Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

In 2019, the AIs went to war. Three days later, hundreds of nuclear missiles were launched. The electromagnetic pulse destroyed the machines, but the radiation and ensuing famine nearly destroyed humanity. By 2039, civilisation had regressed to the age of steam, but newer technologies were on the horizon. The future looked bright until the warlords swept through Europe. Villages and towns were laid waste, the few thousand people who'd hacked out a life in the continental wasteland were butchered. It was only when the barbarians reached the British garrison in Calais that they were stopped. And so, another war began. In Dover, life goes on. Food needs to be grown. Children need to be taught. For Ruth Deering, the city's newest police officer, crimes need to be solved. When an artist is murdered, an investigation begins that will take her far beyond the city's walls and, ultimately, determine the fate of their fragile democracy. Set in Britain and France, twenty years after the world we know was destroyed.

As nations rebuild, democracy is under threat. In 2019, the AIs went to war. Millions died before a nuclear holocaust brought an end to their brief reign of terror. Billions more succumbed to radiation poisoning, disease, and the chaotic violence of that apocalypse. Some survived. They rebuilt. Twenty years later, civilisation is a dim shadow of its former self. Crime is on the rise. During the investigation of a routine homicide, Police Officer Ruth Deering prevents a group, claiming to be Luddites, from destroying the telegraph. This act of sabotage is only the beginning. As arrests are made and criminals are caught, evidence emerges that the saboteurs are connected to the AIs, the counterfeiting, and to the assassination. The shadowy figure behind the conspiracy must be unmasked before their fragile democracy is destroyed.

Terrorist attacks. Natural disasters. Domestic crackdowns. Economic collapse. Riots. Wars. Disease. Starvation. What can you do when it all hits the fan? You can learn to be self-sufficient and survive without the system. **I've started to look at the world through apocalypse eyes.** So begins Neil Strauss's harrowing new book: his first full-length works in the international bestseller *The Game*, and one of the most original and provocative narratives of the year. After the last few years of violence and terror, of ethnic and religious hatred, of tsunamis and hurricanes—and now of world financial meltdown—Strauss, like most of his generation, came to the sobering realization that, even in America, anything can happen. But rather than watch helplessly, he decided to do something about it. And so he spent three years traveling through a country that's lost its sense of safety, equipping himself with the tools necessary to save himself and his loved ones from an uncertain future. With the same quick wit and eye for cultural trends that marked *The Game*, *The Dirt*, and *How to Make Love Like a Porn Star*, *Emergency* traces Neil's white-knuckled journey through today's heart of darkness, as he sets out to move his life offshore, test his skills in the wild, and remake himself as a gun-toting, plane-flying, government-defying survivor. It's a tale of paranoid fantasies and crippling doubts, of shady lawyers and dangerous cult leaders, of billionaire gun nuts and survivalist superheroes, of weirdos, heroes, and ordinary citizens going off the grid. It's one man's story of a dangerous world—and how to stay alive in it. Before the next disaster strikes, you're going to want to read this book. And you'll want to do everything it suggests. Because tomorrow doesn't come with a guarantee

The undead rose. Nations collapsed. Some people survived. Three months after escaping from London, Bill discovers the true extent of the global war that followed the outbreak. Most of the world has been destroyed, but there is a safe haven in a small village on the Irish coast. When he is told of the sanctuary awaiting them, he also discovers that the scientist who created the virus escaped from New York. In order for any of them to ever truly be safe, Bill will have to head north to confront the man, discover the truth behind the outbreak and finally choose between his old family and his new one. This is the third volume of his journal. This story of an undead Britain continues in *Unsafe Haven*. The outbreak in New York, and Sholto's attempt to destroy the cabal behind it are told in *Here We Stand: Infected*. Other books in the series: 1: *London*. 2: *Wasteland*. (Zombies vs The Living Dead) 3: *Family*. 4: *Unsafe Haven*. 5: *Reunion*. 6: *Harvest*. 7: *Home*. & *Here We Stand 1: Infected* & 2: *Divided*. Post-apocalyptic detective novels: *Serious Crimes*, *Counterfeit Conspiracy* & *Work, Rest, Repeat*.

