The legendary travel writer drives the entire length of the US–Mexico border, then goes deep into the hinterland, on the back roads of Chiapas and Oaxaca, to uncover the rich, layered world behind today’s brutal headlines. Paul Theroux has spent his life crisscrossing the globe in search of the histories and peoples that give life to the places they call home. Now, as immigration debates boil around the world, Theroux has set out to explore a country key to understanding our current discourse: Mexico. Just south of the Arizona border, in the desert region of Sonora, he finds a place brimming with vitality, yet visibly marked by both the US Border Patrol to the north and mounting discord from within. With the same humanizing sensibility he employed in Deep South, Theroux stops to talk with residents, visits Zapotec mill workers in the highlands, and attends a Zapatista party meeting, communing with people of all stripes who remain south of the border even as family members brave the journey north. From the writer praised for his “curiosity and affection for humanity in all its forms” (New York Times Book Review), *On the Plain of Snakes* is an exploration of a region in conflict.

If you have ever wondered about space travel, now you have the opportunity to understand it more fully than ever before. Traveling into space and even emigrating to nearby worlds may soon become part of the human experience. Scientists, engineers, and investors are working hard to make space tourism and colonization a reality. As astronauts can attest, extraterrestrial travel is incomparably thrilling. To make the most of the experience requires serious physical and mental adaptations in virtually every aspect of life, from eating to intimacy. Everyone who goes into space sees Earth and life on it from a profoundly different perspective than they had before liftoff. Astronomer and former NASA/ASEE scientist Neil F. Comins has written the go-to book for anyone interested in space exploration. He describes the wonders that travelers will encounter—weightlessness, unparalleled views of Earth and the

cosmos, and the opportunity to walk on another world—as well as the dangers: radiation, projectiles, unbreathable atmospheres, and potential equipment failures. He also provides insights into specific trips to destinations including suborbital flights, space stations, the Moon, asteroids, comets, and Mars—the top candidate for colonization. Although many challenges are technical, Comins outlines them in clear language for all readers. He synthesizes key issues and cutting-edge research in astronomy, physics, biology, psychology, and sociology to create a complete manual for the ultimate voyage.

Riskind have produced perhaps the most practical and accurate guide available for the unconventional tourist—the man or woman who prefers to get off the beaten path by foot, burro, mule, canoe, raft, or vehicle. Going well beyond the usual tourist guidebook entries, Backcountry Mexico will help you hire a guide and burro, navigate rural roads and trails, and communicate with the friendly and, sometimes, unfriendly folks you are likely to meet in a rural setting. In addition to English-Spanish and Spanish-English vocabulary lists containing both standard words and numerous terms relating to people, conditions, land, and situations not ordinarily encountered in tourists' lists, the authors have provided literally hundreds of helpful phrases and short conversations in easy-to-use sections arranged according to topics. Experienced unconventional travelers themselves, Burleson and Riskind have become experts in such subjects as "Eating and Staying Well on the Road," "Camping in Mexico," "Rural Mexican Village Life," and many more. Their experience, and the resultant wealth of language and cultural information contained in this guide, will help you to enjoy your trip and to better understand and appreciate the people and the land you visit. Throughout the book, the language examples are interwoven with beautifully illustrated anecdotes about culture and lifeways, so that the traveler is equipped with practical knowledge as well as appropriate behavior and speech. Fascinating in its treatment of a culture that is little known and unique in its coverage of rural-style Mexican Spanish, Backcountry Mexico will prove invaluable to anyone who ventures forth into northern Mexico.

A breathtaking celebration of Instagram's premier solo female travel community, featuring 200 striking photographs—most of them all-new—plus empowering messages and practical tips for solo travelers. “For those with passports full of stories, this book carries you away to every dreamy corner of the earth. I can't stop flipping through these visually incandescent pages to see where I'm capable of traveling to next!”—Caila Quinn, *The Bachelor* contestant and lifestyle and travel influencer From backpackers in Peru to artists in Berlin to storytellers in Morocco, *Dame Traveler* celebrates the diversity and bravery of women from around the world who are not afraid to think (and live) outside the box. The revolutionary *Dame Traveler* Instagram account was founded by Nastasia Yakoub, who was born into a strict Chaldean-Middle Eastern community where women are expected to marry young and put aside other personal ambitions. But at the age of twenty, Nastasia embarked on a solo trip to South Africa to volunteer at an orphanage in Cape Town, which sparked a love of world travel. Recognizing a void in the travel industry, she founded *Dame Traveler*, the first female travel community on Instagram, now more than half a million strong. Nastasia herself has traveled to sixty-three countries on solo adventures, sharing colorful photos of her tantalizing travels along the way. *Dame Traveler* celebrates these women with a photographic collection of 200 stunning images paired with inspiring captions, 80% of which have never been seen on the Instagram account. Organized into sections on architecture, culture, nature, and water, each entry features travel information, plus tips, advice, unique solo-travel experiences, and wisdom from contributing globe-trotters to embolden the next generation of *Dame Travelers*.
