Scottish folk literature is characterised by a wide range of creative expression: story, song, play and proverb. This anthology, first published in 1984, provides an authoritative introduction to Scottish folk literature, and is unique in that it deals with all the genres intrinsic to Scottish tradition. Its selected texts offer an unusual and diverse enjoyment to the reader, including such forms as wonder tales or Märchen, classical ballads, riddles, jocular tales, lyric and comic and occupational folksongs, rhymes, historical and supernatural legends, and guisers' plays. The texts chosen cover the main regional traditions of Lowland Scotland, from Galloway to the Shetlands, and span a number of centuries, through both pre- and post-industrial periods, from a sailor's worksong of the sixteenth century to modern urban legends just recently recorded. The book is arranged in four sections, on Folk Narrative, Folksong, Folksay, and Folk Drama, each with an introduction and a bibliographical essay setting the material in context and indicating some of its international links. Folk literature itself is brought into firm focus by discussion and generic example, and the anthology as a whole illuminates substantial areas of Scottish social and cultural life.

A roaring, rollicking, foot-stomping farce. Ketchup Soup is an epic, and at times ribald, comedy about the lovable James Reichardt, a verbose junior copywriter who's just landed his first job at a sleepy advertising agency in New Orleans. Part genius, part naive miscreant, James suffers from illusions of grandeur, not the least of which are the beliefs that business is the key to happiness and that he is Caesar reincarnated. In his first 364 days in the Big Easy he'll join forces with the many colorful characters of the city to bring down the ad agency, swear allegiance to art and lead a revolt against capitalism at the height of Mardi Gras. A tale that is both hilarious and heartfelt, Ketchup Soup is the side-splitting story of one young man's journey through the nonconformists and dank back alleys of New Orleans.

The tragic events of September 11, 2001, forever altered the American landscape, both figuratively and literally. Immediately after the jets struck the twin towers of the World Trade Center, Dennis Smith, a former firefighter, reported to Manhattan's Ladder Co. 16 to volunteer in the rescue efforts. In the weeks that followed, Smith was present on the front lines, attending to the wounded, sifting through the wreckage, and mourning with New York's devastated fire and

police departments. This is Smith's vivid account of the rescue efforts by the fire and police departments and emergency medical teams as they rushed to face a disaster that would claim thousands of lives. Smith takes readers inside the minds and lives of the rescuers at Ground Zero as he shares stories about these heroic individuals and the effect their loss had on their families and their companies. "It is," says Smith, "the real and living history of the worst day in America since Pearl Harbor." Written with drama and urgency, *Report from Ground Zero* honors the men and women who—in America's darkest hours—redefined our understanding of courage.

A collection of reports on the situation of urban archaeology in 22 European countries. All the reports of the situation in the separate countries give amongst others attention to definitions of urban archaeology, to previous research, databases, maps and evaluation techniques in the field, to the legal framework, financial support and numbers, status and qualifications of those who work in urban archaeology, to the balance between preservation and use, the contribution of urban archaeology to education and the understanding of the historic environment. The book is the result of decisions made during the 3th International Conference of Ministers responsible for the cultural heritage, held in Malta in 1992, where the revised European Convention on the protection of the Archaeological Heritage was signed. To promote the implementation of this convention the ministers recommend a number of actions which together might form a 'European Archaeology'. This handbook was one of those actions.

Below Scotland's capital, hidden for almost two centuries, is a metropolis whose very existence was all but forgotten. For almost 250 years, Edinburgh was surrounded by a giant defensive wall. Unable to expand the city's boundaries, the burgeoning population built over every inch of square space. And when there was no more room, they began to dig down . . . Trapped in lives of poverty and crime, these subterranean dwellers existed in darkness and misery, ignored by the chroniclers of their time. It is only in the last few years that the shocking truth has begun to emerge about the sinister underground city.

