Parallelisme Entre S. Vierge From the mountains of Scotland to the white surf of Hawaii, Guy Gauthier takes us on a journey of exploration and self-discovery. Nothing escapes his watchful eye, not even the tiny insects that land on the pages of his notebook. He pounces on the moment before it's gone, giving us a snapshot in words. Gauthier travels like there's no tomorrow, and lives each day as if it were his last.

Le Poète Philosophe, ou réflexions sur les idées philosophiques et religieuses de De Lamartine à propos du Cours familial de Littérature, suivi d'une Ode à De Lamartine Born in England in 1857, Agnes Mary Frances Robinson contributed to cultural and literary currents from nineteenth-century Victorianism to twentieth-century modernism; she was equally at home in London and Paris and prolific in both English and French. Yet Robinson remains an enigma on many levels. This literary biography integrates Robinson's unorthodox life with her development as a writer across genres. Best known for her poetry, Robinson was also a respected biographer, history writer, travel writer, and contributor of reviews and articles to the Times Literary Supplement for nearly forty years. She had a romantic friendship with the writer Vernon Lee and two happy - and celibate - marriages. Her salons in London and Paris were attended by major literary and artistic figures, and she counted amongst her friends Robert Browning, Oscar Wilde, John Addington Symonds, Gaston Paris, Ernest Renan, and Maurice Barrès. Reflecting a decade of research in international archives and family papers, A. Mary F. Robinson reveals the extraordinary woman behind the popular writer and critically acclaimed poet.

Medieval Saints in Late Nineteenth Century French Culture

The Murals of Eugène Delacroix at Saint-Sulpice Cet ouvrage se consacre à une période encore mal connue de l'évolution du philosophe, les années 1945-1951. Pendant cette phase de transition indispensable à la compréhension de la genèse des derniers écrits, Merleau-Ponty commence à se libérer des concepts classiques pour s'acheminer vers deux éléments capitaux de sa pensée: la chair et l'empiétement. A partir du bilan moral et politique de 1945, il fait de l'empiétement une figure de la modernité, et travaille en lui l'alliance singulière de pessimisme et d'optimisme par laquelle il veut traduire sa propre version de l'existentialisme. Dans une complicité significative avec l'onirisme des " psychanalyses " de Bachelard, de la " co-naissance " de Claudel et de l'" amour fou " de Breton, Merleau-Ponty prépare ses propres éléments ontologiques, aux antipodes de l'imaginaire sartrien.

Maurice Barrès

A. Mary F. Robinson Best understood in terms of a Dionysian aesthetics, her work is sensual, erotic, and playful, but also reflective, violent on occasion, and always marked by a tragic undercurrent that becomes magnified with time. Beyond the prominent place she held in the world of French letters, Noailles' lifelong commitment to artistic creation invites a reconsideration of her work."--BOOK JACKET.

Baudelaire and the Art of Memory First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

The French Face of Joseph Conrad Adolescent, Thomas Edward Lawrence rêve d'aventure et de

gloire. Il ignore encore qu'il lui faudra traverser un océan de sable pour que ses rêves s'accomplissent, mais ceux-ci ne tarderont pas à se fracasser sur une dure réalité politique pour celui qui "tira de ses mains des marées d'hommes" à travers le désert afin de donner un roi à l'Irak.

Sartre et le mystère en pleine lumière

Fresh Verdicts on Joan of Arc This study is an examination of Baudelaire's art criticism and its relationship with his creative writing. It is the first book in English to treat in one volume the diverse aspects of the subject: the principal aesthetic ideas, the importance of Delacroix, Boudin, Meryon, Guys, and Manet, the essays on laughter and caricature, and the language and rhetoric of the Salons and other critical writings. The title reflects Baudelaire's conviction, which emphasizes in relation to Delacroix, Daumier, Guys, and Wagner, that all art, whether it is painting, poetry or music, springs from the memory of the artist and speaks to the memory of the consumer of that art. This idea, exemplified in his own creative writing, extends to criticism itself, which is seen primarily as a phenomenon of recognition, and it is that sense of recognition that the author has sought to emphasize throughout.

L'oeuvre de Maurice Barrès

Graham Greene This volume of the College Art Association Monograph series presents a detailed study of the murals by the French painter Eugene Delacroix at Saint-Sulpice.

Les enfants terribles Joseph Conrad has generally been regarded as a novelist with "dual" Polish and English national affinities. This study argues for a triple identity by introducing the French face of Conrad's work, demonstrating that his knowledge of the French language and its literature has profound implications for the study of the novels. Yves Hervouet documents chronologically the influence of French authors including Flaubert, Maupassant and Anatole France, building up a picture of Conrad at work. This first large-scale account of Conrad's involvement with a French literary, aesthetic and philosophical tradition provokes an important reassessment of his creative originality. It should have a major impact on Conrad scholarship, and as a study of cross-cultural influence, it will be of interest to all students of comparative literature in the period.

Philosophy and Poetry Ever since Plato's Socrates exiled the poets from the ideal city in The Republic, Western thought has insisted on a strict demarcation between philosophy and poetry. Yet might their long-standing quarrel hide deeper affinities? This book explores the distinctive ways in which twentieth-century and contemporary continental thinkers have engaged with poetry and its contribution to philosophical meaning making, challenging us to rethink how philosophy has been changed through its encounters with poetry. In wide-ranging reflections on thinkers such as Heidegger, Gadamer, Arendt, Lacan, Merleau-Ponty, Deleuze, Irigaray, Badiou, Kristeva, and Agamben, among others, distinguished contributors consider how different philosophers encountered the force and intensity of poetry and the negotiations that took place as they sought resolutions of the quarrel. Instead of a clash between competing worldviews, they figured the relationship between philosophy and poetry as one of productive mutuality, leading toward new modes of thinking and understanding. Spanning a range of issues with nuance and rigor, this compelling and comprehensive book opens new possibilities for philosophical poetry and the poetics of philosophy.

