Unique! Full-color anatomy plates (including Netter's Anatomy art) are included in a separate section for easy reference and cross-referenced within the Tabular List of Diseases and Injuries, to help users understand anatomy and how it may affect choosing codes. Items are included throughout the Tabular List to ensure accurate coding, providing additional information on common diseases and conditions. Additional elements within specific codes define terms and add coding instructions relating to difficult terminology, diseases and conditions, or coding in a specific category. Symbols and highlights draw attention to codes that may require special consideration before coding, including: new, revised, and deleted Unacceptable Principle Diagnosis Codes that call for the use of additional character(s) Includes, Excludes 1 and Excludes 2 Use Additional Unspecified Code First and Code Also Placeholder X symbol reminds users to assign placeholder X for codes less than 6 characters that require a 7th character. Manifestation code symbol identifies conditions for which it is important to record both the etiology and the symptom of the disease. HCC symbol indicates diagnoses in the Tabular List associated with Hierarchical Condition Categories. Age and Sex edits from the Definition of Medicare Code Edits help to ensure accuracy by denoting codes that are used only with patients of a specific age or sex. NEW! Compare our prices! The purpose of this study guide is to assist candidates in preparing for the NCTR national certification examination for Certified Therapeutic Recreation Specialists. We are excited to tell you that this fifth edition of the Study Guide for the Therapeutic Recreation Specialist Certification Examination has changed significantly from previous editions. This is largely due to two reasons: (a) the National Council for Therapeutic Recreation Certification (NCTR) has recently updated the Job Analysis, which helps structure the content of the test, and (b) the computerized test has a newer format of a 150-item test. Therefore, we have restructured the Study Guide to align more closely with the most recent NCTR exam content and format. In addition, we added over 100 new items for a total of over 850 practice test items! The Study Guide offers over 250 random practice items, plus four practice exams, each with 150 items distributed across the job analysis that mirrors the national exam. In preparing this Study Guide, our mission is two-fold: (a) to provide information that helps candidates reduce test anxiety and maximize test performance; and (b) to provide numerous sample questions, similar to those actually found on the exam, that will allow candidates to practice and self-assess their own readiness for the test. For many individuals, the thought of taking a certification examination can be unsettling. We often hear statements such as, I have never taken a comprehensive exam. There is so much information. How do I learn it all? Miller Test Prep's study guide for the PERT is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. We compiled their decades of experience helping students just like you into this study guide, so you pass the first time!