National Bestseller • New York Times "100 Notable Books of the Year" • NPR "Favorite Books of 2019" • Guardian "100 Best Books of the 21st Century" • Winner of the National Outdoor Book Award From the best-selling, award-winning author of *Landmarks* and *The Old Ways*, a haunting voyage into the planet's past and future. Hailed as "the great nature writer of this generation" (*Wall Street Journal*), Robert Macfarlane is the celebrated author of books about the intersections of the human and the natural realms. In *Underland*, he delivers his masterpiece: an epic exploration of the Earth's underworlds as they exist in myth, literature, memory, and the land itself. In this highly anticipated sequel to his international bestseller *The Old Ways*, Macfarlane takes us on an extraordinary journey into our relationship with darkness, burial, and what lies beneath the surface of both place and mind. Traveling through "deep time"—the dizzying expanses of geologic time that stretch away from the present—he moves from the birth of the universe to a post-human future, from the prehistoric art of Norwegian sea caves to the blue depths of the Greenland ice cap, from Bronze Age funeral chambers to the catacomb labyrinth below Paris, and from the underground fungal networks through which trees communicate to a deep-sunk "hiding place" where nuclear waste will be stored for 100,000 years to come. Woven through Macfarlane's own travels are the unforgettable stories of descents into the underland made across history by explorers, artists, cavers, divers, mourners, dreamers, and murderers, all of whom have been drawn for different reasons to seek what Cormac McCarthy calls "the awful darkness within the world." Global in its geography and written with great lyricism and power, *Underland* speaks powerfully to our present moment. Taking a deep-time view of our planet, Macfarlane here asks a vital and unsettling question: "Are we being good ancestors to the future Earth?" *Underland* marks a new turn in Macfarlane's long-term mapping of the relations of landscape and the human heart. From its remarkable opening pages to its deeply moving conclusion, it is a journey into wonder, loss, fear, and hope. At once ancient and urgent, this is a book that will change the way you see the world.

Moved by previous visits to the Centralia, and ultimately by a trip to the now deserted town, which was bought out by the state following an unstoppable mine fire that began in 1962, the author was inspired to write a fitting eulogy. The novel is a fictional accounting based on fact and metaphorically presents the mine owners and industrialists as Satanical manifestations in need of exorcism. It is a wonderful mix of period fact with fiction - there is much to learn while enjoying a fanciful journey through the author's imagination. Sample from the book: "More water! More water damn it! The fire is spreading!" From behind a fire pumper a soot covered black-faced fireman came running and shouting. "Around the other side! Quickly!" Three more fire fighters joined in, sweat pouring from their brows in the 83 degree heat, made many times hotter by the raging fire, dragging limp cloth hose toward the quickly spreading fire that was reaching out in anger from the pit. "Charge the line," screamed a scrawny teenage fireman. The hose they were carrying quickly filled and whipped along like a disturbed snake. The fire, in the pit of an old abandoned strip mine near the Odd Fellows cemetery was started once or twice a year to burn excess municipal rubbish, but had never gotten out of control, as did this one. This fire was started on May 27 to clean up rubbish and municipal waste in preparation for the Memorial Day celebration, and was then extinguished by the fire department and was thought to have gone out. It had again re-kindled on May 29 and was put out late in the evening. It again re-kindled on June 12, though not as bad. Now it had re-kindled yet again, this time with a vengeance, as if set by Satan himself. None of the locals had ever seen such an inferno.

Reforming Urban Transport in India is an attempt to take stock of the various issues our cities and towns are facing in the area of urban transport, efforts made and being made both at the policy level as well as the field level to address the problems, the ever increasing complexities of challenges in the area of urban mobility and some of the laudable initiatives on the ground to handle the problems. This book would be a valuable addition to the limited literature available on the subject of urban transport in India. The topic has not attained much prominence even in the broader discussions on the transport sector issues in the country. The fact that we address our urban transport issues in a casual manner but there is need to take them up in a focused and purposeful manner and this can no longer be delayed is probably the one loud message which is emerging out of this volume. The wealth of knowledge of the contributors, each one of them having huge experience behind them in this sector, makes the book a valuable addition to the literature and a helpful guide in policy discussions.

