An idiom is a group of words the actual meaning of which cannot easily be predicted from the specific meanings of the component words. Both the English and Russian languages are highly idiomatic. The use of idioms is natural to the speakers of a particular language, but has less or even no meaning to the speakers of another language. However, in any colloquial language there are also a host of overlapping idiomatic expressions, proverbs, phrases, and sayings which stretch the idiom definition. Moreover, there are often alternative words for certain words in an idiom, some idioms have more than one meaning, and extensive groupings have been made under certain major verbs and nouns. All these variations are given in this dictionary. This volume contains the most comprehensive dictionary of English to Russian and equivalent Russian to English idioms available worldwide today. There are in total about 10,000 entries of different idioms, but many have several alternatives in their groupings, which makes the overall total several times that number.

Collocation is an important tool in describing lexical behaviour in language and has received increasing attention in recent years. Based on two corpora: LOCNESS (the Louvain Corpus of Native English Essays) and MLC (the Non-English major Mainland Chinese Learner Corpus), this book explores the features of Chinese learner English with analysis of grammatical and lexical collocations. The findings show that Chinese university students use collocations with considerably less variety and Chinese language and culture exert a substantial influence on their English writing. It also discusses ways to tackle the problems Chinese English learners face and the pedagogical implications for teaching English and learning English collocations. As one of the first systematic studies to investigate collocations in Chinese learner English based on learner corpora, this book not only analyzes how Chinese learners use collocations in their English writing, but also provides significant implications for foreign language teaching and learning.
