This delightful book explores all kinds of questions that young children ask. Lift the flaps to discover who, what, when, where, how, which, and why.

This latest title in the delightful Lift-the-flap Questions and Answers series is packed with questions inquisitive young children love to ask and grown-ups sometimes struggle to answer.

Legend has it that if you catch a leprechaun, he'll grant you a wish. But, be careful! Leprechauns are full of trickery. To catch one, you'll need to be clever in crafting your trap. Grab some glitter and glue and get prepared for your wily holiday visitors! On the night before St. Patrick's Day, leprechauns show up to steal your treasures and then disappear as quickly as they came. However, if you're careful you might be able to catch one and then he'll grant you a wish. You'll have to be sneaky and set just the right trap to trap a leprechaun. Sue Fliess's read-aloud text and Emma Randall's whimsical illustrations will provide much fun for young readers eager to catch their very own leprechaun! But beware: leprechauns may leave you with nothing but a cardboard box and a shoe or two.

This delightful book explores all kinds of questions that young children ask. Lift the flaps to discover who, what, when, where, how, which, and why.

What makes it rain? How do rainbows appear? How hot is the sun? Why does lightning flash? Where does wind come from? Young children can find out the answers to these questions and more by lifting the flaps in this friendly, illustrated introduction to the science of weather.

Read Book Lift The Flap Questions Answers About Animals

has exquisitely recreated some of the world's most famous artworks. Encourages young children that they can be artists too, and probably are already!

What are stars? is the third in the Very First Questions & Answers series, following on from What is poo? and What are germs? It explores how stars aren't just the pointy shapes we know - in fact the tiny twinkly stars in the night sky aren't star-shaped at all and they aren't tiny. They're actually massive burning balls. The book goes on to explain how stars make patterns in the sky, how the Sun is our nearest star, and how shooting stars aren't stars but whizzing lumps of space rock. Charmingly illustrated by Marta Alvarez-Miguens, each page has flaps to lift and find out more.

This stylish, highly illustrated, interactive book is perfect for sharing with little children, and introduces the science of the senses using a friendly lift-the-flap format. Text is kept to a minimum. A wonderful introduction to some of the fundamentals of human biology, perfect for curious young minds.

A beautiful and gentle look at the circle of life, using Christine Pym's gorgeous animals characters to explore the emotions and facts around death, with questions such as Is it ok to talk about dying? What happens when someone dies? Can I shout and cry and hide away? and How can I stop feeling sad? The latest in the wonderful First Questions and Answers series, this title covers an extremely tricky topic in a friendly and approachable way. Uses animal characters in the same way as First Q&A: What are feelings? Fills a very important gap in the market, helping parents and carers to find the words to explain death and dying to young children.

Children are always asking questions and space is a very fascinating subject. This illustrated book has lots of answers.

This thoughtful book explores happiness, sadness, anger, fear and worry in a friendly and approachable way.
