Conjectures and Refutations is one of Karl Popper's most wide-ranging and popular works, notable not only for its acute insight into the way scientific knowledge grows, but also for applying those insights to politics and to history. It provides one of the clearest and most accessible statements of the fundamental idea that guided his work: not only our knowledge, but our aims and our standards, grow through an unending process of trial and error.

From the celebrated team behind Creepy Carrots!, Aaron Reynolds and Caldecott Honor winner Peter Brown, comes a hilarious (and just a little creepy) story of a brave rabbit and a very weird pair of underwear. Jasper Rabbit is NOT a little bunny anymore. He's not afraid of the dark, and he's definitely not afraid of something as silly as underwear. But when the lights go out, suddenly his new big rabbit underwear glows in the dark. A ghoulish, greenish glow. If Jasper didn't know any better he'd say his undies were a little, well, creepy. Jasper's not scared obviously, he's just done with creepy underwear. But after trying everything to get rid of them, they keep coming back!

So if you want to lure a bunch of dragons to your party, you should definitely serve tacos. Buckets and buckets of tacos. Unfortunately, where there are tacos, there is also salsa. And if a dragon accidentally eats spicy salsa . . . oh, boy. You're in red-hot trouble. Oh, when will it snow again? wonders the little family who lives in the snow globe. They long for a swirling snowstorm—if only someone in the big family would pick up the snow globe and give it a great big shake. Baby would love to. She alone notices the little family. She gazes longingly at their snowy little world, but the snow globe is up way too high for her to reach. Then, when a real snowstorm sends the big children outside sledding in the moonlight, Baby finds herself alone in the parlor. . . . Will the snow globe family at last get a chance to go sledding too? As readers follow the parallel adventures of both families, big and little, they will take special pleasure in the miniature world of the snow globe, where the skating pond is the size of a shiny quarter and a snowman is no bigger than a sugar cube.

It's been a decade since Lynne Dorfman and Rose Cappelli wrote the first edition of *Mentor Texts* and helped teachers across the country make the most of high-quality children's literature in their writing instruction. In the second edition of this important book Lynne and Rose show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Lynne and Rose offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. The book is organized around the characteristics of good writing--focus, content, organization, style, and conventions. Rose and Lynne write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

"Writing allows each of us to live with that special wide-awakeness that comes from knowing that our lives and our ideas are worth writing about." -Lucy Calkins Teaching Writing is Lucy Calkins at her best-a distillation of the work that's placed Lucy and her colleagues at the forefront of the teaching of writing for over thirty years. This book promises to inspire teachers to teach with renewed passion and power and to invigorate the entire school day. This is a book for readers who want an introduction to the writing workshop, and for those who've lived and breathed this work for decades. Although Lucy addresses the familiar topics-the writing process, conferring, kinds of writing, and writing assessment- she helps us see those topics with new eyes. She clears away the debris to show us the teeny details, and she shows us the majesty and meaning, too, in these simple yet powerful teaching acts. Download a sample chapter for more information.
