Reveals the course of archaeological adventures and insights that resulted in The Earth Chronicles series □ Explores links between the Old world and the New in search of evidence of extraterrestrial gods in the artifacts and murals of ancient civilizations □ Reveals archaeological cover-ups concerning Olmec origins in Mexico and ancient UFO artifacts in Turkey In this autobiographical book, the internationally acclaimed author Zecharia Sitchin reveals the foundational research and the adventurous expeditions that resulted in his writing the bestselling The Earth Chronicles series. Ranging from Mayan temples in Mexico to hidden artifacts in Istanbul, Turkey, from biblical tunnels in Jerusalem to the mysteries of Mt. Sinai, from the abode of a Sumerian goddess to Greek islands, the Expeditions! destinations and amazing discoveries unmasked established fallacies, detected the fate of mysterious artifacts, and revealed ancient connections to modern space facilities. For the first time, Sitchin shares with the reader not only his encompassing knowledge of antiquity and his field experiences, but also the concrete evidence for his conclusions that ancient myths were recollections of factual events, that the gods of ancient peoples were visitors to Earth from another planet, and that we are not alone in our own solar system. Accompanied by photographs from his personal archive, here is Sitchin's own story and his inner feelings about the cord that binds

## Puer Papers

By the time of Lucian, popular religion had ceased to hold much influence over the hearts of the cultured classes. Philosophy was the new God, but there were efforts in some circles to divert men's minds from the philosophical sects and restore a sort of unorthodox faith in the old religion. Against this artificial revival of mythological faith, Lucian pitted the influence of his tremendous satirical powers. In the "Dialogues of the Gods," he pulls the curtain aside-exposing the Gods as they engage in private disputes, domestic brawls, and love affairs, with their jealousies and scandals, their paltry strifes and petty motives. The lesson is simple: Can one worship beings with such weaknesses, such foibles, and such scandalous and immoral lives? This new translation by Baudelaire Jones breathes fresh life into ancient deities such as Zeus, Hera, Hermes, Aphrodite, Poseidon, and Athena, revealing complex, contradictory, sex-obsessed creatures that modern mortals can surely relate to.

### The Earth Chronicles Expeditions

Mary Miller seizes the mantle of southern literature with Biloxi, a tender, gritty tale of middle age and the unexpected turns a life can take. Building on her critically acclaimed novel The Last Days of California and her biting collection Always Happy Hour, Miller transports readers to this delightfully wry, unapologetic corner of the south—Biloxi, Mississippi, home to sixty-three-year-old Louis McDonald, Jr. Louis has been forlorn since his wife of thirty-seven years left him, his father passed, and he impulsively retired from his job in anticipation of an inheritance check that may not come. These days he watches reality television and tries to avoid his ex-wife and daughter, benefiting from the charity of his former brother-in-law, Frank, who religiously brings over his Chili's leftovers and always stays for a beer. Yet the past is no predictor of Louis's future. On a routine trip to Walgreens to pick up his diabetes medication, he stops at a sign advertising free dogs and meets Harry Davidson, a man who claims to have more than a dozen canines on offer, but offers only one: an overweight mixed breed named Layla. Without any rational explanation, Louis feels compelled to take the dog home, and the two become inseparable. Louis, more than anyone, is dumbfounded to find himself in love—bursting into song with improvised jingles, exploring new locales, and reevaluating what he once considered the fixed horizons of his life. With her sociologist's eye for the mundane and revealing (Joyce Carol Oates, New York Review of Books), Miller populates the Gulf Coast with Ann Beattie-like characters. A strangely heartwarming tale of loneliness, masculinity, and the limitations of each, Biloxi confirms Miller's position as one of our most gifted and perceptive writers.

is based largely on empirical experience. This book aims at explaining the coating property changes during film drying and curing in terms of chemical and physical transformations. Current test methods are reviewed with emphasis on understanding their physical basis and expressing the test results in terms of comparable physical quantities. In general, this book provides readers a deeper understanding of the binder design, coating film formation process, properties build-up, appearance and defect formation, and automotive paint application. It also suggests manifold ways to improving the coatings performance. This book is designed for coating professionals to gain deeper understanding of characterization techniques and to select the right ones to solve their coating problems. It is ideal for both experienced and early career scientists and engineers. Also, it is useful for graduate students in the general area of protective coatings.

