Laundry For Cheryl Mendelson, laundering is the best part of housekeeping. It's full of physical pleasures—the look of favorite clothes restored to freshness and beauty, the tactile satisfaction of crisp linens in beautifully folded stacks. Good laundering preserves things you love and protects your pocketbook. It doesn't take much time or effort. What it takes is knowledge, and Laundry is the comprehensive, entertaining, and inspiring book on the art of laundering. Culled from the bestselling Home Comforts, with revised and updated information and a new introduction, Laundry is an indispensable guide to caring for all the cloth in one's home: from kitchen rags to bedding, hand-washables, and baby clothes to vintage linens. Mendelson offers detailed guidance on when to disregard labels, removing stains, making environmentally informed choices, sewing, and storing clothing and fabrics. A much-needed antidote to the standard-issue how-to manual, Laundry celebrates the satisfactions of ironing, folding, and caring for clothes and linens. Both pragmatic and eloquent, Mendelson provides beginning and veteran homemakers with a seamless combination of reliable instruction, time-tested advice, and fascinating personal narrative. As a farm girl in Pennsylvania, Mendelson—who is a philosopher, lawyer, and professor, as well as a homemaker, wife, and mother—received a classic domestic education from her grandmothers, aunts, and mother. Laundry combines the best of the traditional lore they taught her with the latest in technical and scientific information. Writing with infectious love and respect for her subject, Mendelson is sure to instill in readers a newfound affection and appreciation for the art of laundering.

Freight Broker Business Startup Author of cult classics The Pumpkin Plan and The Toilet Paper Entrepreneur offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: - Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. - A small, profitable business can be worth much more than a large business surviving on its top line. - Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

Start Your Own Business On the road to becoming a successful entrepreneur, Bob Diener confronted a lot of tough issues: how to treat employees, how to please customers, whether or not to cut corners, whether to follow the temptation of an unsavory deal. Although he had no formal business training, Bob found solutions to all these issues and reached the top using a simple strategy that is available to anyone. His secret? Careful study of "the best guidebook to running a successful business ever written": the Bible. Difficult dilemmas become easy when viewed from the biblical perspective. "Our work is meaningless unless to do good," counsels the Book of Ecclesiastes. Companies that abide by the Bible's rules of business tend to be the ones that prosper long term. Companies that cheat their workers and partners, defraud their customers, and operate unethically don't stay in business very long. You too can become a successful entrepreneur by following the tips, strategies, and biblical principles outlined in this exploration of best practices for market research, labor management, business negotiations, risk mitigation, watching the bottom line, and, perhaps most important of all, leaving a lasting legacy. Bob Diener and his partner David Litman created the company that became hotels.com, which pioneered hotel distribution online. When Bob and his partner took the company public in 2000, the stock price soared from \$16 to \$90 in one of the most successful IPOs ever. Having gone on to cofound getaroom.com, Bob is a familiar presence on national media outlets, offering his sage advice on the travel industry.