Derniers chants Covers fifty years of criticism of Graham Greene, a leading man of letters on the English literary scene.

Proust Nous avons tous retenu la leçon de la phénoménologie : l'homme n'est pas le prisonnier de ses représentations subjectives, il est directement un " être-dans-le-monde ". Toutefois, tout un chacun a, à chaque instant, à choisir le monde, c'est-à-dire à se choisir et à se fonder dans le monde comme une personne unique et singulière au sein de celui-ci. Cette idée implique l'élaboration d'une discipline complémentaire à la phénoménologie, capable de cerner l'homme dans la réalité et la singularité absolues de son projet dans le monde. Méthode que Sartre nomme, en modifiant la pensée de Freud, psychanalyse existentielle. Que la singularité de notre épreuve personnelle du monde soit tout à la fois ce qui nous est le plus accessible, et ce qui, pourtant, échappe constamment à notre connaissance, constitue un paradoxe, un " mystère en pleine lumière ", légitimant la formation d'une psychanalyse, non moins paradoxale, de la conscience. Psychanalyse d'un genre nouveau dont Sartre esquisse dans de nombreux textes théoriques la méthode, qu'il mettra lui-même en application dans ses essais biographiques sur

Baudelaire, Mallarmé, Genet et Flaubert. Percer l'identité du monde singulier d'un écrivain afin d'enrichir la compréhension de son oeuvre par celle de son élan unique dans le monde, tels sont les résultats auxquels la méthode psychanalytique sartrienne, permet d'aboutir, par-delà la seule méthode héritée de la phénoménologie. C'est à en dégager le sens et à en comprendre la fécondité aussi bien philosophique que clinique et littéraire que se consacre le présent essai.

The Facts on File Companion to the World Novel Legends, tales, and mysteries featuring saints captivated the French at the end of the nineteenth century. As Jean Lorrain pointed out in an 1891 article for the popular weekly Le Courrier Francais, the seemingly simple language of the saints' lives, their noble battles between good and evil and the atmosphere of religious mysticism appealed to many, especially those involved in the visual and performing arts. Ironically The Third Republic (1870-1940), a regime that claimed to reinforce and institute the secular ideas of the French Revolution, was witness to this great popular interest in the saints and religious imagery. The eight essays in this work explore the popularity of the saints from the 1850s to the 1920s. The essays evaluate the role they played in literature, art, music, science, history and politics, examine portrayals of the saints' lives in both low and high culture (from children's literature, shadow plays and the popular press to literature, opera and theological studies), and reveal the prevalence of the saints in fin-de-siecle France.

She makes use of phenomenology to show how the Proustian metaphor operates as translation as it bridges the gap between reality and language."

Summers on the Road "Voilà un livre dont je sors avec une admiration accrue pour son auteur. C'est son chefs-d'œuvre. Il fait preuve, là, d'une originalité qui n'irritera point, et qui le connaît bien l'y trouvera tel qu'il est. Un style parfait ; la phrase mince et musclée, peu d'images ; c'est vraiment le mystère en pleine lumière ! Mais qu'ils sont terribles, en effet, ces enfants ! Quelle surprise ! C'est pour la première fois que la littérature française envoie des enfants en enfer Il y a une scène prodigieuse d'intensité, les plus fortes pages que Cocteau ait jamais écrites, c'est bien certain."

Le mystère en pleine lumière A compelling analysis of the artist's final painting presents a close-up look at Delacroix's masterpiece, discussing the artist's life, philosophy, religion, and art and revisiting the diverse locales around Paris that may have inspired the masterwork. Catalog of Copyright Entries. New Series Revisit one of the most important pillars in modern philosophy with this new English translation—the first in more than 60 years—of Jean-Paul Sartre's seminal treatise on existentialism. "This is a philosophy to be reckoned with, both for its own intrinsic power and as a profound symptom of our time" (The New York Times). In 1943, Jean-Paul Sartre published his masterpiece, Being and Nothingness, and laid the foundation of his legacy as one of the greatest twentieth century philosophers. A brilliant and radical account of the human condition, Being and Nothingness explores what gives our lives significance. In a new and more accessible translation, this foundational text argues that we alone create our values and our existence is characterized by freedom and the inescapability of choice. Far from being an internal, passive container for our thoughts and experiences, human consciousness is constantly projecting itself into the outside world and imbuing it with meaning. Now with a new foreword by Harvard professor of philosophy Richard Moran, this clear-eyed translation guarantees that the groundbreaking ideas that Sartre introduced in this resonant work will continue to inspire for generations to come.

Pierre Didier ou le mystère en pleine lumière Le R.P. Herve Coathalem a presente ce travail sur la Vierge Marie. Normalement, l'auteur aurait du lui-meme revoir et preparer son manuscrit pour l'impression. Mais, deux mois a peine ecoules, en septembre 1939, eclata la guerre, et le P. Coathalem applique aussitot a l'enseignement de la theologie, n'eut pas les loisirs necessaires pour ce travail. Bientot apres il fut envoye par ses Superieurs a la Mission du Kiang-nan, en Chine, ce qui lui enleva le temps et la commodite requis pour cette revision. De 1939 a 1954, beaucoup d'etudes mariales avaient paru. Convenait-il de faire remettre la these presente en chantier pour l'adapter aux progres actuels et aux developpements de la Mariologie, ou du moins pour en mettre a jour la bibliographie?
