Love in the Palm of Your Hand Our life is indeed like a play. Birth is the raising of the curtain; death the curtain's descent. The play has evolved through various stages of preparation but does not really begin until we are born. When all the players go on stage, they have been prepared for their parts. Their characters are outlined, and the stage is set. Now the curtain is raised, the play itself exists as a potential within characters, the director, the musicians and the audience. In the same way, the moment of our birth provides that broad outline for our life. Our entire life exists as a potential that has been prepared for. We have ultimate freedom to do with our life as we like: to full it its potential completely or to make some smaller version of ourselves. It all depends upon our effort and commitment. We make the decisions to full it, to whatever extent, the potential life that exists within us. That is our choice. The Numerological chart reveals one's potential, strengths, weaknesses, challenges and lessons to be learnt. Every number suggests potential strengths and weaknesses. A Numerologist can have a good idea of which direction a person will likely move in and how much of his potential he will use or abuse by studying the chart in a balanced way. In short, Numerology is a self-help tool, providing meaningful advice for all situations. Our life is indeed like a play. Birth is the raising of the curtain; death the curtain's descent. The members of a family will live happily if the five elements are kept well in balance while the building of the family is under construction just as the said Mahabhootas have been used in our physical constitution. The five elements are: earth, water, air, ether. Our universe is also made of these five elements. Therefore it is said "Yatha Pind Tatha Brahmande". The God has rendered these five elements among which Bhoomi (Earth), G for Gagan (Ether), A for Agni (Fire) and N for Neer (Water). The God is also represented by Aum (om). In Aum (om) also A stands for Agni (fire), N for Neer (Water), M for Vayu (air), crescent (half-moon) for Bhoom (earth) and dot over crescent for Akash (void). Likewise, the word Vastu has all these five elements in it. A stands for Vayu (air), A for Agni (fire), S for Srishti i.e. Bhoomi (earth), T for Tat i.e. Akash (ether) and U for Jal (water). The soul transfuses with mind, wisdom and life into the body after it is formed with the combination of the said five elements. All the five elements are represented by five planets in the following manner: Earth is represented by Mars, water by Venus, fire by Sun, air by Saturn and ether is represented by Jupiter. Mind is governed by Moon, wisdom by Mercury and egotism by Rahu. Ketu, Moksha, the salvation. Any irregularity in the balance of these elements makes the members of the family suffer. An easy and step by step method is given which can be applied by any beginner of the subject. A must book for lovers of practical astrology.

BHRIGU SANGHITA For the first time, a Tantric scholar and expert in the Hindu traditions of Ayurveda and astrology presents a system of numerology that combines calculations, astrological data, and an analysis of body type. He illustrates the Vedic Square and the visual patterns that can be derived from it, casting a revealing and more esoteric interpretations of numbers and their relationship to one another. Recommendations are given regarding strong and weak periods of day or year, favorable and precious stones to be worn, and meditations and mantras to be practiced for health and prosperity. Lal Kitab: Vayakaran Avam Bhavfal Vichar Who is not in distress in the present era' Some are anguished mentally, some physically, some by children, some by spouse, some by harmony in the family as before. Everybody wants to cook one's meal separately. The tradition of the joint family has already been shattered. One, who is in trouble, wants freedom from it, be it only a minor wound. His first priority remains to get relief from the pain whatsoever it may cost. The author of Lal Kitab had understood this much earlier and created trials or remedies imbuing good conduct, righteousness and fundamental code of social and universal conduct along with the interweaving that the person might secure relief from the pain as well as remain connected with the societal customs. Most of the people in India are very well acquainted with Lal Kitab' Originally this book was written by Shri. Girdhari Lal Sharma in Urdu language. Subsequently it was translated into Hindi language. Some adulteration is quite in the translated version of the original text. Primarily our rishi-maharshis, godmen, astrologers, fortune-tellers like Narad, Parashar, Kalidas, Varahmihir, Jaimini, Bhrgu the contemporary saints had prescribed yajna, hawan worship, chanting God's name, rituals and donations to mitigate the bad effect of planets. Later on acknowledging paucity of money and time, Shri Girdhari Lal Sharma, the author of the original Lal Kitab, proposed remedies that were simple and required least expense of money. These remedies became very popular in India. Keeping in mind a code of conduct, dharma, practical aspects, good conduct and the basic principles of life and the need for discipline in society, the author had suggested the remedies which were accepted by the common men by heart. For example, respect of elders, service to parents, cow, offering bread to dog, feeding monkeys with gram and jaggery etc. are such remedies that can easily be done by everybody. The principality of twelve signs of Indian astrology has also been accepted by Lal Kitab. The mere difference is that whereas in the prevalent astrology the ascendant is determined by the time of birth, it always keeps it between Aries and Pisces.

Uttarakalamrita There are many books on Hindu astrology. However their perusal is a problem, particularly for the lay readers who do not know Sanskrit. Therefore the author has presented in this book the quintessence of predictive Hindu astrology in a medium understood worldwide. Hindu astrology is sidereal. But in the West most astrologers base their calculations and inferences on the tropical zodiac. To cater to their needs and to enable them to convert a tropical zodiac. To cater to their needs and to convert a tropical chart into a sidereal one, the author has all through provided instructions so that the students and scholars of the West may take full advantage. While sticking mainly to the Western terminology, he has utilized essential Hindu terminology where no single word in English could have conveyed the full import of the term in Sanskrit. Those who are beginners will find that in perusing this book they can start from the scratch and ascend gradually to the high pinnacles of delicate judgement. Those who are already acquainted with the subject will find many new rules and the discussions enlightening. Review(s) About the Author(s) Pandit
