the same authors -- this volume sets a new standard for high-level, up-to-date research presented in a core knowledge format that is practical, relevant, and easy to follow. Part One features chapters on the nature of Scripture and the religious and political background of the New Testament. Part Two covers the Gospels in the canonical order, Matthew, Mark, Luke, and John. Part Three uses Acts as the framework for treating Paul's letters in chronological written order: Galatians, 1-2 Thessalonians, 1-2 Corinthians, Romans, and the Prison and Pastoral Epistles (Philippians, Ephesians, Colossians, Philemon, and 1-2 Timothy and Titus, respectively). Part Four includes discussions of the General Epistles (Hebrews, James, 1-2 Peter, 1-3 John, Jude) and Revelation. Each chapter clearly discusses the book's key facts, contribution to the canon, historical setting, literary features, and theological message. In all, *The Lion and the Lamb* makes this learning exciting and rewarding.

The Washington Historical Quarterly

There is a stark contrast between the overarching importance of history writing in imperial China and the meagerness of historical texts from the centuries preceding the imperial unification of 221 BCE. However, recently discovered bamboo manuscripts from the Warring States period (453–221 BCE) have changed this picture, leading to reappraisals of early Chinese historiography. These manuscripts shed new light on questions related to the production, circulation, and audience of historical texts in early China; their different political, ritual, and ideological usages; and their roles in the cultural and intellectual dynamics of China's vibrant pre-imperial age. *Zhou History Unearthed* offers both a novel understanding of early Chinese historiography and a fully annotated translation of *Xinian* (String of Years), the most notable historical manuscript from the state of Chu. Yuri Pines elucidates the importance of *Xinian* and other recently discovered texts for our understanding of history writing in Zhou China (1046–255 BCE), as well as major historical events and topics such as Chu's cultural identity. Pines explores how *Xinian* challenges existing interpretations of the nature and reliability of canonical historical texts on the Zhou era, such as *Zuo zhuan* (Zuo Tradition/Commentary) and *Records of the Historian* (Shiji). A major work of scholarship and translation, *Zhou History Unearthed* sheds new light on early Chinese history and historiography, demonstrating how new archaeological findings are changing our knowledge of China's pre-imperial days.

United States Code: Organic laws; Title 1-General provisions to Title 5-Government organization and employees, [sections] 101-5949

Preface 2012 edition: The United States Code is the official codification of the general and permanent laws of the United States. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First session, enacted between January 3, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office. -- John. A. Boehner, Speaker of the House of Representatives, Washington, D.C., January 15, 2013--Page VII.

Volume 6 looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings. The authors examine how the lingual diversity of the region has affected the historian's ability to coalesce an historical account. The second half of the volume describes the writing of history in the individual territories, taking into account changes in society, economy and political structure. This volume concludes with a detailed bibliography that is comprehensive of the entire series.
