Dr Mike Moreno's 17 Day Diet is a revolutionary new weight-loss programme that activates your skinny gene so that you burn fat day in and day out. The diet is structured around four 17-day cycles: Accelerate-the rapid weight loss portion that helps flush sugar and fat storage from your system; Activate-the metabolic restart portion with alternating low and high calorie days to help shed body fat; Achieve - this phase is about learning to control portions and introducing new fitness routines; Arrive - A combination of the first three cycles to keep good habits up for good. Each cycle changes your calorie count and the food that you're eating. The variation that Dr. Mike calls 'body confusion' is designed to keep your metabolism guessing. This is not a diet that relies on a tiny list of approved foods, gruelling exercise routines, or unrealistic calorie counts that leave you hungry and unfulfilled. Each phase comes with extensive lists of what dieters can and can't eat while on the phase, but also offers acceptable cheats. He advises readers not to drink while on the diet, but concedes that if they absolutely have to then they should at least drink red wine. Dr Mike knows that a diet can only work if it's compatible with the real world, and so he's designed the programme with usability as a top priority.

Discover the original international diet sensation—used by Adele, heavyweight champion David Haye, and Pippa Middleton—that will help you lose seven pounds in seven days while experiencing lasting energy and eating all the foods you love. Over the past few years, fasting has become a popular diet option. Studies show that fasting—whether through moderate calorie restriction every day or the more severe but less frequent intermittent fasting—can help people lose about thirteen to fourteen pounds in six months and reduce their risk of developing disease. When we fast, our body's energy stores activate what is known as sirtuins, or the “skinny gene,” and many positive changes ensue. Fat storage is switched off, and our body stops its normal growth processes and goes into “survival” mode. Fat burning is stimulated and the genes involved in the repair and rejuvenation of our cells are turned on—which all results to weight loss and improved resistance to disease. But if not done correctly, fasting can lead to hunger, irritability, fatigue, and loss of muscle. Enter Sirtfoods: a newly discovered group of foods that is revolutionizing healthy eating. Ranging from chocolate and red wine to garlic and walnuts, sirtfoods are particularly rich in special nutrients that help us activate the same skinny genes in our bodies that fasting triggers. Nutritionists Aidan Goggins and Glen Matten have created The Sirtfood Diet to help you effectively lose weight and improve your resistance to disease, while still giving you incredible energy and glowing health.

In addition, the Mediterranean diet is considered one of the best because it slows the aging process and prevents the development of atherosclerosis. This food system is characterized by an abundance of plant foods such as fruits, vegetables, bread, various types of cereals, legumes, nuts. Fresh fruit is usually used as a typical daily dessert and olive oil as the main source of fat. Dairy products, especially cheese and yogurt, as well as fish and poultry are consumed in smaller quantities. It is interesting that wine is consumed mainly during meals. The DASH diet is an easy-to-follow plan to lose weight, increase energy, and lower blood pressure with 100 recipes; consistently ranked the #1 overall diet by U.S. News & World Report. The original DASH diet plan (Dietary Approaches to Stop Hypertension) was developed to lower blood pressure without medication. Since then, numerous studies have shown that the DASH diet reduces the risk of many diseases, including some kinds of cancer, stroke, heart disease, heart failure, kidney stones, and diabetes. It has been proven to be an effective way to lose weight and become healthier at the same time. Beginning with an easy-to-read, non-scientific explanation of DASH and its benefits, DASH for Weight Loss is a comprehensive plan that includes menus, recipes, exercise prescriptions, weight-loss tools, and all the need-to-know information for setting up a DASH kitchen and getting started right away. The book will teach followers how they can adapt DASH to gluten-free, vegan, vegetarian, and dairy-free eating styles, and will include resources like substitution lists, a grain cooking guide, and basic vegetable cooking charts.