When Edy Phelps falls hard for her best friend, she knows nothing can come from it. Forget actual chemistry, or the fact that she cherishes his mother more than her own; centuries of tradition say that Hassan Pradhan will grow up, marry the girl his parents select, and think nothing of his best friend: the dancer with the bursting smile. Except he can't. He won't. In a world erupting with possibilities for the boy with a body of steel and dreams of the NFL, everything seems promised while nothing at all is; when he's denied the girl he wants most. Two hearts. Two families devoted through generations of friendship. Could Edy and Hassan really risk all that? And yet how could they not?

Clay McGavran was stuck in hell. Otherwise known as Denson, Virginia - a small town in the shadows of the Blue Ridge Mountains - a town shrouded in the pain and tragedy of the past. As partner at one of Richmond's most successful construction and design firms, building someone else's dream home was his job. But when their dream brought him to the town of his nightmares, he was thrust into a past he'd worked diligently to forget. The only respite to his misery came from an unexpected - and inconvenient - source. His new assistant, Alison. To Clay, Alison was the woman whose perpetual smile and hauntingly familiar eyes were a balm to his scraped and bruised psyche. She was the antithesis of the type of woman he usually took to his bed but he found himself wanting her more

than any woman before her. And, as his employee, she was the one woman he couldn't have. His company, friendships, and reputation were at stake. He couldn't cross that line again. He'd been reckless in the past and it had nearly cost him his company - and his life. But it's not so easy to walk away when, in the fires of his personal hell, he may have stumbled headlong into his salvation. ***Due to coarse language and graphic sexual situations, this book is not intended for individuals under the age of 18.***

The story is about Lynx Ferry, a young boy who, at a very early age, is bound by a pledge he makes to his father. He will help the deprived at all times and feed everyone who comes knocking at his door. He keeps the promise, much against his mothers wishes, and nearly loses his life for helping his neighbours. He knew then that if he stays a minute longer in the kitchen, he will lose his life. He walks out of his mothers kitchen with blood running down his throat, and thats when his adventures begin. He attracts all kinds of people on his journey but mostly con artists, thieves, and drug addicts. They call him the sucker because of his desire to feed people and give his belongings to people who ask him for them. Then there is one drug addict who is out of the same neighbourhood as the boy and who knows of the boys weaknesses. He knows how to exploit it and figures that if the boy is free with his money by giving it away, then he could claim 10 per cent from the boys earnings and feed his habits. But the boy, who doesnt hold with drugs and liquor, refuses. He has better uses for his money. The boy is now streetwise and has been living outdoors for some time. He takes evasive measures and disappears from the drug addict. He travels abroad, and years later, he marries and settles down in London. By some extraordinary bad luck, the drug addict tracks him down and makes his demand, but Lynx Ferry wont budge.

The addict then teams up with a couple of local toughs, kidnaps Ferrys children, murders them, and disappears. After many years of searching to bring the murderers to justice, which proves futile, Lynx uses the power of the mind to draw them to him. Then in the frozen wasteland of the snowcapped Arctic, the subliminal message draws them out, and Lynx Ferry has his say.

?Deep in the jungle, Sarah lay beaten and bleeding, on the soft ground just outside one of the tents. She could feel the cold, damp ground through her clothes, and her wounds still ached. There was no escape, they had discovered her. She was cornered like a bird in a cage. Forty miles away Sky, Atkins and the Professor had been dangling from a tree on the side of a cliff face when the gunship arrived. They'd dropped into the roaring river below, not knowing if they would survive the fall or let alone what lay ahead. Above them, on the cliff face, The Whirlwind and his troops frantically explored the jungle for Cobra and his men. Little did they know how close they were. Just below their feet, inside a cavern, deep in the mountain, Cobra, Dutch, and Hawk-eye, were experiencing problems of their own. The walls of this strange subterranean world had started to cave-in around them, the floor was giving away beneath their feet. Was the race still on, or was this the end for them all?