## Introduction to Magic

This book stems from the results of an interdisciplinary European Union supported research project, WreckProtect, which investigated the decay and preservation of wooden shipwrecks under water in the Baltic Sea. It is not limited to the decay of wrecks in the Baltic alone and is aimed at all stakeholders with a vested interest in the protection of the underwater cultural heritage including marine archaeologists, conservators, engineers, and students in related fields at universities around the world. The book includes chapters on the anatomy and structure of wood and the physical and biological decay of shipwrecks under water. Well-known shipwrecks in the Baltic Sea are introduced, focusing upon their state of preservation and are compared to finds typically found in the North Sea and the Mediterranean. Microbial decay processes and their identification in both sediments and the water column are also discussed and related to other natural decay processes, as well as human impacts. Finally, a summary of available methods for the in-situ protection of wrecks is presented and a cost-benefit analysis of in-situ preservation versus conventional raising and conservation is given. Contents: 1) Introduction; 2) The Baltic Sea: a unique resource of underwater cultural heritage; 3) Other European waters; 4) The Baltic Sea environment; 5) Wood as material; 6) Wood degraders in the Baltic Sea; 7) The decay process of shipwreck timbers in the Baltic; 8) Spread of shipworm into the Baltic; 9) In-situ preservation of a wreck site; 10) Future research.

"In the sixteenth century, a rise in sexual violence in European society was exacerbated by pressure from church and state to change basic sexual customs. As the centuries since have shown escalating levels both of violence, general and sexual, and of state control, the witchcraze can be considered a portent, even a model, of some aspects of what modern Europe would be like." Over three centuries, approximately one hundred thousand persons, most of whom were women, were put to death under the guise of "witch hunts", particularly in Reformation Europe. The shocking annihilation of women from all walks of life is explored in this brilliant, authoritative feminist history. Anne Llewellyn Barstow. Barstow exposes an unrecognized holocaust -- the "ethnic cleansing" of independent women in Reformation Europe -- and examines the residual attitudes that continue to influence our culture. Barstow argues that it is only with eyes sensitive to gender issues that we can discern what really happened in the persecution and murder of these women. Her sweeping chronicle examines the scapegoating of women from the ills of society, investigates how their subjugation to sexual violence and death sent a message of control to all women, and compares this persecution of women with the enslavement and slaughter of African slaves and Native Americans. Ultimately Barstow traces the current backlash against women to its gynophobic torture-filled origins. In the process, she leaves an indelible mark on our growing understanding of the legacy of violence against women around the world.

The rites, practices, and texts collected by the mysterious UR group for the use of aspiring mages. Rare Hermetic texts published in English for the first time. Includes instructions for developing psychic and magical powers. In 1927 Julius Evola and other leading Italian intellectuals formed the mysterious UR group. Their goal: to bring their individual egos into a state of superhuman power and awareness in which they could act "magically" on the world. Their methods: the practice of ancient Tantric and Buddhist rituals and the study of rare Hermetic texts. So successful were they that rumors spread throughout Italy of the group's power, and Mussolini himself became quite fearful of them. Now for the first time in English Introduction to Magic collects the rites, practices, and knowledge of the UR group for the use of aspiring mages. Included in Introduction to Magic are instructions for creating an etheric double, speaking words of power, using fragrances, interacting with entities, and creating a "magical chain." Among the arcane texts translated are the Tibetan teachings of the Thunderbolt Diamond Path, the Mithraic mystery cult's "Grand Papyrus of Paris," and the Greco-Egyptian magical text De Mysteriis. Anyone who has exhausted the possibilities of the mundane world and is ready to take the steps necessary to purify the soul in the light of knowledge and the fire of dedication will find a number of expert mentors here.