TIMELINER! The fascinating and provocative story of Hugh Macklin—an alien lost in endless futures—fighting desperately to return to his own era. He had a good life in our time with a beautiful wife and a promising career. Then, without warning, in a fraction of a second, he was shot 80 years into the future. He was out ahead of everything he knew, excavating for uranium on the moon in another man's body! Here is a provocative story of tomorrow and of one man forced to fight through future eras to return to his own world and his own identity. "Excellent!"—NEW YORK POST "Fast pacedEntertainingThought-Provoking!"—DURHAM HERALD "Time and the Future Adroitly Manipulated!"—NEWPORT NEWS "Loaded With Excitement!"—SPRINGFIELD NEWS

Zombie Zora (Book 1- Zora Baker series)If you are a crackerjack shot, the army will overlook your spacing out, but not following

Book 2 Wasteland

orders, they might just throw you to the zombies with a smile. 19-year-old Zora Baker has dozens of problems. She never said she was army material. To keep her out of trouble, they assign her to a rescue squad with Brittany and Matthew. They get separated and as they make their way back to camp, they face old zombies with missing limbs, new fast zombies that leap out of nowhere, people in the midst of the change, and hordes of scavengers eking out an existence. Can they make it back with information to destroy the zombies? Will zombies take them out? What about the scavengers? How many can they take out before it is their turn? Those questions are meaningless. Zora's mission: deliver the information and get back to her brother. Anyone or anything that gets in the way of that goal will get put down. Cross her at your own peril. Watch out Zombie World, here she comes and she plans on sending you all to Hell-Screaming!

The classic study of human nature which depicts the degeneration of a group of schoolboys marooned on a desert island.

A Pulitzer Prize-winning doctor, reporter and author of War Hospital reconstructs five days at Memorial Medical Center after Hurricane Katrina destroyed its generators to reveal how caregivers were forced to make life-and-death decisions without essential resources. Reprint. A best-selling book. On the NYT list of 10 Best Books of 2013.

THEY WON'T STAY DEAD. A band of road-weary survivors struggling to find refuge from the living dead. A family sticking together, barricaded in their home while the living dead besiege the town. Scientists working under the thumb of the United States government in the Mount Weather Special Facility are trying desperately to understand why the dead are returning to life, and they might have found out why **STAY DEAD**, the first novel in the series, is a fast-paced journey through the ruined streets of a world gasping for one last breath. It blends action and adventure into a dreadfully bleak look at what the inevitable zombie apocalypse will look like.

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babbette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

Advance Praise for *The Rescue* "Steven Trent Smith grapples boldly with several big subjects: the Japanese occupation of the Philippines; the capture of Japan's 'Z Plan' (the decisive-battle strategy for destroying the U.S. Pacific Fleet); the rescue by submarine of forty Americans stranded in the Philippines; the climactic Battle of the Philippine Sea. Meticulously researched and well written, *The Rescue* ties these elements together into an epic that is emotionally engaging from start to rousing finish."—Martin Russ, author of *Breakout and The Last Parallel* "Smith's thoroughly researched, detailed account of the brave American and Filipino guerrillas on Negros Island in the Philippines will do much to introduce readers to this little-known aspect of World War II in the Pacific. Operating in the most primitive conditions, suffering the deprivations of living and fighting in the wild, these guerrillas were a formidable army and did much to win the war for the Allies in World War II. And the courageous and resourceful submariners of the USS *Creville* of the Pacific Fleet went well beyond the call of duty to rescue their fellow Americans from harm's way. This is a fascinating story well told."—Elizabeth Norman, author of the award-winning *We Band of Angels: The Untold Story of American Nurses Trapped on Bataan by the Japanese* "The *Rescue* is a delightful journey with the gallant few who resisted the Japanese occupation of the Philippines and who shaped the larger events which led to victory in the Pacific. Smith's brilliant research and unique storytelling make this account a must for all who enjoy history and a grand adventure."—Peter Huchthausen, author of *Hostile Waters* "With a photojournalist's eye for action and detail, Steven Trent Smith's *The Rescue* is a remarkable achievement. The incredible mission to save forty Americans stranded in the Philippines reads more like a work of fiction. This story could easily grace the big screen of your local movie theater, with a plot filled with non-stop action, amazing twists of fate, and an incredible cast of characters, complete with a climax that's certain to get the pulse pounding. A must-read for all those interested in one of the great secret submarine operations of World War II and all action adventure fans alike!"—Richard P. Henrick, author of *Crimson Tide* and *Nightwatch*

