Against the flamboyant background of the "Golden Spread," the oil-rich Panhandle of the late 1950s, Al Dewlen has poised a full-scale and truly original novel of one Texas family--the Mungers of Amarillo. The six Munger siblings are the heirs of hard-drinking, hardscrabble farmer Cecil Munger, who in one generation brought his family from Dust Bowl poverty to unfathomable wealth. Wayward humor, warmth and passion, vigorous and imaginative revelation silhouette their individual rebelliousness against the debilitating restrictions of the family empire.

This inspiring, honest, uproarious collection of essays traces Sebastian Maniscalco's career from playing boxing rings and bowling alleys to reaching the pinnacles of comedy success. At twenty-four, Sebastian Maniscalco arrived in LA with a suitcase and saved up minimum wages. He knew no one and nothing about standup comedy, but he was determined to go for it anyway. At forty-four, he's on the Forbes' list of highest earning comedians, sells out arenas, and has starred in four hit comedy specials including Why Would You Do That? on Showtime. Stay Hungry tells the story of the twenty years in between. On the way from clueless rube to standup superstar, Seb was booed off stages; survived on tips and stolen food; got advice from mentors Andrew Dice Clay, Vince Vaughn, Tony Danza, and Jerry Seinfeld; fell in love; and stayed true to his Italian-immigrant roots. The one code that always kept him going: stay hungry, keep focused, never give up, and one day, you'll make it.

When Dabo Swinney officially took over Clemson football for the 2009 season, it was considered a good program that couldn't quite recapture the greatness of the Danny Ford era. Dabo had spent his entire life as an underdog, but his defiant grit pushed him past personal hardships and professional adversity. His simple formula--faith, family, forgiveness, fortitude, and fun--pushed the Clemson football program past its potential and to the next level, taking the Tigers to 10 bowl games and four ACC championships, earning three College Football Playoff appearances, and most importantly, capturing the 2016 national championship. In Top of the Hill: Dabo Swinney and Clemson's Rise to College Football Greatness, Greenville News sports columnist and Clemson insider Manie Robinson traces Dabo's coaching ascension along Clemson football's return to glory, going behind the scenes of one of the powerhouse programs in the country.

thus far. Here is a preview of what is inside this book: Early Life and Childhood High School Years of JJ Watt JJ Watt's College Years at Central Michigan, Wisconsin Watt's NFL Career Watt's Personal Life JJ Watt's Impact on Football and Beyond Watt's Legacy in the NFL An excerpt from the book: After making the decision to jump to the NFL, the first step of being able to play on Sundays was going through the Rookie Combine that was held in February 2011 at Lucas Oil Stadium in Indianapolis, Indiana. This was considered the best time to make a major impact on how you were judged by the NFL scouts from all 32 teams in the league. Watt was able to do that as he came in as his six-foot-five, 290-pound physique that was easily noticed. He wasn't the fastest in the 40-yard dash, but it wasn't too far from the leaders at about 4.81 seconds -which is still a good mark for someone of his size. He was also able to do a 10-yard split in about 1.64 seconds, the 20-yard split in 2.71 seconds and completed the three-cone agility drill in just under seven seconds. He was also a standout for his strength with a total of 34 repetitions of bench pressing the 225-pound weight given to all Combine participants. In addition to his opportunities to show his speed and strength, he was also able to complete the vertical jump at about 37 inches and then performed a 10-foot broad jump. Now in addition to his physical skills, Watt also scored a 31 on the Wonderlic Cognitive Ability Test, which is famously used by NFL teams to see how well the new batch of rookies can show their aptitude for solving problems that could translate to being able to think quickly on the field when faced with a variety of adversities to find success. The average player in the NFL would score about 20 on this Wonderlic test, while a perfect score would be 50. Watt's 31 was close to players like Green Bay quarterback Aaron Rodgers' 35 and a lot better than other notable players who have had scores as low as 4 (i.e. Morris Claiborne from the 2012 NFL Draft). Yet with all of those statistics from the NFL Combine, Watt was marked with a grade of 8.37 out of 10, which fell within the range that predicts whether or not a player will be capable of becoming an All-Pro player in the league. The experts from the NFL were considering Watt as a perfect fit for a team that uses a 4-3 defensive scheme - four linemen and three linebackers. However, experts speculated that there might be some benefits to using him as an end in a 3-4 - three linemen and four linebackers. He did receive some negative marks for not being considered a fast start off the line and attacking blocks, but made up for it with his ability pursue the quarterback with straight-line speed. Despite the vital importance of the emerging area of biotechnology and its role in defense planning and policymaking, no definitive book has been written on the topic for the defense policymaker, the military student, and the private-sector

