For thousands of years, the Moon has been the one thing in the night sky that everyone anywhere on our planet recognises. Trace the story of the Moon around the world and through history, from ancient legends about its creation, to its first sighting through a telescope, right up until the Apollo 11 mission and the first Moon landing in 1969.

The Usborne Book of Horses and Ponies

Young children live with awe and wonder as their daily companions. But as they grow, worries often crowd out wonder. Knowing this, how can parents strengthen their kids' love for the world so it sticks around for the long haul? Thankfully, parents have at their fingertips a miracle vaccine—one that can boost their kids' immunity to the world's distractions. Well-chosen stories connect us with others, even those on the other side of the globe. Build your kids' lives on a story-solid foundation and you'll give them armor to shield themselves from the world's cynicism. You'll give them confidence to persevere in the face of life's conflicts. You'll give them a reservoir of compassion that spills over into a lifetime of love in action. Give Your Child the World features inspiring stories, practical suggestions, and carefully curated reading lists of the best children's literature for each area of the globe. Reading lists are organized by region, country, and age range (ages 4-12). Each listing includes a brief description of the book, its themes, and any content of which parents should be aware. Parents can introduce their children to the world from the comfort of home by simply opening a book together. Give Your Child the World is poised to become a bestselling family reading treasury that promotes literacy, develops a global perspective, and strengthens family bonds while increasing faith and compassion.

Another Book about Bears

This illustrated write-in activity book gives young adventurers inspiration about exciting things to do and see around the world. Checklists and writing prompts help readers imagine dream vacations as well as giving tips on how to capture special memories of real trips.

Usborne Book of the Brain and How It Works

Ever wondered why there are so many books about bears? Discover the grizzly truth in this bear-all account! Oh please, NOT another book about bears! Bears are TIRED. SICK and TIRED. Just when they are in the middle of something really good -- like sleeping, snoozing or napping -- there comes a storybook that makes them stop what they are doing -- that is, sleeping -- and get up and be part of a story. Every story. Well, the bears have had enough. They are going on STRIKE! But what animal could take their place? Find out straight from the mouth of bears, in this hilarious interactive story from rising Australian husband and wife team Laura and Philip Bunting.

The Usborne Book of Air Travel Games

Contains lots of different activities on a travel theme for young children, including mazes, dot-to-dots and doodling on wipe-clean pages so the activities can be done again and again with the

wipe-clean pen provided. This is a fun way to help practice essential pen control skills that children need to master before they start school.

Travel Puzzles

This visually astonishing story takes children on a journey into and through the brain. Simple but beautifully illustrated metaphors explain the different jobs that our brains do, and how they use brain cells to accomplish them. From the senses to sleep, memories to making decisions, this book brings the wonder of brains and brain science to life. Conceived, written and designed by Dr Betina Ip, a practising neuroscientist who is also an artist, and a parent of two young children. Combines anatomical illustrations with metaphorical representations of brain at work. An information book that has the look and feel of a picture book.