A Handful Of Survivors For thirty years, they have avoided the outbreak of walking death that has consumed America's heartland. They have secured a small compound near the ruins of Tulsa, Oklahoma. Isolated from the world. Immune to the horror. Blissfully unaware of what lies outside in the region known as the Dead Lands. Until now. . . A New Generation Of Explorers Led by a military vet who's seen better days, the inexperienced offspring of the original survivors form a small expedition to explore the wastelands around them. A biologist, an anthropologist, a photographer, a salvage expert—all are hoping to build a new future from the rubble, which they call the "Dead Lands." Until all hell breaks loose. . . A Land Of Dead The infected are still out there. Stalking. Feeding. Spreading like a virus. Wild animals roam the countryside, hunting prey. Small pockets of humanity hide in the shadows: some scared, some mad, all dangerous. This is the New World. If the explorers want it, they'll have to take it. Dead or alive. . . Praise for Joe McKinney's novels "A merciless, fast-paced and genuinely scary read that will leave you absolutely breathless." --Bram Stoker Award-winning author Brian Keene on *Dead City* "A rising star on the horror scene." --Fearnet.com

Book 3: Family/The undead rose. Nations collapsed. Some people survived. Three months after escaping from London, Bill discovers the true extent of the global war that followed the outbreak. Most of the world has been destroyed, but though ruined farmland and abandoned cities are filled with zombies, there are other survivors and there is a safe haven, so he is told, in a small village on the Irish coast. Before he can go there, he must find and rescue the children. Then he will have to battle his way through the infected wastelands of England and Wales in the hope that their really is a boat waiting for them. Even then, his journey won't be over. When he is told of the sanctuary awaiting them, he also discovers that the scientist who created the virus escaped from New York. In order for any of them to ever truly be safe, Bill will have to head north to confront the man, discover the truth behind the outbreak and finally choose between his old family and his new one. This is the final volume of his journal. *Zombies vs The Living Dead* The outbreak began in New York. Within days it had spread throughout the world. Nowhere is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The press was nationalised, martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. For George Tull and the other residents of the Waverly-Price Retirement Home, walking to the coast is not an option. Abandoned by the staff, they wait for rescue. It doesn't come. When George leaves the illusory security of The Home and ventures into the nearby village, he finds it deserted. But he is not alone, his unhappy retirement is broken by the undead. George is left with a terrible choice; stay and fight to save the people he loathes, or leave and abandon the woman he has come to love.

Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer

Book 2 Wasteland

Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

Billions died during the global civil war that followed the outbreak. Anarchy took grip. Chaos ruled. The world collapsed. In Britain, the evacuation failed. Nowhere was safe from the undead. Four months after the outbreak Bill Wright has found safety in a ruined Abbey in southern England, but he is still alone. All he has for company are the files sent to him by his shadowy contact, Sholto. On those, he believes he has found the origins of the undead, and the vast conspiracy in which he discovers he played an unwitting part. He needs answers, and knows the only place they will be found is at the facility that created the virus. As he journeys through the desolate ruins of a dead civilisation, he meets other survivors. He rescues some, is rescued by others, but ultimately discovers that zombies are not the most deadly threat in an undead wasteland. This is the second volume of his journal. (76,000 words)

Billions were infected. Nations fell. The evacuation failed. Bill Wright's journey has only one destination, the research facility that created the virus. As he meets other survivors in his struggle across the wasteland to reach it, he discovers that it is not just the undead who need to be feared. This is the second volume of his journal.