bioscientist interested in the "emerging opportunities market" of national security. This edited volume is intended to help close this gap and provide the necessary backdrop for thinking strategically about biology in defense planning and policymaking. This volume is about applications of the biological sciences, here called "biologically inspired innovations," to the military. Rather than treating biology as a series of threats to be dealt with, such innovations generally approach the biological sciences as a set of opportunities for the military to gain strategic advantage over adversaries. These opportunities range from looking at everything from genes to brains, from enhancing human performance to creating renewable energy, from sensing the environment around us to harnessing its power.

Leigh awakens to a strange NFL-and-BDSM-infused nightmare. Chad is obviously off the deep end with lust for her, and while naked, Leigh is tantalized to see he is a very built and attractive man. He's going to teach Leigh, this "Touchdown Queen," about a side of Gronk she's never experienced before whether she want to learn it or not! It is a lesson that will make Leigh squirm with pain and with pleasure. Leigh cries out! But is it with ecstasy she cries out? Is she starting to like what Chad has to offer? Complicating things? With Dan? With Gronk? With her etsy store? With her very soul? Really, how many times in life has the sequel been better than the original? Well, let me tell you: THIS is one of those times. "A Gronking to Remember 2: Chad Goes Deep in the Neutral Zone" is so dark and twisted, so devious, so hot and thought-provoking, so full of plot twists and surprises, it makes the first book in the series, the best-selling "A Gronking to Remember," look like A PIECE OF SHIT. So read what everyone is talking about. The saga continues! And have no reservations: "Chad Goes Deep in the Neutral Zone" is no sophomore slump... It is a verified sophomore SLAM. In this inspiring and provocative memoir, Caylin Moore tells the against-all-odds story of his rise from cruel poverty in gang-ridden Los Angeles to academic success at Oxford University, with hope as his compass. By all rights, Caylin Louis Moore should be dead, in prison, or stalking the streets of Compton with his fellow gang-members. Instead, he's a Rhodes Scholar, author, speaker, and role model for every kid deprived of hope in downtrodden communities. A Dream Too Big is the story of Moore's exodus from one of the most impoverished, gang-infested communities in the United States to the golden, dreaming spires of Oxford, England. After Moore's mother gathered her three young children and fled an abusive husband of nine years, leaving behind a comfortable middle-class life, Moore found himself in a bewildering and dangerous environment. The family lived in a neighborhood ruled by the Bloods, and Caylin often lay awake at night, terrified by both the sounds of gunfire outside and the scratching of rats and roaches moving in the walls. When Moore's father was convicted of murder and his mother was sexually assaulted in the hospital while recovering from open-heart surgery, Moore was forced to enter adulthood prematurely. Embracing his mother's steely faith in God and education, Moore skirted the gangs and the endemic violence of Compton to excel on the football field and in the classroom. Academics and athletics led to college scholarships, which led to a Fulbright and eventually the Rhodes Scholarship. Along the way, Moore cofounded a student organization that brought college athletes into underserved classrooms as inspirational speakers, role models, and mentors. Moore's eye-opening, inspirational story proves that, contrary to what others told him on his journey, there is no such thing as a dream too big. "A dream too big is a truly special book. Caylin's story is not just inspirational, it is instructional. I have admired him and his journey for a long time; read this book and you'll understand why." --Wes Moore, bestselling author of The Other Wes Moore, CEO of Robin Hood "I loved this story of triumph in praise of a sacrificial single mom and a kid who, against all odds, fought hunger-pains and gangs to make a dream-too-big become a dream-come-true. Through gunshots and the temptations of inner city poverty, Caylin Moore laced up his cleats, outran gangs, and caught the 6:00am bus on an empty stomach. A future world-changer, Caylin has penned an inspiring tale that should be mandatory reading for every student, parent, and anyone else interested in the success of those who will shape and define our future." -- Ron Hall, #1 New York Times bestselling author of Same Kind of Different as Me and Workin' Our Way Home

