"In 1325, the Aztecs founded their capital city Tenochtitlan, which grew to be one of the world's largest cities before it was violently destroyed in 1521 by conquistadors from Spain and their indigenous allies. Re-christened and reoccupied by the Spanish conquerors as Mexico City, it became the pivot of global trade linking Europe and Asia in the 17th century, and one of the modern world's most populous metropolitan areas. However, the Aztec city of Tenochtitlan and its people did not entirely disappear when the Spanish conquistadors destroyed it. By reorienting Mexico City-Tenochtitlan as a colonial capital and indigenous city, Mundy demonstrates its continuity across time. Using maps, manuscripts, and artworks, she draws out two themes: the struggle for power by indigenous city rulers and the management and manipulation of local ecology, especially water, that was necessary to maintain the city's sacred character. What emerges is the story of a city-within-a city that continues to this day"--

Motivated by a love of her Mexican American heritage, Patricia Preciado Martin set out to document the lives and memories of the women of her mother's and grandmother's eras; for while the role of women in Southwest has begun to be chronicled, that of Hispanic women largely remains obscure. In *Songs My Mother Sang to Me*, she has preserved the oral histories of many of these women before they have been lost or forgotten. Martin's quest took her to ranches, mining towns, and cities throughout southern Arizona, for she sought to document as varied an experience of the contributions of Mexican American women as possible. The interviews covered family history and genealogy, childhood memories, secular and religious traditions, education, work and leisure, environment and living conditions, rites of passage, and personal values. Each of the ten oral histories reflects not only the spontaneity of the interview and personality of each individual, but also the friendship that grew between Martin and her subjects. *Songs My Mother Sang to Me* collects voices not often heard and brings to print accounts of social change never previously recorded. These women document more than the details of their own lives; in relating the histories of their ancestors and communities, they add to our knowledge of the culture and contributions of Mexican American people in the Southwest.

Introducing a compelling new activity for crafters and artists, doodlers and coloring book enthusiasts of all ages. *Paint by Sticker* includes everything you need to create twelve vibrant, full-color "paintings." The images—including sunflowers, a fox, a hummingbird in mid-flight, two boats on the water—are rendered in "low-poly," a computer graphics style that creates a 3-D effect. As in paint-by-number, each template is divided into dozens of spaces, each with a number that corresponds to a particular colored sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next—it's an activity that's utterly absorbing as you watch a "painting" emerge from a flat black-and-white illustration to a dazzling image with color, body, spirit. The pages are perforated for easy removal, making it simple to frame the completed images.

When Simon Majumdar hit forty, he realized there had to be more to life than his stable but uninspiring desk job. As he wondered how to escape his career, he rediscovered a list of goals he had scrawled out years before, the last of which said: Go everywhere, eat everything. With that, he had found his mission -- a yearlong search for the delicious, and curious, and the curiously delicious, which he names *Eat My Globe* and memorably

chronicles in these pages. In Majumdar's world, food is everything. Like every member of his family, he has a savant's memory for meals, with instant recall of dishes eaten decades before. Simon's unstoppable wit and passion for all things edible (especially those things that once had eyes, and a face, and a mom and a pop) makes this an armchair traveler's and foodie's delight -- Majumdar does all the heavy lifting, eats the heavy foods (and suffers the weighty consequences), so you don't have to. He jets to thirty countries in just over twelve months, diving mouth-first into local cuisines and cultures as different as those of Japan and Iceland. His journey takes him from China, where he consumes one of his "Top Ten Worst Eats," stir-fried rat, to the United States, where he glories in our greatest sandwiches: the delectable treasures of Katz's Delicatessen in Manhattan, BBQ in Kansas and Texas, the still-rich po' boys of post-Katrina New Orleans. The meat of the story -- besides the peerless ham in Spain, the celebrated steaks of Argentina, the best of Munich's wursts as well as their descendants, the famous hot dogs of Chicago -- is the friends that Simon makes as he eats. They are as passionate about food as he is and are eager to welcome him to their homes and tables, share their choicest meals, and reveal their local secrets. Also a poignant memoir, *Eat My Globe* is a life told through food and spiced with Majumdar's remembrances of foods past, including those from his colorful childhood. (Raised in Northern England, he is the son of a fiery Welsh nurse and a distinguished Bengali surgeon.) A captivating look at one man's passion for food, family, and unique life experiences, *Eat My Globe* will make you laugh -- while it makes you hungry. It is sure to satiate any gastronome obsessed with globetrotting -- for now.