Sixty years ago the world was wrecked during a terrible war. The soil was poisoned. The air became toxic. Billions died. Those who survived took refuge in great towered cities, and began constructing giant colony ships that would enable them to escape the ruined Earth. The work wasn't completed in their lifetime. The seas rose to swamp the diseased land, and lap against the city walls. Their descendants laboured on, and now the first of the spaceships is nearing completion. But these cities aren't dictatorships. An election is scheduled to choose a leader for this last exodus of humanity. With twenty-four hours until voting is due to begin, two workers are murdered. It is the first serious crime in generations, and it is down to the young Constable Ely to solve it. The election must take place. The ships must be launched. Above all, production must come first. A dystopian detective novel from the author of *Surviving The Evacuation 1: London*, *2: Wasteland*, *3: Family 4: Unsafe Haven*, *5: Reunion*, *6: Harvest*, *7: Home*. *Zombies vs The Living Dead*

FIGHT 4 US: GHOSTS is the tenth book of the series and picks up shortly after the tragic aftermath that occurred in the ninth book **FIGHT 4 US: SETTLEMENT**. Ryan will be forever changed going forward as he continues to lead his Brotherhood and protect his community of Citrus Oaks.

In an undead world, zombies aren't the greatest threat. The outbreak began in February. Nations went to war. Governments collapsed. Billions died in the chaos and anarchy that followed. Billions more were infected. They died. They came back. It is now October and out of the tens of millions who lived in southern England only ninety people remain. They sought sanctuary behind the ancient walls of the Tower of London, but it was only a temporary refuge. There is no more food to be scavenged from the ruins of the old world. Their water supply is polluted. As the days get shorter, the weather worsens, and people begin to get sick. They have been betrayed and are besieged by the living and undead alike. Over their heads hangs the threat of a last catastrophic weapon. This spectre of the old world conspiracy that brought the living dead to plague the Earth leaves them with a terrible decision. Some must be sacrificed so that amidst the horror others might find somewhere in the undead wasteland that they can call home. (80,000 words)

"This page-turning true-life adventure is filled with rich and riveting details and a timeless understanding of the things that matter most."—Dashka Slater, author of *The 57 Bus* "Brilliantly told in verse, readers will love Ken Sparks." —Patricia Reilly Giff, two-time Newbery Honor winner "Lyrical, terrifying, and even at times funny. A richly detailed account of a little-known event in World War II." —Kirkus Reviews "Middle grade Titanic fans, here's your next read." —BCCB "An edge-of-your-seat survival tale." —School Library Journal (starred review) A Junior Library Guild Selection A 2019 Golden Kite Middle Grade Fiction Award Winner In the tradition of *The War That Saved My Life* and *Stella By Starlight*, this poignant novel in verse based on true events tells the story of a boy's harrowing experience on a lifeboat after surviving a torpedo attack during World War II. With Nazis bombing London every night, it's time for thirteen-year-old Ken to escape. He suspects his stepmother is glad to see him go, but his dad says he's one of the lucky ones—one of ninety boys and girls to ship out aboard the SS City of Benares to safety in Canada. Life aboard the luxury ship is grand—nine-course meals, new friends, and a life far from the bombs, rations, and his stepmum's glare. And after five days at sea, the ship's officers announce that they're out of danger. They're wrong. Late that night, an explosion hurls Ken from his bunk. They've been hit. Torpedoed! The Benares is sinking fast. Terrified, Ken scrambles aboard Lifeboat 12 with five other boys. Will they get away? Will they survive? Award-winning author Susan Hood brings this little-known World War II story to life in a riveting novel of courage, hope, and compassion. Based on true events and real people, Lifeboat 12 is about believing in one another, knowing that only by banding together will we have any chance to survive.

There are two choices in Soteria: follow the rules or die. Tyson Anderson refuses to conform. He needs a third choice. It's 2059. The air is toxic. The wealthy live underground in prison-like control while the less fortunate fend for themselves on the surface. Tyson is days away from taking part in the compulsory Marriage Lottery. Can he bring himself to marry a stranger, or will he attempt the impossible and try to escape Soteria? Brie Kallas is searching for the same desperate freedom. On the run after committing murder, she faces the poisonous syndrome and barbaric vigilantes of the Earth's surface, while trying to outwit the ruthless Humanist Union. As their journeys bring them closer together their struggle for survival uncovers sinister truths and secret agendas. Will they find freedom or will they learn that in Soteria there will only ever be two choices? End of Pride is a confronting dystopian thriller that propels readers into a future that's horrifyingly believable. With themes akin to *The Handmaid's Tale*, the *Soteria Trilogy* will make you reevaluate what you take for granted.