Legendary football coach and Super Bowl champion with the Denver Broncos, Wade Phillips, recalls his life in football and memories of his father, NFL head coach Bum Phillips, in a book perfect for a Father's Day gift. "Having played for and against Wade Phillips, the first word that comes to my mind is respect. SON OF BUM is a great read about the Xs and Os from one of the greatest coaches in the league, as well as a loving tribute to the influence of family."—Peyton Manning In his memoir Son of Bum, decorated NFL coach Wade Phillips shows that the roots of his knowledge come from his father, Bum Phillips. A beloved character in NFL history, Bum taught Wade from the beginning that "coaching isn't bitching," as well as how to have perspective on the game during tough times. These are lessons that apply both on the field and off, and Wade has passed this wisdom down to his son, Wes Phillips, an NFL coach himself. Known for his homespun, plain-talking ways, Wade is a groundbreaking coach who has long believed in using support and camaraderie—instead of punishment and anger—to inspire his

players to be winners on and off the field. And though his defensive concepts are revolutionary, he would say they begin with common sense. Son of Bum is more than one man's memoir—it's a story of family and football and a father who inspired his son.

As the stadium rocked and swayed with the energy of thousands of fans and a TV audience of millions Dabo sat quietly at the front of his team. They knew what the "experts" thought would happen, but Dabo also knew he had dealt with tougher opponents and came out successful. Dabo Swinney is something of the poster boy for college football coaches. An energetic football coach who openly talks about his love of his players and embraces the fun of the game, while other coaches sit stone-faced and act as professionals. In Bring Your Own Guts you will hear the path that has lead Dabo to one of the highest paid, and most successful, football coaches, in the country. You will learn how he used his faith and family to persevere through tough times, and how he uses these lessons to build his team and mold the young men who have been put in his charge.

A marauding linebacker who changed the game of football, a tough-as-nails quarterback, and a fiery head coach helped the 1986 New York Giants leave an indelible mark on the NFL. Big Blue Wrecking Crew is the no-holds-barred story of the team that created Giant Football, the pound-you-into-submission, quarterback-crushing defense, coupled with a powerful ball control offense that resulted in a 1986 Superbowl Championship—the first in team history. In a gripping narrative of the season that changed the course of a franchise, author Jerry Barca takes readers on a wild journey filled with improbable characters. Linebacker Lawrence Taylor partied with the same level of recklessness and violence he put forth when he donned his jersey. Bill Parcells motivated his team in an unrelenting Jersey Guy way, and quiet defensive genius Bill Belichick would go on to greatness. Based on years of research and hundreds of interviews, Barca chronicles the Giants' rise out of rock bottom to their status as a premiere NFL franchise. From behind-the-scenes personnel discussions of general manager George Young to the meeting rooms with Parcells and defensive coordinator Bill Belichick, Big Blue Wrecking Crew is filled with the riveting exploits of unforgettable players. It is an unfiltered look at how enormous egos came together to win a championship, playing hard and partying equally as hard along the way.

Blindsight is the Hugo Award-nominated novel by Peter Watts, "a hard science fiction writer through and through and one of the very best alive" (The Globe and Mail). Two months have past since a myriad of alien objects clenched about the Earth, screaming as they burned. The heavens have been silent since—until a derelict space probe hears whispers from a distant comet. Something talks out there: but not to us. Who should we send to meet the alien, when the alien doesn't want to meet? Send a linguist with multiple-personality disorder and a biologist so spliced with machinery that he can't feel his own flesh. Send a pacifist warrior and a vampire recalled from the grave by the voodoo of paleogenetics. Send a man with half his mind gone since childhood. Send them to the edge of the solar system, praying you can trust such freaks and monsters with the fate of a world. You fear they may be more alien than the thing they've been sent to find—but you'd give anything for that to be true, if you knew what was waiting for them. . . . But as he reenters his former world, where factories are in decline and the legacy of Jim Crow is still felt, he's startled to find that the people he once knew and loved have changed just as much as he has. Ava is now married and desperate for a baby, though she can't seem to carry one to term. Her husband, Henry, has grown distant, frustrated by the demise of the furniture industry, which has outsourced to China and stripped the area of jobs. Ava's mother, Sylvia, caters to and meddles with the lives of those around her, trying to fill the void left by her absent son. And Don, Sylvia's unworthy but charming husband, just won't stop hanging around. JJ's

