Why al Qaeda is winning its war against the West—and America has been playing right into its hands In the decade since 9/11, the United States has grown weaker: It has been bogged down by costly wars in Afghanistan. It has spent billions of dollars on security to protect air travel and other transport, as well as the homeland more generally. Much of this money has been channeled into efforts that are inefficient and highly bureaucratic, a lack of coordination between and among the government and an array of contractors making it difficult to evaluate the return on the enormous investment that we have made in security. Meanwhile, public morale has been sapped by measures ranging from color-coded terror alerts to full-body hand searches. Now counterterrorism expert Daveed Gartenstein-Ross details the strategy that the U.S. has made in the fight against al Qaeda, a group that U.S. planners never really took the time to understand. For this reason, America's responses to the terrorist threat have often unwittingly helped al Qaeda achieve its goals. Gartenstein-Ross's book explains what the country must do now to stem the bleeding. Explains in detail al Qaeda's strategy to sap and undermine the American economy, and shows how the United States played into the terrorist group's hands by expanding the battlefield and setting up an expensive homeland security bureaucracy that has difficulty dealing with a nimble, adaptive foe Outlines how al Qaeda's economic plans have evolved toward an ultimate "strategy of a thousand cuts," which involves smaller yet more frequent attacks against Western societies Shows how the domestic politicization of terrorism in the United States, skewing its priorities and causing it to misallocate counterterrorism resources Offers a practical plan for building domestic resiliency against terrorist attacks, and escaping the mistakes that have undermined America's war against its jihadist foes Clearly written and powerfully argued by a prominent counterterrorism expert, this book is essential reading for anyone who wants to understand what is really going on after and how the United States can thwart its goals—or help unwittingly to achieve them. So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer's College Essay Guy will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the entire writing process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I write an essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process simple, and (dare we say it?) a little bit fun. This guide to job hunting teaches readers: how to become a powerful candidate by looking beyond the job description; how to use the four questions to distinguish a good interview from a wrong one; how trying to get a job can land you in the wrong job; where and how to gain the inside edge needed to interview confidently and convincingly; how to control the interview to your advantage; how to make the prospective employer see the applicant as the solution to his/her problems; and how to win the job by doing the job. Land the job of your dreams—even in the toughest of modern-day job markets, simply answering ads with a cover letter and résumé just doesn't cut it. You need to cover all the bases. You need to strategize. This compendium from bestselling career guru Mark Sawyer is your road map to getting the job you want. Get a Great Job When You Don't Have a Job breaks the process down into three easy parts, each covering a single, critical aspect of a successful job search: Fearless Interviewing employers with a vibrant self-presentation . . . Fearless Interviewing Dazzle interviewers within the first minute . . . Fearless Career Change Make big decisions with care and confidence . . . This all-inclusive job-search program is exactly what you need to succeed in any type of market. This volume provides the most important essays and papers on urban and regional policy, making it a convenient summary of the latest theories, approaches and research results. The study of sub-national politics is no longer mainly concerned with the urban political decision-making process and now focuses on the political, economic and social preconditions for urban policy. As the articles and papers reprinted in this volume demonstrate, local and regional politics are increasingly important features of most Western democracies. Economic and social development is more and more determined by changes occurring at the local, regional and global levels rather than at the national level. This volume seeks to cover the most important elements of research on local gov-

Vast amounts of data are being generated, collected, stored, processed, analyzed, distributed and used at an ever-increasing rate by organizations. Simultaneously, managers are struggling to understand and thoroughly understand the factors driving their business. Business Analytics is an interactive process of analyzing and exploring enterprise data to find valuable insights that can be exploited for competitive advantage. However, to gain this advantage, organizations need to create a sophisticated analytical climate within which strategic decisions are made. As a result, there is a growing awareness that aligning business strategies, business structures, and analytics are critical to effectively develop and deploy techniques to enhance an organization's decision-making capability. In the past, the relevance and usefulness of research in the area of alignment is often questioned by practitioners, but this book seeks to bridge this gap. Aligning Business Strategies and Analytics: Bridging Between Theory and Practice is comprised of 11 chapters, divided into three sections. The book begins by introducing business analytics and the current gap between academic training and the needs within the business community. Chapters 2 - 5 examine how the use of cognitive computing improves financial advice, how technology is accelerating the growth of the financial advising industry, explores the application of advanced analytics to various facets of the industry, and the context for analytics in practice. Chapters 6 - 9 offers real-world examples of how project management professionals tackle big-data challenges, explores the application of agile methodologies, discusses the benefits that can be gained by implementing real-time, and a case study on human capital analytics. Chapters 10 - 11 reviews the opportunities and potential shortfall and highlights how new media marketing and analytics fostered new insights. Finally the book concludes with a look at how data and analytics are playing a revolutionary role in strategy development in the chemical industry.Want to land a job or career in the private wealth management industry but don't know where to start? "This textbook examines a wide range of humanitarian action issues in five parts, presented by specialists from different academic fields. The respective parts reflect the five core modules of the NOHA Joint Master's Programme "International Humanitarian Action": a) World Politics, b) International Law, c) Public Health, d) Anthropology, and e) Management. The book serves as a common basis for all students at all NOHA universities and aims at imparting the basic knowledge and skills needed to excel in a complex interdisciplinary and international learning context. It provides in-depth information on key international humanitarian principles and values, professional codes of conduct, and the commitment to their implementation in practice. The book will thus be useful for all students of the NOHA Joint Master's Programme. It is also a good starting point for participants of any courses with a similar content, but also for academics and practitioners affiliated with entities such as international organisations and NGOs. It may also serve as an introduction to the field for those with an interest in understanding the numerous and inter-linked facets of humanitarian action.
