Don't sound like una momia—add a little sizzle to your Spanish! If someone called you tragadabas would you be insulted or flattered? If you shouted ¡Mota! in the street, would you expect to get a cab or get arrested? Thanks to *The Red-Hot Book of Spanish Slang and Idioms*, you'll always know your teje maneje (scheme) from your merequetengue (mess) no matter where you find yourself in the Spanish-speaking world. Five thousand words and phrases—plus helpful hints as to what's cordial and what's vulgar—keep you in sync with Spanish slang. Spanish to English niños popis (upper-class kids) Spoiled brats Contigo ni a China me voy. (I'm not even going to China with you) You're impossible La cruda (rawness) Hangover English to Spanish Ugly as sin ser un espantapájaro (to be a scarecrow) To be lucky tener leche (to have milk) Why are you staring at me? ¿Tengo monos en la cara? (Do I have monkeys on my face?)

Incessance

This is the first work to begin to fill a gap: an understanding of discourse aimed to persuade within the Pre-Columbian Americas. The contributors in this collection offer glimpses of what those indigenous rhetorics might have looked like and how their influences remain. The reader is invited to recognize "the invention of the Americas," providing other ways to contemplate material life prior to contemporary capitalism, telling us about the global from long ago to current global capitalism. This book is the drop that will ripple, creating new lines of inquiry into language use within the Americas and the legacies of genocide, conquest, and cultural survival.

Guerra Sucia

A smart, snappy, bilingual retelling of *Little Red Riding Hood* Winner of a Pura Belpre Honor for Illustration While Roja picks flowers on the way to her grandma's, a mean wolf sneaks away with her cape to surprise Abuelita. New York Times Bestseller *Rosie* may seem quiet during the day, but at night she's a brilliant inventor of gizmos and gadgets who dreams of becoming a great engineer. When her great-great-aunt Rose (*Rosie the Riveter*) comes for a visit and mentions her one unfinished goal—to fly—*Rosie* sets to work building a contraption to make her aunt's dream come true. But when her contraption doesn't fly but rather hovers for a moment and then crashes, *Rosie* deems the invention a failure. On the contrary, Aunt Rose insists that *Rosie's* contraption was a raging success: you can only truly fail, she explains, if you quit. From the powerhouse author-illustrator team of Iggy Peck, Architect comes *Rosie Revere, Engineer*, another charming, witty picture book about believing in yourself and pursuing your passion. *Ada Twist, Scientist*, the companion picture book featuring the next kid from Iggy Peck's class, is available in September 2016.—?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" /— Praise for *Rosie Revere, Engineer* "Comically detailed mixed-media illustrations that keep the mood light and emphasize *Rosie's* creativity at every turn."—Publishers Weekly "The detritus of *Rosie's* collections is fascinating, from broken dolls and stuffed animals to nails, tools, pencils, old lamps and possibly an erector set. Cuentos de Barro

This study of Old Spanish and present-day Mexico and New Mexico data develops a grammaticization account of variation in progressive constructions. Diachronic changes in cooccurrence patterns show that grammaticization involves reductive change driven by frequency increases. Formal reduction results in the emergence of auxiliary-plus-gerund sequences as fused units. Semantically, the constructions originate as spatial expressions; their grammaticization involves gradual loss of locative features of meaning. Semantic generalization among parallel evolutionary paths results in the competition among different constructions in the domain of progressive aspect. Patterns of synchronic variation follow from both the retention of meaning differences and the routinization of frequent collocations, as well as

sociolinguistic factors. Register considerations turn out to be crucial in evaluating the effects of language contact. Purported changes in Spanish — English bilingual varieties are largely a feature of oral, informal language rather than a manifestation of convergence.

The Legend of La Llorona

The ghost of a weeping woman dressed in white, La Llorona, is often spotted beside bodies of water. People in Mexico and in the south-western United States have claimed to hear her wailing in the night, crying out for her drowned children. This centuries-old tale claims that if the wailing woman gets too close, she will drag you to a watery grave.

