The Atlas of North American English provides the first overall view of the pronunciation and vowel systems of the dialects of the U.S. and Canada. The Atlas re-defines the regional dialects of American English on the basis of sound changes active in the 1990s and draws new boundaries reflecting those changes. It is based on a telephone survey of 762 local speakers,

representing all the urbanized areas of North America. It has been developed by Bill Labov, one of the leading sociolinguists of the world, together with his colleagues Sharon Ash and Charles Boberg. The Atlas consists of a printed volume accompanied by an interactive CD-ROM. The print and multimedia content is also available online. Combined Edition: Book and Multimedia CD-ROM The book contains 23 chapters that re-define the geographic boundaries of North American dialects and trace the influence of gender, age, education, and city size on the progress of sound change; findings that show a dramatic and increasing divergence of English in North America; 139 four color maps that illustrate the regional distribution of phonological and phonetic variables across the North American continent; 120 four color vowel charts of individual speakers. The multimedia CD-ROM supplements the articles and maps by providing a data base with measurements of more than 100,000 vowels and mean values for 439 speakers; the Plotnik program for mapping each of the individual vowel systems; extended sound samples of all North American dialects; multimedia applications to enhance classroom presentations. Online Version: Book and CD-ROM content plus additional data The online version comprises the contents of the book and the multimedia CD-ROM along with additional data. It presents a wider selection of data, maps, and audio samples that will be recurrently updated; proffers simultaneous access to the information contained in the book and on the multimedia CD-ROM to all users in the university/library network; provides students with easy access to research material for classroom assignments. This book contains a collection of formal and informal reading assessments for use with students in Grades k-12. Unlike large-scale achievement tests, the majority of these assessments can be administered individually. Each assessment was selected because it measures an important

research-based reading skill and because it is quick, reliable, and easy to use. Each assessment provides clear and accurate individual student information. The assessments included in this book are informal assessments designed to measure specific skills critical to successful reading. Some of the assessments are curriculum-based, while others are criteria-based, depending on the purpose of the assessment. Similarly, some assessments target specific skills, some are instruments for broader screening, and some can be used for both types of assessment. Spanish assessments are provided for the early grades where many students may still be in bilingual programs or may be receiving Spanish primary language instruction before transitioning to English programs. Profile Forms and Class Records found in the Appendix provide an easy way for teachers to summarize assessment results. Appended are: (1) core Reading Assessment Profile Forms; (2) core Reading Assessment Class Records; (3) Performance Criteria for Fluency and Fluency Scores: a Discussion; (4) Assessment-Driven Instruction: a Systems Approach; and (5) Resources for Assessing Reading. [Contributing authors include: Orna Lenchner, Michael Milone, and Jacalyn Mahler.].

Emblem books, which feature combinations of images and text with a moral lesson for the reader, grew out of the Renaissance and were most popular in the Netherlands. Enigmatic, erudite, and often pious, Dutch love emblems synthesized the traditions of European visual and literary arts—and in turn influenced architecture, painting, poetry, and interior design for centuries to come. Learned Love offers an introduction to this enthralling genre and celebrates the completion of Emblem Project Utrecht, an undertaking that
