end of it all. She's a demon-slayer who hungers for sensual pleasure-but fears it will always be denied her. Until Tayla Mancuso lands in a hospital run by demons in disguise, and the head doctor, Eidolon, makes her body burn with unslakable desire. rage and passion. Not only is she his avowed enemy, but she could very well be the hunter who has been preying upon his people. Torn between his need for the truth and his desire to find his perfect mate before a horrific transformation claims him forever, Eidolon will dare the unthinkable and let Tayla possess him, body and soul. The key to teaching business ethics successfully, says Sims, is to start with clear goals and a sensible expectation of outcomes, and with a true knowledge and appreciation of how people actually learn. Proceeding with the conviction that open communications between teacher and student before, during, and after the teaching experience is vital, Sims identifies key teaching processes, gives practical advice on designing and planning the curriculum, and offers guidance on how to develop a climate conducive to effective learning. He also emphasizes learning styles and experiential learning theory as cornerstones of teaching business ethics, an approach unlike any in the literature. An important guide for those who are new to teaching this essential subject, Sims' book will also help more experienced teachers who wonder why their own methods do not always work, or do not work as well as they think they should.

Texan pageant winner, Reese Taylor, has a former classmate who wants her dead. Now she must leave her friends and family to enter a protection program on Emerson Ranch. With sparks burning hot and danger around the bend, one question lingers in his mind: Has he only added to his list of troubles, or has Blake just found the woman of his dreams? I used to think love was a lie. Now I know it is real, powerful, and I do not want to lose it. But my future scares me, and there is no way this can be happening, especially since I have finally broken free from all the people who wanted pieces of me. I do not even know how to start over, but I have to find a way. So when I discover what my mother has been keeping from me, it does not make me hate her. It gives me hope for a new life, outside of New York. But the ties that bind me to this city are so strong, sometimes they are chains.

**The Power of Weakness** No one likes to feel weak. Just thinking about our inadequate resources can fill us with fear and hopelessness. But Rose Marie Miller has a different perspective. For her true weakness is a gift born out of a deep sense of need, it drives us to Christ and unleashes all the redeeming energy of God's grace in our lives and others. Rose Marie Miller, a living example of God's power in weakness, weaves together biblical insights and personal experience and shares a new, gospel-driven way of living where the way up is down, the weak become strong, and the dead receive life. God, for whom nothing is impossible, uses weak people to change the world—and that includes you!

The best of Samuel Taylor Coleridge's poems in a beautiful new gift edition Samuel Taylor Coleridge (1772-1834) was educated at Christ's Hospital, London and Jesus College, Cambridge. Close collaboration with Wordsworth resulted in joint production of the volume *Lyrical Ballads* in 1798, which contained Coleridge's 'The Rime of the Ancient Mariner', signposting the Romantic movement. After wintering in Germany in 1797-8 he settled in the Lake District, where he wrote the 'Letter' that turned into 'Dejection: An Ode' (1802). In later years Coleridge turned increasingly to prose, covering philosophical, political, religious and critical subjects, although new poems continued to appear in most years until his death. In twelve critical and interdisciplinary essays, this text examines the relationship between the fantastic in novels, movies and video games and real-world debates about nationalism, globalization and cosmopolitanism. Topics covered include science fiction and postcolonialism, issues of ethnicity, nation and transnational discourse. Altogether, these essays chart a new discursive space, where postcolonial theory and science fiction and fantasy studies work cooperatively to expand our understanding of the fantastic, while simultaneously expanding the scope of postcolonial discussions.

This collection of short stories by author Andersen Prunty features "Room 19," a post-apocalyptic nightmare based on Nick Cave and the Bad Seeds' song "From Her to Eternity," appearing for the first time anywhere, and "Market Adjustment," about one man's battle with the wealthy, previously available only in a very limited edition. Also includes: "The Dust Season," "The Man With the Face Like a Bruise," "The Photographer," "The Night the Moon Made a Sound," and "The Funeralgoer." The incomparable Jonathan Lethem returns with nine stories that demonstrate his mastery of the short form. Jonathan Lethem's third collection of stories uncovers a father's nervous breakdown at SeaWorld in "Pending Vegan"; a founding child rescued from the woods during a blizzard in "Traveler Home"; a political prisoner in a hole in a Brooklyn street in "Procedure in Plain Air"; and a crumbling, haunted "blog" on a seaside cliff in "The Dreaming Jaw, The Salivating Ear." Each of these locates itself in Lethem-land, which can be discovered only by visiting. As in his celebrated novels, Lethem finds the uncanny lurking in the mundane, the irrational self-defeat seeping through our upstanding pursuits, and the tragic undertow of the absurd world(s) in which we live. Devoted fans of Lethem will recognize familiar themes: the anxiety of influence taken to *reductio ad absurdum* in "The King of Sentences"; a hapless, horny outsider summoning bravado in "The Porn Critic"; characters from forgotten comics stranded on a desert island in "Their Back Pages." As always in Lethem, humor and poignancy work in harmony, humans strive desperately for connection, words find themselves misaligned to deeds, and the sentences are glorious.

The long-awaited sequel to the "Concepts and Practice of Mathematical Finance" has now arrived. Taking up where the first volume left off, a range of topics is covered in depth. Extensive sections include portfolio credit derivatives, quasi-Monte Carlo, the calibration and implementation of the LIBOR market model, the acceleration of binomial trees, the Fourier transform in option pricing and much more. Throughout Mark Joshi brings his unique blend of theory, lucidity, practicality and experience to bear on issues relevant to the working quantitative analyst. "More Mathematical Finance" is Mark Joshi's fourth book. His previous books including "C++ Design Patterns and Derivatives Pricing" and "Quant Job Interview Questions and Answers" have proven to be indispensable for individuals seeking to become quantitative analysts. His new book continues this trend with a clear exposition of a range of models and techniques in the field of derivatives pricing. Each chapter is accompanied by a set of exercises. These are of a variety of types including simple proofs, complicated derivations and computer projects.

This environment of constant change will only accelerate in the future and traditional business leaders are ill equipped to deal with it. Just as we took our cues from MBAs and the military in casting the ideal CEO of the 20th century, we can look to design - in its broadest form - to model our future leader, the DEO. These leaders possess characteristics, behaviors and mindsets that allow them to excel in unpredictable, fast-moving and value-charged conditions. They are catalysts for transformation and agents of change. A hybrid of strategic business executive and creative problem-solver, the DEO is willing to take on anything as an object of design and looks at ALL problems as design challenges. Readers will learn not only why this form of leadership is essential to the success of modern organizations, but also what characteristics are best suited to this role. Through intimate conversations with leading DEOs, we explore the mindsets, communities, processes and practices common to creative business leaders. The book lays out—graphically and through example—how DEOs run their companies and why this approach makes sense now. We help readers identify these skills in themselves and their colleagues, and we guide them in using these skills to build, revive or reinvent the next generation of great companies and organization.Firewalls, Network Address Translation (NAT), network logging and accounting are all provided by Linux's Netfilter system, also known by the name of the command used to administer it, iptables.