One of USA Today's "100 Books to Read While Stuck at Home During the Coronavirus Crisis" A dazzling gift, the unforgettable, unknown history of colors and the vivid stories behind them in a beautiful multi-colored volume. "Beautifully written . . . Full of anecdotes and fascinating research, this elegant compendium has all the answers." —NPR, Best Books of 2017 *The Secret Lives of Color* tells the unusual stories of seventy-five fascinating shades, dyes, and hues. From blonde to ginger, the brown that changed the way battles were fought to the white that protected against the plague, Picasso's blue period to the charcoal on the cave walls at Lascaux, acid yellow to kelly green, and from scarlet women to imperial purple, these surprising stories run like a bright thread throughout history. In this book, Kassia St. Clair has turned her lifelong obsession with colors and where they come from (whether Van Gogh's chrome yellow sunflowers or punk's fluorescent pink) into a unique study of human civilization. Across fashion and politics, art and war, the secret lives of color tell the vivid story of our culture. "This passionate and majestic compendium will leave you bathed in the gorgeous optics of light." —Elle

Since its violent dissolution in 1521, the Aztec Empire of Mexico has continually intrigued us. Recent discoveries resulting from the excavation of the Templo Mayor in the heart of Mexico City have taught us even more about this fascinating culture. The increasing recognition that the achievements of Mesoamerican civilizations were among the most sophisticated of the ancient world has led to a demand for introductions to the basic methods and theories of scholars working throughout the region. Handbook to Life in the Aztec World gathers the results from recent archaeological discoveries and scholarly research into a single accessible volume. Organized thematically, the handbook covers all aspects of life in the Aztec world: Mesoamerican civilizations and Aztec archeology; evolution of Aztec civilization; geography of the Aztec world; society and government; religion, cosmology, and mythology; funerary beliefs and customs; Aztec art; Aztec architecture; Nahuatl literature; the calendar, astronomy, and mathematics; economy, industry, and trade; daily life; the Aztec after conquest and today. Each chapter includes an extensive bibliography, and more than 165 original line drawings, photographs, and maps complement the text. Handbook to Life in the Aztec World provides all the essential information required by anyone interested in Aztec history or culture.

Mesoamerican communities past and present are characterized by their strong inclination toward color and their expert use of the natural environment to create dyes and paints. In pre-Hispanic times, skin was among the preferred surfaces on which to apply coloring materials. Archaeological research and historical and iconographic evidence show that, in Mesoamerica, the human body—alive or dead—received various treatments and procedures for coloring it. Painting the Skin brings together exciting research on painted skins in Mesoamerica. Chapters explore the materiality, uses, and cultural meanings of the colors applied to a multitude of skins, including bodies, codices made of hide and vegetal paper, and even building “skins.” Contributors offer physicochemical analysis and compare compositions, manufactures, and attached meanings of pigments and colorants across various social and symbolic contexts and registers. They also compare these Mesoamerican colors with those used in other ancient cultures from both the Old and New Worlds. This cross-cultural perspective reveals crucial similarities and differences in the way cultures have painted on skins of all types. Examining color in Mesoamerica broadens

understandings of Native religious systems and world views. Tracing the path of color use and meaning from pre-Columbian times to the present allows for the study of the preparation, meanings, social uses, and thousand-year origins of the coloring materials used by today's Indigenous peoples.
