*Amid the turbulence of World War II, a young German woman finds a precarious haven closer to the source of danger than she ever imagined—one that will propel her through the extremes of privilege and terror under Hitler's dictatorship . . . In early 1943, Magda Ritter's parents send her to relatives in Bavaria, hoping to keep her safe from the Allied bombs strafing Berlin. Young German women are expected to do their duty—working for the Reich or marrying to produce strong, healthy children. After an interview with the civil service, Magda is assigned to the Berghof, Hitler's mountain retreat. Only after weeks of training does she learn her assignment: she will be one of several young women tasting the Führer's food, offering herself in sacrifice to keep him from being poisoned. Perched high in the Bavarian Alps, the Berghof seems worlds away from the realities of battle. Though terrified at first, Magda gradually becomes used to her dangerous occupation—though she knows better than to voice her misgivings about the war. But her love for a conspirator within the SS, and her growing awareness of the Reich's atrocities, draw Magda into a plot that will test her wits and loyalty in a quest for safety, freedom, and ultimately, vengeance. Vividly written and ambitious in scope, *The Taster* examines the harrowing moral dilemmas of war in an emotional story filled with acts of extraordinary courage. Praise for V.S. Alexander's *The Magdalen Girls* "Fans of Barbara Davis and Ashley Hay will enjoy this tenderhearted story of sinner, saints, and redemption." --Booklist "Alexander has clearly done his homework. Chilling in its realism, his work depicts the improprieties long abandoned by the Catholic Church and only recently acknowledged. Fans of the book and film *Philomena* will want to read this." --Library Journal*

*The role of the indigenous population in the formation of the Bolivarian constitution is one of Latin America's most important untold stories. Considered a beacon of twenty-first century socialism by many, Venezuela is witnessing the paradoxical emergence of 'indigenous capitalisms' as the government and various indigenous actors are driven by notions of development and enfranchisement grounded in the ideology of multiculturalism. Venezuela Reframed shows that a considerable part of indigenous activism, aligned with the Bolivarian governments, has paved the way for development in classical, social-democratic terms. It looks at how, in opposition to sectors of the indigenous population fighting for effective autonomy, many legitimate claims are being usurped to consolidate capitalist relations. Boldly arguing that romanticized notions of cultural indigeneity hide growing class struggle, this book is essential reading not just for those interested in Venezuela, but all those interested in the prospects of democracy, contemporary states and alternatives to capitalism worldwide.*