Glen Carter had it all: a wife, a family, a thriving medical practice ... until tragedy struck and the life he once adored was nothing more than a heartbreaking memory. With few resources and little knowledge of how to survive without the conveniences of modern life, he dissolves into the woods, where he finds forgiveness and embraces life off the grid. Then, once again, his life is upended ... An impending solar storm threatens the earth, but governing bodies have opted to keep that information close to the vest. But their attempts fail. The storm devastates the electrical grids and leaves the world in chaos. That is, everyone except Glen ... for now. Keywords: EMP, emp survival, Post-Apocalyptic, EMP Fiction, survival books free, dystopian, EMP Apocalyptic Survival Fiction, End of the World Survival Fiction, SHTF Fiction, Post Apocalyptic Survival Fiction No Zombies, End of the World Survival Fiction, Prepper Survival Fiction, EMP Apocalyptic Survival Fiction, prepper fiction, post survival fiction

Tells the gripping true story of a U.S. airman who was the soul survivor when his bomber crashed into the sea during World War II and had to face thousands of miles of open ocean, leaping sharks, a foundering raft, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. By the #1 best-selling author of *Seabiscuit*. 200,000 first printing.

Book 2 Wasteland

The battle might be lost, but the war isn't over. Once it was home to half a billion people. A year after the nuclear war, Europe is a radioactive, storm-ravaged wasteland through which a hundred million undead inexorably march. In their wake, they leave nothing but ruins. Ahead of them flee those few who managed to survive this long. Chasing them are the dregs of humanity. Once known as the Rosewood Cartel, they kill, loot, and destroy as indiscriminately as the living dead. Hope might be lost, but it could still be found, as can a future for the last remnant of humanity. Those who built a sanctuary on Anglesey, in Dundalk, in Creil are the help that came to others. In this, their darkest hour, but with a new dawn so close, they will not give up. Set in the Faroe Islands, France, Denmark, and elsewhere, the battle has begun, but the war hasn't yet been lost. Please note, this book contains characters and events that first appeared in Outback Outbreak.

Against all odds, Katniss Everdeen has won the annual Hunger Games with fellow district tribute Peeta Mellark. But it was a victory won by defiance of the Capitol and their harsh rules. Katniss and Peeta should be happy. After all, they have just won for themselves and their families a life of safety and plenty. But there are rumors of rebellion among the subjects, and Katniss and Peeta, to their horror, are the faces of that rebellion. The Capitol is angry. The Capitol wants revenge.

A new dystopian/post-apocalyptic series from a New York Times bestselling author My name is Theo, and I'm a resident of Oasis, the last habitable area on Earth. It's meant to be a paradise, a place where we are all content. Vulgarity, violence, insanity, and other ills are but a distant memory, and even death no longer plagues us. I was once content too, but now I'm different. Now I hear a voice in my head, and she tells me things no imaginary friend should know. Her name is Phoe, and she is my delusion. Or is she? Note: This book contains some strong language. We felt it was important for the censorship theme of the novel. If such words offend you, you might not enjoy this book.

Trapped. Alone. Unconcerned. Eight months after the outbreak, Bill Wright is trapped during a survey mission in Ireland. Surrounded by the undead, low on food and lower on water, he's been in this situation before. Unlike before, help is only a rifle shot away. While waiting for the rescue he's sure will come, he records the turbulent events since his last entry. The Welsh island of Anglesey has become a sanctuary for survivors from across the zombie-infested world. It has electricity, wheat, and not much else. Medicines and equipment, plants and fertiliser, books and batteries, and so much more are needed if this last bastion of civilisation is to survive. Scavenging expeditions depart for Svalbard, Liverpool, and the southern Atlantic, but a discovery is made far nearer, one which will change the fate of all those who've come to call Anglesey home. Set on Anglesey, in Bangor and Caernarfon, and in the Republic of Ireland, Bill's journals continue. It's recommended that you read the spin-off stories, Here We Stand 1: Infected & 2: Divided, before this novel. Surviving the Evacuation continues in Book 9: Ireland. Other books in the series: 1: London. 2: Wasteland. (Zombies vs the Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. Book 8: Anglesey. Book 9: Ireland. Post-apocalyptic detective novels: Serious Crimes, Counterfeit Conspiracy & Work, Rest, Repeat.

