Astral projection is the classic term for what today is more commonly called out-of-body experience or OBE. In this fascinating volume, Robert Bruce has drawn on his lifetime's experience not only traveling in the astral dimension, but teaching others to do so. *Astral Dynamics* provides, all in one package, a personal narrative, a "how-to," a troubleshooting guide, and a theoretical perspective. Whether you are a skeptic, a veteran astral projector, a novice or an armchair traveler--there is treasure here. *Astral Dynamics* provides the intelligent and motivated reader with everything needed to put theory into practice: *Elements of Projection*--Bruce's mind-split theory of what actually goes on during projection *New Energy Ways (NEW)*--His stunningly practical method of raising awareness by using touch, which Bruce calls tactile imaging. *Core Skills*--How to succeed at the three tasks that are essential to success in astral projection. *Projection Technique*--What you need to know to stop reading about astral projection and actually do it. *The Akashic Connection*--Speculations on things seen and heard while traveling in astral realms. Written in an engaging, unpretentious manner, *Astral Dynamics* is already considered to be a classic.

A magisterial history of the Himalaya: an epic story of peoples, cultures, and adventures among the world's highest mountains. For centuries, the unique and astonishing geography of the Himalaya has attracted those in search of spiritual and literal elevation: pilgrims, adventurers, and mountaineers seeking to test themselves among the world's most spectacular and challenging peaks. But far from being wild and barren, the Himalaya has been home to a diversity of indigenous and local cultures, a crucible of world religions, a crossroads for trade, and a meeting point and conflict zone for empires past and present. In this landmark work, nearly two decades in the making, Ed Douglas makes a thrilling case for the Himalaya's importance in global history and offers a soaring account of life at the "roof of the world." Spanning millennia, from the earliest inhabitants to the present conflicts over Tibet and Everest, Himalaya explores history, culture, climate, geography, and politics. Douglas profiles the great kings of Kathmandu and Nepal; he describes the architects who built the towering white Stupas that distinguish Himalayan architecture; and he traces the flourishing evolution of Hinduism, Islam, and Buddhism that brought Himalayan spirituality to the world. He also depicts with great drama the story of how the East India Company grappled for dominance with China's emperors, how India fought Mao's Communists, and how mass tourism and ecological transformation are obscuring the bloody legacy of the Cold War. Himalaya is history written on the grandest yet also the most human scale—encompassing geology and genetics, botany and art, and bursting with stories of courage and resourcefulness.

There is no denying the fact that the claims of Christ are radical. Jesus' statements concerning Himself present every person with a choice to be made. We must either accept or reject His claims. He was either telling the truth or He was lying. Pastor Chuck Smith takes a straightforward look at the claims of Jesus Christ, examining their validity. Readers are challenged to accept Christ, based upon these claims.

Those were the days, my friends. That trip had a lasting effect and over time we realized we were destined to be full time RVers. In 1995 we sold our house and a Recreational Vehicle became our home. An RV has been our home every since.

I have sought to analyze (minus proper names, a la Trent) the premises, presuppositions, logical and ecclesiological "bottom lines" and (in a word), the spirit of a false and divisive radical Catholic reactionary strain of thought held by a distinctive and tiny sub-group of Catholics. The term "traditionalism" has been co-opted by groups and schools of thought within Catholicism that vary quite widely. It's similar to the love and adoption of the word "Christian" by many sects that are not Christian at all (since they deny the Holy Trinity or the divinity of Jesus Christ). Apologists and other observers need to differentiate groups that are using the same name, for purposes of identification and critique, and to prevent misunderstandings as to exactly what we are contending against as error. The book doesn't oppose the Tridentine Mass, or traditional liturgical practice and devotion (nor traditional morality and catechesis), but rather, far more radical ideas held by some Catholics.

To give us a better understanding of the Catholic Faith, in Characters of the Passion Fulton J. Sheen returns us to Calvary. There he dramatically brings to life in brief but penetrating characterizations many who played important roles in the "Eternal Drama of the Cross." Peter, Judas, Pilate, Herod, Barabbas, and others make an appearance, and through them the author shows us new aspects of the glory of the Faith. Fulton Sheen was unparalleled in his ability to combine theology, devotion, and the profoundest meditations on the central events of the Christian narrative. His writing is a message of inspiration to all: to those wavering in their beliefs he brings comfort and strength; to others he affirms the knowledge that true faith is the most powerful weapon in the world today, ever-ready to meet the challenges of modern life.