return—and his plans to build a huge mansion overlooking Pinewood and woo Ava—not only unsettles their family, but stirs up the entire town. The ostentatious wealth that JJ has attained forces everyone to consider the cards they've been dealt, what more they want and deserve, and how they might go about getting it. Can they reorient their lives to align with their wishes rather than their current realities? Or are they all already resigned to the rhythms of the particular lives they lead? No One Is Coming to Save Us is a revelatory debut from an insightful voice: with echoes of The Great Gatsby it is an arresting and powerful novel about an extended African American family and their colliding visions of the American Dream. In evocative prose, Stephanie Powell Watts has crafted a full and stunning portrait that combines a universally resonant story with an intimate glimpse into the hearts of one family.

He's too short, he'd be better off just playing baseball, there's no way he can do this at the next level. Throughout Kyler Murray's life, the talk has always been there. He's great at this level, but when he moves up he will get exposed. Yet at each level he just keeps winning. Widely considered one of the best High School Football Players in a state where High School Football means more than anywhere else, Kyler Murray has become something more than a football player. This isn't just because in high school he was also considered one of the best baseball prospects in the country. It's because every team he is on seems to up their level of play when he is around. Kyler's story is about hard work and provides a perfect picture of what leadership can do for an athlete and their team. In this book, you will learn the root of Kyler's fierce determination and unquestioned competitiveness that has led him to the peak of college football and has set him up to be one of the NFL's next great stars.

Prepare for a different kind of singularity in Peter Watts' Echopraxia, the follow-up to the Hugo-nominated novel Blindsight. It's the eve of the twenty-second century: a world where the dearly departed send postcards back from Heaven and evangelicals make scientific breakthroughs by speaking in tongues; where genetically engineered vampires solve problems intractable to baseline humans and soldiers come with zombie switches that shut off self-awareness during combat. And it's all under surveillance by an alien presence that refuses to show itself. Daniel Bruks is a living fossil: a field biologist in a world where biology has turned computational, a cat's-paw used by terrorists to kill thousands. Taking refuge in the Oregon desert, he's turned his back on a humanity that shatters into strange new subspecies with every heartbeat. But he awakens one night to find himself at the center of a storm that will turn all of history inside-out. Now he's trapped on a ship bound for the center of the solar system. To his left is a grief-stricken soldier, obsessed by whispered messages from a dead son. To his right is a pilot who hasn't yet found the man she's sworn to kill on sight. A vampire and its entourage of zombie bodyguards lurk in the shadows behind. And dead ahead, a handful of rapture-stricken monks takes them all to a meeting with something they will only call "The Angels of the Asteroids." Their pilgrimage brings Dan Bruks, the fossil man, face-to-face with the biggest evolutionary breakpoint since the origin of thought itself. Listen up, kid. My name is Dr. Cecil H.H. Mills. I'm the author of this book and many other ones that you might not have heard of. This book is about two idiot wannabe detective-types. Their names are J.J. and Valentine Watts, but I'm not sure if they're actually brothers or not. They make a friend; her name is Trudi de la Rosa. She's a wannabe detective-type too, but honestly, she's less of an idiot than the brothers. The three of them team up to solve a mystery that takes place in a snowy chateau up in the mountains. It gets more complicated around chapter 11, but now you've got the main gist of it. The story's full of intrigue and adventure and puzzles and light violence and some swear words. It's really entertaining. Just buy the book and start reading. You'll understand everything about the Ghost Hunters Adventure Club very soon.