Rosie Revere, Engineer

By genuine entrance, you - human body - commence a cryptically intense progression. In this display resides a new method of narration, called field-person, equipping you with numerous useful and euphonic extensions of everyday vocabulary and energetic diction. However, repeatedly throughout this progression, the reader will necessarily accept that the first-person method tacitly limits human bodies to linear actors/arrows with deterministically-layered characters. Yes, the strange fixation on linearity prohibits human-bodies from fully engaging their scalar (quantum), structural (scientific), hybrid (symbolic), ambient (abstract), and cosmic (absolute) localities. Human bodies are not only linearly-layered biosystems, but indeed, are also syntactically superposed field-operators, which critically function as hybrid attractors of scientific and abstract levels of causation. Field-operators are higher (hybridized) humans that bond with bodies and psyches beyond their enveloping vicinities. All humans, as hybrids of organisms and operators, live as the links 'between' locally closed vicinities and higher-order open fields. From the advantage point of the higher-order fields, human bodies themselves become lower-order translative units of top-down timelines (fields) whose function is to generate, assemble, stabilize, periodize, optimize, and idealize the group actions and relational pathways of said human bodies and fellow organisms. Indeed, the metaphysical function of all bodies is to adapt their neighboring vicinities to the metacausal fields hosting dynamic and programmatic co-operations. Field-people are "psychic-bodies" whom, precisely by recognizing their extreme organic localization, begin the metaphysical progression of fully fusing their bodily, mental, and group action within their nonlinear basins of organic, psychic, and telic attraction. As has been exhaustively shown, the first-person method permutes local, linear, and 2-valued perceptual panoramas belonging to organisms. The field-person does not prioritize sequential perception and permutation, which are merely first-order modes of sensation. This new method preserves conscious/surface-level perception while it distributes global, concurrent, and n-valued telepathic (field) bonds over all bodily panoramas. The massive expressive advantages of this method are irresistible, but only upon accepting that a strictly conscious first-person perceiver forces extraordinary locality and linearity limits. On higher logical orders of perception, such limits are rendered utterly illusory. The field-person method has been provoked by humankind's recent inability to directly access subconscious and unconscious experience without perceiving faster, rawer speech. In order to override our previously failed persuasions - and instead induce an involuntary rupture superseding any finite obstruction - our rapid, reactive, raplike method will leave a surreal resonance absolutely akin to artistic enchantment and even sexual seduction. Due to our tenuous yet daily developing telepathies as the modern Earth's first field-people, the particular authors of this display must, for now, recede from any publicity. Divulging our identities will entail irrelevant obsessions about we mere hybrids desperately straining to convey to all of you that the histories and timelines of humankind are and have been superintended by the absolute attractor, ambient deities, and even extraterrestrial agencies which are incessantly supportive yet customarily insensible to us due to deep self-constraints. This display administers the first-half dose of telepathic training in the dire interest of inducing direct connections with our higher-order attractors. No longer can humans coherently presume themselves the upper bounds of "intelligence" or "awareness" because all bodies are finite actors of infinite attractors. Up now to the stage, are field-people. Their method of expression? Ambient Rap.

Singing - Cantando De Colores/ Singing Colors

A Lil' Libros Bilingual Biography Introduce little ones to the life of legendary Ritchie Valens in both English and Spanish! Born May 13, 1941, Richard Steven Valenzuela, better known as Ritchie Valens, was a Mexican-American singer, songwriter, and guitarist. His musical journey began in Pacoima, California, at age 5, when his father encouraged him to take up guitar. In high school, he made his performing debut with his band, the Silhouettes. At age 17, Ritchie recorded his final record, which included the songs "Donna" and "La Bamba." That record went on to sell over one million copies. To this day, Ritchie's music continues to live in the hearts of many! Unable to find bilingual first concept books she could enjoy reading to her baby, Patty Rodriguez came up with the idea behind Lil' Libros. Patty and her work have been featured in the Los Angeles Times, Rolling Stone, CNN Latino, Latina Magazine, Cosmopolitan, People En Espanol, Cosmo Latina, and American Latino TV, to name a few. She is currently Sr. Producer for On Air With Ryan Seacrest-iHeartMedia, jewelry designer for MALA by Patty Rodriguez, and creator of Manolos And Tacos. Ariana Stein, a graduate from California State University, Dominguez Hills, has a Bachelor's Degree in Business Administration. Ariana spent the first eight years of her professional career in the corporate world. Her life changed with the birth of her baby boy. She immediately realized that bilingualism played a very important role in his future, as well as the future of other children.

Dona Perfecta

"Stupid America, remember that chicanito / flunking math and English / he is the Picasso / of your western states / but he will die / with one thousand masterpieces / hanging only from his mind." In his poem, "Stupid America," Chicano activist poet Abelardo "Lalo" Delgado decries the lack of opportunity faced by his people: children let down by the educational system; artists and poets unable to express their creativity. "That chicano / with a big knife / he doesn't want to knife you / he wants to sit down on a bench / and carve ... / but you won't let him." Known as the "poet laureate de Aztlan" and called "the grandfather of Chicano literature" in his 2004 obituary in The New York Times, Delgado used his words to fight for justice and equal opportunity for people of Mexican descent living in the United States. A twelve-year-old when he emigrated from northern Mexico to El Paso, Texas, Delgado's development as a poet and writer coincided with the Chicano Civil Rights movement, and so his poems both reflect the suffering of the oppressed and are a call to action. "We want to let america know that she / belongs to us as much as we belong in turn to her / by now we have learned to talk / and want to be in good speaking terms / with all that is america." Available for the first time to mainstream audiences, Delgado's poems included in this landmark volume were written between 1969 and 2001, and are in Spanish, English, and a combination of both languages. While many of his poems protest mistreatment and discrimination, especially as experienced by farm workers, many others focus on love of family and for the land and traditions of his people. Delgado wrote and self-published 14 books of poetry—none of which are available today—and five of them are included in this long-awaited volume. These poems by a pioneering Chicano poet and revolutionary are a must-read for anyone interested in the Chicano Civil Rights movement and the origins of Chicano literature.

Ten Little Ladybugs

La Llorona, the Crying Woman, is the legendary creature who haunts rivers, lakes, and lonely roads. Said to seek out children who disobey their parents, she has become a "boogeyman," terrorizing the imaginations of New Mexican children and inspiring them to behave. But there are other lessons her tragic history can demonstrate for children. In Rudolfo Anaya's version Maya, a young woman in ancient Mexico, loses her children to Father Time's cunning. This tragic and informative story serves as an accessible message of mortality for children. La Llorona, deftly translated by Enrique Lamadrid, is familiar and newly informative, while Amy Córdova's rich illustrations illuminate the story. The legend as retold by Anaya, a man as integral to southwest tradition as La Llorona herself, is storytelling anchored in a very human experience. His book helps parents explain to children the reality of death and the loss of loved ones.