In the final days of World War II, Koreans were determined to take back control of their country from the Japanese and end the suffering caused by the Japanese occupation. As an eleven-year-old girl living with her Japanese family in northern Korea, Yoko is suddenly fleeing for her life with her mother and older sister, Ko, trying to escape to Japan, a country Yoko hardly knows. Their journey is terrifying—and remarkable. It's a true story of courage and survival that highlights the plight of individual people in wartime. In the midst of suffering, acts of kindness, as exemplified by a family of Koreans who risk their own lives to help Yoko's brother, are inspiring reminders of the strength and resilience of the human spirit.

In the sequel to Resurrection, as Parker, Annie, Kyle and Hughes begin their journey across a shattered and empty continent, Parker spins into a psychological abyss of post-traumatic stress, and the feud between him and Kally hurtles toward a dangerous tipping point. They find a small seemingly friendly city near Wyoming's Wind River Mountains, so isolated that it survived the plague nearly intact. But all is not as it seems, and when residents of the town discover Annie's secret at the same time the infected reappear with a terrifying ferocity, the fate of all survivors--the entire human race--hangs in the balance. "Riveting! Nail biting! A couldn't-put-down read that kept this Walking Dead fan on the edge of her seat." - Annie Reed, author of The Patient Z Files Critical praise for Resurrection: A Zombie Novel "For fans of World War Z and The Walking Dead, Michael J. Totten's Resurrection is the novel you've been waiting for." - Scott William Carter, author of Ghost Detective "Resurrection dragged me in from the first page, with fast-paced, suspense-filled action and multi-layered and totally believable characters. Painting a vivid and gritty picture of a post-apocalyptic Northwest, Totten puts us into the minds and emotional struggles of a group of mismatched survivors forced to band together for protection even when they're on the verge of ripping each other apart. He also wrote one of the scariest passages I've read in any horror or suspense story so I was warned if you're afraid of the dark, or water, or both." - JC Andrijeski, author of Rook

The tranquility of Mars is disrupted by humans who want to conquer space, colonize the planet, and escape a doomed Earth.

In A World Of Death. . . First, the dead rose up--and civilization fell. Those who survived struggled to rebuild, creating makeshift societies with harsh new rules and harsher punishments. Some would be leaders, others slaves. But none would ever be safe from the walking death. Humanity's Last Hope. . . Off the coast of Texas, an island research facility offers sanctuary, supplies--and hope--to a desperate trio of survivors. But when they learn what the scientists are doing, how their experiments could unleash armies of the undead, they have no choice but to fight back. Kill Them All. . . Dead or alive, the enemy drives the survivors to run and hide--in the last place any human wants to go. Underground. In the tunnels below. Where the dead hunt in herds. . . and the survivors' numbers are dwindling. . .

The horror of Hurricane Katrina is brought vividly to life in this fictional account of a boy, a dog, and the storm of the century. Barry's family tries to evacuate before Hurricane Katrina hits their home in New Orleans. But when Barry's little sister gets terribly sick, they're forced to stay home and wait out the storm. At first, Katrina doesn't seem to be as bad as predicted. But overnight the levees break, and Barry's world is literally torn apart. He's swept away by the floodwaters, away from his family. Can he survive the storm of the century -- alone?

A practical and comprehensive guide to surviving the greatest disaster of our time, from New York Times bestselling self-help author and beloved CBS Sunday Morning science and technology correspondent David Pogue. You might not realize it, but we're already living through the beginnings of climate chaos. In Arizona, laborers now start their day at 3 a.m. because it's too hot to work past noon. Chinese investors are snapping up real estate in Canada. Millennials have evacuation plans. Moguls are building bunkers. Retirees in Miami are moving inland. In How to Prepare for Climate Change, bestselling self-help author David Pogue offers sensible, deeply researched advice for how the rest of us should start to ready ourselves for the years ahead. Pogue walks readers through what to grow, what to eat, how to build, how to insure, where to invest, how to prepare your children and pets, and even where to consider relocating when the time comes. (Two areas of the country, in particular, have the requisite cool temperatures, good hospitals, reliable access to water, and resilient infrastructure to serve as climate havens

Book 2 Wasteland

in the years ahead.) He also provides wise tips for managing your anxiety, as well as action plans for riding out every climate catastrophe, from superstorms and wildfires to ticks and epidemics. Timely and enlightening, *How to Prepare for Climate Change* is an indispensable guide for anyone who read *The Uninhabitable Earth* or *The Sixth Extinction* and wants to know how to make smart choices for the upheaval ahead.