## Dialogues of the Gods

Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

Poetry. First published in 1977, Ronald Johnson's *RADI OS* revises the first four books of *Paradise Lost* by excising words, discovering a modern and visionary poem within the seventeenth-century text. As the author explains, "To etch is 'to cut away,' and each page, as in Blake's concept of a book, is a single picture." With God and Satan crossed out, *RADI OS* reduces Milton's Baroque poem to elemental forces. In this retelling of the Fall, song precipitates from chaos, sight from fire: "in the shape / as of / above the / rose / through / rose / rising / the radiant sun."

"Forty-nine steps" refers to the Talmudic doctrine that there are forty-nine steps to meaning in every passage of the Torah. Employing this interpretive approach, Calasso offers a "secret history" of European literature and philosophy in the wake of Nietzsche, Marx, and Freud. Calasso analyzes how figures ranging from Gustav Flaubert, Gottfried Benn, Karl Kraus, Martin Heidegger, Walter Benjamin, Franz Kafka, Bertolt Brecht, and Theodor Adorno has contributed to, or been emblematic of, the current state of Western thought. This book's theme, writ large, is the power of fable - specifically, its persistence in art and literature despite its exclusion from orthodox philosophy."--BOOK JACKET.

Upon publication in 1997, The Norton Shakespeare set a new standard for teaching editions of Shakespeare's complete works. Instructors and students worldwide welcomed the fresh scholarship, lively and accessible introductions, helpful marginal glosses and notes, readable single-column format, all designed in support of the goal of the Oxford text: to bring the modern reader closer than before possible to Shakespeare's plays as they were first acted. Now, under Stephen Greenblatt's direction, the editors have considered afresh each introduction and all of the apparatus to make the Second Edition an even better teaching tool.

Originally published in 1964, The Sonnets by Ted Berrigan is considered by many to be his most important and influential book. This new annotated edition, with an introduction by Alice Notley, includes seven previously uncollected works. Like Shakespeare's sonnets, Berrigan's poems involve friendship and love triangles, but while the former happen chronologically, Berrigan's happen in the moment, with the story buried beneath a surface of names, repetitions, and fragmented experience. Reflecting the new American sensibilities of the 1960's as well as timeless poetic themes, The Sonnets is both eclectic and classical □ the poems are monumental riddles worth contemplating.

Divided into three parts--the natural world, the celestial world, and the divine world--the book systematically explains the philosophy, logic, and methods

of magic and astrology and how they work. The basis for 19th-century magical orders such as the Golden Dawn and a primary source for countless books on magical uses of stones, herbs, incense, and astrology, Agrippa's many lists and diagrams have proven invaluable to magicians since the 16th century. Yet, until now, all English editions of Agrippa's Three Books were based on the same flawed 1651 translation from the mysterious J.F. In this new translation from the original 1533 Latin edition, Eric Purdue corrects the many mistranslations, copyist mistakes, and errors introduced from other editions as well as restores all of Agrippa's original illustrations. Purdue notates every correction and offers commentary, drawing on major developments in the research of older magical and astrological texts. He also presents a nearly complete bibliography of Agrippa's primary sources, revealing Agrippa as a mainstream scholar of his day. Presenting the first new English translation of Three Books of Occult Philosophy in more than 350 years, this three-volume hardcover boxed set repairs the gaps in knowledge pervasive in the original translation and restores the magical spirit of Agrippa's masterpiece, allowing us to hear Agrippa speak again.

## The Forty-nine Steps

Towards the end of her life, the French philosopher and mystic Simone Weil (1909-43) was working on a tragedy, Venice Saved. Appearing here in English for the first time, this play explores the realisation of Weil's own thoughts on tragedy. A figure of affliction, a central theme in Weil's religious metaphysics, the central character offers a unique insight into Weil's broader philosophical interest in truth and justice, and provides a fresh perspective on the wider conception of tragedy itself. The play depicts the plot by a group of Spanish mercenaries to sack Venice in 1618 and how it fails when one conspirator, Jaffier, betrays them to the Venetian authorities, because he feels compassion for the city's beauty. The edition includes notes on the play by the translators as well as introductory material on: the life of Weil; the genesis and purport of the play; Weil and the tragic; the issues raised by translating Venice Saved. With additional suggestions for further reading, the volume opens up an area of interest and research: the literary Weil.