No matter what anyone tells you, boat cooking IS different from cooking ashore. The space is smaller, there's no grocery store 5 minutes away, you have fewer prepared foods and electric appliances, and food storage is much different. Despite cruising different oceans, we—Jan and Carolyn—both faced the same challenges: eating well while having time to enjoy all the other great aspects of cruising. We love to snorkel, swim, kayak, explore—and just sit and admire the view. We learned with the cookbooks we both had aboard, and wished for information that wasn't available—like when Jan ended up with a frozen chicken complete with head and feet and no instructions on how to cut it up. When we couldn't get foods such as sour cream, English muffins, spaghetti sauce or yogurt, we adapted recipes to make our own. Other times, we experimented with substituting ingredients—maybe the result wasn't identical, but it was still tasty. We ended up with over 150 substitutions and dozens of “make it yourself” options. As we traded recipes and knowledge with each other, we realized we were compiling information that became *The Boat Galley Cookbook: 800+ recipes made from readily-obtainable ingredients with hand utensils, including numerous choices to suit every taste: not just one cake but 20, 16 ways to prepare fish, 10 regional barbeque sauces, and so on. Step-by-step directions to give even “non-cooks” the confidence they can turn out tasty meals without prepared foods. Detailed instructions on unfamiliar things like making yogurt and bread, grilling virtually every food imaginable, preparing and cooking freshly-caught fish and seafood, cutting up and boning meat, cooking in a Thermos and baking on the stove top, as well as lots of tips on how to do things more easily in a tiny, moving kitchen. All this in an easy-to-navigate format including side tabs on the Contents to help you find your way and extensive cross reference lists at the end of each chapter. Quick Reference Lists provide idea starters: suggestions of included recipes for such categories as Mexican, Asian, and Potluck. The Boat Galley Cookbook is designed to help you every step of the way. We hope it becomes a trusted reference on your boat, and a source of many enjoyable meals.*

Isaac Asimov's death on April 6, 1992, was a great loss to the world of literary science and freethought. The prolific author's vision is unmatched today, and his pointed honesty shines through in *The Roving Mind*, now reissued in this special tribute edition. This collection of essays is wide-ranging, reflecting Asimov's extraordinary skill in disseminating knowledge from across the spectrum of human thought. Some of the areas explored in this volume of 62 essays include creationism, pseudoscience, censorship, population, philosophy of science, transportation, computers and corporations of the future, and astronomy. His predictions about cloning which has only recently become the topic of public debate the theory of technophobia, and other scientific developments are astounding. In a lighter tone, Asimov includes several personal stories from his life including thoughts on his style of writing and memories of family in younger days. With tributes by Arthur C. Clarke, L. Sprague de Camp, Harlan Ellison, Kendrick Frazier, Martin Gardner, Donald Goldsmith, Stephen Jay Gould, E. C. Krupp, Frederik Pohl, and Carl Sagan the collection is very readable and thus is accessible to a wide audience of nonscientists as well as scientists. Both adults and young people should find it interesting. -*The Physics Teacher*. . . Asimov's best include pieces detailing the present mysteries of solar astronomy, removing the mythology of cloning (backyard gardeners do it all the time), and pointing out deficiencies in the supposed chemistry expertise of Sherlock Holmes. -*Nature*

Without the guide, I'd never know where to start. There are a lot of photos and the troubleshooting charts are easy to read, with a column for symptoms, possible problem areas, and causes and remedies. They identify specific problems for which I need to call on a repair specialist but I was surprised to see that many of the remedies are simple enough that I would not be afraid to tackle them myself. This guide will help anyone assess problems with thier RV refrigerator and try, first, to fix it yourself, thereby saving on costly repair bills." *frugal-rv-travel*

In his 18th century masterpiece, True Devotion to Mary, St. Louis de Montfort tells us that the quickest, easiest, and most efficacious path to Jesus is through the Blessed Virgin Mary. In her 1917 appearances at Fatima, Mary repeatedly urged us to pray the Rosary daily. Since Mary is the best path to Jesus and since she herself insists on daily recitation of the Rosary, Fr. Ed Broom has developed this powerful do-it-yourself retreat that culminates in the total consecration to Jesus through Mary by focusing on the Mysteries of the Rosary and the Seven Sorrows of Mary - and all it takes is a few moments each day! For years Fr. Ed Broom has transformed lives by leading this five-week retreat in Southern California. Now, for the very first time, that retreat is available in book form for those who cannot attend one of Father's retreats in person. Here you'll find the entire retreat program to bring you closer to Our Lady and to Our Lord: Scripture readings keyed to each Rosary decade, Fr. Broom's succinct meditations on each Mystery, daily prayers, and wise but practical steps to help you gain the most from each meditation as you draw daily closer to your retreat's culmination in the fifth week: your own Total Consecration to Jesus through Mary. Why not spend the next five weeks with Fr. Broom meditating on the mysteries of the Rosary and the words of Scripture? Do so, and you'll quickly come to appreciate as never before the beautiful prayer that is the Rosary as well as Jesus and Mary, whom you will soon know better and love more.