The outbreak changed everything, but there are some bonds even the undead can't break. It's been six years since Pete Guinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead. As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge. Set in Broken Hill and beyond as the Australian quarantine begins. As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.

A field-tested guide to surviving a nuclear attack, written by a revered civil defense expert. This edition of Cresson H. Kearny's iconic *Nuclear War Survival Skills* (originally published in 1979), updated by Kearny himself in 1987 and again in 2001, offers expert advice for ensuring your family's safety should the worst come to pass. Chock-full of practical instructions and preventative measures, *Nuclear War Survival Skills* is based on years of meticulous scientific research conducted by Oak Ridge National Laboratory. Featuring a new introduction by ex-Navy SEAL Don Mann, this book also includes: instructions for six different fallout shelters, myths and facts about the dangers of nuclear weapons, tips for maintaining an adequate food and water supply, a foreword by "the father of the hydrogen bomb," physicist Dr. Edward Teller, and an "About the Author" note by Eugene P. Wigner, physicist and Nobel Laureate. Written at a time when global tensions were at their peak, *Nuclear War Survival Skills* remains relevant in the dangerous age in which we now live.

"By the author of the award-winning *To Be a Machine*, a deeply considered look at the people and places in confrontation with the end of our days. We're alive in a time of worst-case scenarios: The weather has gone uncanny, volatile. Our old post-war alliances are crumbling. Everywhere you look there's an omen, a joke whose punchline is the end of the world. How are we to live in the shadow of such a grim future? What does the world hold for our children? What might it be like to live through the worst? And what is anybody doing about it? Dublin-based writer Mark O'Connell ("wryly humorous, cogently insightful"--NPR) is possessed by these questions. In *Notes from an Apocalypse*, he crosses the globe in pursuit of answers. He tours survival bunkers in South Dakota. He ventures to New Zealand, a favored retreat of billionaires banking on civilization's collapse. And he bears witness to those places where the future has already arrived--real-life portraits of the end of the world as we know it. In doing so, he offers us a unique window into our apocalyptic imagination. Part tour, part pilgrimage, *Notes from an Apocalypse* is an affecting and hopeful meditation on our alarming present tense. With insight, humanity, and wit, O'Connell leaves you to wonder: What if the end of the world isn't the end of the world?"--

A book judged so dangerous in the Soviet Union that not only the manuscript but the ribbons on which it had been typed were confiscated by the state, *Life and Fate* is an epic tale of World War II and a profound reckoning with the dark forces that dominated the twentieth century. Interweaving a transfixing account of the battle of Stalingrad with the story of a single middle-class family, the Shaposhnikovs, scattered by fortune from Germany to Siberia, Vasily Grossman fashions an immense, intricately detailed tapestry depicting a time of almost unimaginable horror and even stranger hope. *Life and Fate* juxtaposes bedrooms and snipers' nests, scientific laboratories and the Gulag, taking us deep into the hearts and minds of characters ranging from a boy on his way to the gas chambers to Hitler and Stalin themselves. This novel of unsparing realism and visionary moral intensity is one of the supreme achievements of modern Russian literature.

Not all people died. Not all gave up hope. The outbreak was in February. By the end of November, Earth has become a hellish wasteland ravaged by the undead. Survivors from across the Atlantic seaboard took refuge on the Welsh island of Anglesey. Beset by dangers from within, they departed to establish a new refuge in Belfast. Not all of them arrived. Six took the last plane on its last flight, but crashed in France. Expecting a sprinting battle through the ruins of Belfast, they packed light. With few weapons and barely any food, their chances of survival are slim. The chances of rescue are slimmer. There was no evacuation in France. No quarantine. No rationing. But there are zombies, and there are people who believe they, alone, are the last survivors of the old-world. So begins a frantic race against the undead, through the snow and storm ravaged ruins of Northern France.
